Federal Highway Administration

Notice of Final Federal Agency Actions on Proposed Highway in Washington

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of limitation on claims for judicial review of actions by FHWA and other Federal agencies.

SUMMARY: This notice announces actions taken by FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139(l)(1). The actions relate to the I–405, Bellevue to Lynnwood Improvement Project, located in the cities of Bellevue; Kirkland, Bothell, Lynnwood, and the counties of King and Snohomish along Interstate (I)–405 in the State of Washington. These actions grant licenses, permits, and approvals for the project.

DATES: By this notice, FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(1). A claim seeking judicial review of the Federal agency actions on the listed highway project will be barred unless the claim is filed on or before January 30, 2012. If the Federal law that authorizes judicial review of a claim provides a time period of less than 180 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: Pete Jilek, Urban Area Engineer, Federal Highway Administration, 711 S. Capitol Way #501, Olympia, Washington, 98501; *telephone:* (360) 753–9550; and *e-mail:* pete.jilek@dot.gov. The FHWA Washington Division Urban Area Engineer's regular office hours are between 6 a.m. and 3:30 p.m. (Pacific Time). You may also contact William Jordan, I–405 Environmental Manager, Washington State Department of Transportation, 600–108th Avenue NE., Suite 405, Bellevue, Washington, 98004; *telephone:* (425) 457–0642; and *e-mail:* william.jordan@i405.wsdot.wa.gov. The I–405 Corridor Program's regular office hours are between 8 a.m. and 5 p.m. (Pacific Time).

SUPPLEMENTARY INFORMATION: Notice is hereby given that FHWA and other Federal agencies have taken final agency actions by issuing licenses, permits, and approvals for the following highway project in the State of Washington: I–405, Bellevue to Lynnwood Improvement Project. The Project begins on I–405 at NE. 6th Street in Bellevue (milepost [MP] 13.5) at the southern limit, and extends approximately 17 miles to I–5 in Lynnwood (MP 30.0) at the northern limit.

This Project complements the I–405, SR 520 to SR 522—Kirkland Nickel Project, the NE. 195th Street to SR 527 Auxiliary Lane Project (opened in 2010); and the NE. 8th Street to SR 520 Braided Ramps Project (scheduled to open in 2012). The Bellevue to Lynnwood Improvement Project description assumes full completion of the Kirkland Nickel Project, the first stage of which was opened to traffic in late 2007. The Bellevue to Lynnwood Improvement Project will provide:

- One additional northbound lane between NE. 124th Street and SR 522;
- Braided ramps between the I–405 northbound on-ramp from NE. 160th Street and the northbound I–405 off-ramp to SR 522;
- Southbound transit shoulders between SR 522 and NE. 160th Street and between SR 527 and NE. 195th Street;
- New northbound and southbound structures over NE. 132nd Street and a new northbound structure over the railroad for the I–405 northbound off-ramp to NE. 124th Street;
- Small amounts of additional widening, between four and eight feet, at several locations for buffers, wider shoulders, tolling equipment, Washington State Patrol enforcement areas, and WSDOT maintenance pull-outs; and
- Minor upgrades to pedestrian facilities in some interchange areas.

WSDOT will also implement an express toll lane system. The system will provide two express toll lanes in each direction between NE. 6th Street and SR 522 and one express toll lane in each direction between SR 522 and I-5.

These actions by the Federal agencies, and the laws under which such actions were taken, are described in the May 2011 Environmental Assessment (EA) and in the July 20, 2011, Finding of No Significant Impact (FONSI), and in other documents in the FHWA administrative record. The EA, FONSI and other documents in the FHWA administrative record are available by contacting FHWA or WSDOT at the addresses provided above. The EA can be viewed and downloaded from the project Web site at <http://www.wsdot.wa.gov/projects/i405> or viewed at public libraries in the project area.

This notice applies to all Federal agency decisions on the project as of the issuance date of this notice and all laws under which such actions were taken, including but not limited to:

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance from certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

West Texas & Lubbock Railway

[Waiver Petition Docket Number FRA–2011–0019]

The West Texas & Lubbock Railway (WTLC) seeks a waiver of compliance from certain provisions of the Safety Glazing Standards, specifically 49 CFR Section 223.13, *Requirements for existing cabooses*. WTLC has petitioned for one caboose, built in 1960 for the Great Northern Railroad, as their X–40. There have been no accidents and/or incidents attributed directly or indirectly to window glazing failures in this equipment while under current ownership. WTLC states that Caboose WTLC X–40 is operated as a shove platform on freight and excursion passenger trains where a run-around track is unavailable. This improves safety, as it eliminates the need for railroad employees to ride the side of freight equipment on long shoving or backup movements. Specifically, this car operates on WTLC's 106.64 miles of track from Lubbock to Seagraves and to Whiteface, TX.

WTLC also states that the caboose will not be interchanged with any other railroad, and will be operated at a speed limit of 25 mph for freight and 30 mph for excursion passenger trains. It typically operates no more than 40 miles in a day. WTLC has issued a Special Notice informing all personnel of the 49 CFR 215.13 condition of this caboose.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA–2011–0019) and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
