

pests: *Bactrocera cucurbitae*, *B. invadens*, *Ceratitis capitata*, *Ceratitis rosa*, *Chrysodeixis chalcites*, *Helicoverpa armigera*, *H. assulta*, *Leucinodes orbonalis*, *Maconellicoccus hirsutus*, and *Nipaecoccus viridis*.

(1) *Production site requirements.* (i) Production sites in which the tomatoes are produced must be registered with the national plant protection organization (NPPO) of the exporting country. Initial approval of production sites must be completed jointly by the NPPO of the exporting country and APHIS.

(ii) The NPPO of the exporting country must visit and inspect the production sites monthly, beginning 2 months before the harvest and continuing through the end of the shipping season. APHIS may monitor the production sites if necessary.

(iii) Production sites must be pest-exclusionary structures (PES). The PES must have self-closing double doors. All openings, including vents, to the outside of the PES must be covered by screening with mesh openings of not more than 1.6 mm.

(iv) No shade trees may be grown within 10 meters of the entry door of the PES, and no other fruit fly host plants may be grown within 50 meters of the entry door of the PES.

(2) *Mitigation measures for fruit flies.* (i) Beginning 2 months prior to the start of the shipping season and continuing through the end of the harvest, the NPPO of the exporting country must set and maintain fruit fly traps with an APHIS-approved protein bait inside each PES at a rate of eight traps per hectare, with a minimum of four traps in each PES, and check the traps every 7 days. The NPPO of the exporting country must maintain records of trap placement, trap maintenance, and captures of any fruit flies of concern. The NPPO must maintain trapping records for 1 year, and make the records available to APHIS upon request.

(ii) Capture of a single fruit fly of concern inside a PES will immediately result in cancellation of exports to the United States from that PES. The detection of a fruit fly of concern in a consignment at the port of entry that is traced back to a PES will also result in immediate cancellation of exports to the United States from that PES. In both cases, exports from the PES in question may not resume until APHIS and the NPPO of the exporting country have mutually determined that the risk has been properly mitigated.

(3) *Harvesting requirements.* The stem and calyx must be removed from the tomato.

(4) *Packinghouse requirements.* (i) While in use for exporting tomatoes to the United States, the packinghouses may only accept fruit from registered production sites.

(ii) No shade trees may be grown within 10 meters of the entry door of the packinghouses, and no other fruit fly host plants may be grown within 50 meters of the entry door of the packinghouses.

(5) *Post-harvest procedures.* (i) The tomatoes must be safeguarded by an insect-proof mesh screen or plastic tarpaulin while in transit to the packinghouse and while awaiting packing.

(ii) Tomatoes must be packed within 24 hours of harvest in insect-proof cartons or containers, or covered with insect-proof mesh or a plastic tarpaulin for transport to the United States. These safeguards must remain intact until arrival in the United States or the consignment will be denied entry into the United States.

(iii) If transported by sea, the containers in which the tomatoes are packed must be kept closed if stored within 20 meters of a fruit fly host prior to being loaded on the vessel.

(6) *Commercial consignments.* The tomatoes may be imported in commercial consignments only.

(7) *Phytosanitary certificate.* Each consignment of tomatoes must be accompanied by a phytosanitary certificate issued by the NPPO of the exporting country, providing an additional declaration "These tomatoes were grown in registered production sites in [name of country] and the consignment has been inspected and found free of quarantine pests."

BILLING CODE 3410-34-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2011-0585; Airspace Docket No. 11-AWP-9]

Proposed Modification of Class E Airspace; Blythe, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify Class E airspace at Blythe, CA. Controlled airspace is necessary to accommodate aircraft using Area Navigation (RNAV) Global Positioning System (GPS) standard instrument approach procedures at Blythe Airport. The FAA is proposing this action to enhance the safety and management of aircraft operations at the airport.

DATES: Comments must be received on or before September 16, 2011.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590; telephone (202) 366-9826. You must identify FAA Docket No. FAA-2011-0585; Airspace Docket No. 11-AWP-9, at the beginning of your comments. You may also submit comments through the Internet at <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Eldon Taylor, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue, SW., Renton, WA 98057; telephone (425) 203-4537.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA-2011-0585 and Airspace Docket No. 11-AWP-9) and be submitted in triplicate to the Docket Management System (see **ADDRESSES** section for address and phone number). You may also submit comments through the Internet at <http://www.regulations.gov>.

Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed stamped postcard on which the following statement is made: "Comments to FAA Docket No. FAA-2011-0585 and Airspace Docket No. 11-AWP-9". The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's Web page at http://www.faa.gov/airports_airtraffic/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 1601 Lind Avenue, SW., Renton, WA 98057.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking, (202) 267-9677, for a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by modifying Class E airspace extending upward from 700 feet above the surface at Blythe Airport, Blythe, CA. Additional controlled airspace is necessary to accommodate aircraft using the RNAV (GPS) standard instrument approach procedures at Blythe Airport. This action would enhance the safety and management of aircraft operations at the airport.

Class E airspace designations are published in paragraph 6005, of FAA Order 7400.9U, dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it creates additional controlled airspace at Blythe Airport, Blythe, CA.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9U, Airspace Designations and Reporting Points, dated August 18, 2010, and

effective September 15, 2010 is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

AWP CA E5 Blythe, CA [Modified]

Blythe Airport, CA

(Lat. 33°37'09" N., long. 114°43'01" W.)

That airspace extending upward from 700 feet above the surface within a 6.7-mile radius of the Blythe Airport, and within 4 miles south and 1.2 miles north of the 264° bearing from the airport extending from the 6.7-mile radius to 10 miles west of the airport. That airspace extending upward from 1,200 feet above the surface within an area bounded by lat. 33°50'00" N., long. 114°21'00" W.; to lat. 33°42'00" N., long. 114°17'00" W.; to lat. 33°41'30" N., long. 114°07'30" W.; to lat. 33°27'00" N., long. 114°09'00" W.; to lat. 33°28'00" N., long. 114°13'00" W.; to lat. 33°28'30" N., long. 114°28'00" W.; to lat. 33°26'00" N., long. 115°04'00" W.; to lat. 33°53'00" N., long. 115°07'00" W.; to lat. 34°15'00" N., long. 114°50'00" W.; to lat. 34°15'00" N., long. 114°28'00" W.; to lat. 33°52'00" N., long. 114°29'00" W., thence to the point of beginning, and that airspace within a 15.8-mile radius of Blythe Airport extending clockwise from the 124° bearing to the 227° bearing from Blythe Airport.

Issued in Seattle, Washington, on July 19, 2011.

John Warner,

Manager, Operations Support Group, Western Service Center.

RIN 2125-AF41

National Standards for Traffic Control Devices; the Manual on Uniform Traffic Control Devices for Streets and Highways; Revision

AGENCY: Federal Highway Administration (FHWA), (DOT).

ACTION: Proposed rule; request for comments.

SUMMARY: The Manual on Uniform Traffic Control Devices (MUTCD) is incorporated in our regulations, approved by the Federal Highway Administration, and recognized as the national standard for traffic control devices used on all streets, highways, bikeways, and private roads open to public travel. The FHWA proposes to
