## **NUCLEAR REGULATORY COMMISSION**

**[NRC-2011-0177; Docket No. 40-00235, License No. STB-0362 (Terminated)]**

### **AAR Manufacturing, Inc.; Completion of Radiological Survey Activities at CSX Transportation Property Near Inkster Road in Livonia, MI**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of acceptability.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is noticing the acceptability for unrestricted use of the CSXT property near Inkster Road in Livonia, Michigan.

**ADDRESSES:** You can access publicly available documents related to this notice using the following methods:

- *NRC's Public Document Room (PDR):* The public may examine and have copied for a fee publicly available documents at the NRC's PDR, Room O1 F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

- *NRC's Agencywide Documents Access and Management System (ADAMS):*

Publicly available documents created or received at the NRC are available electronically at the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. From this page, the public can gain entry into ADAMS, which provides text and image files of the NRC's public documents. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC's PDR reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov).

**FOR FURTHER INFORMATION CONTACT:** Duane Schmidt, Senior Health Physicist, FSME, Division of Waste Management and Environmental Protection, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: 301-415-6919, e-mail: [duane.schmidt@nrc.gov](mailto:duane.schmidt@nrc.gov).

**Background:** The CSXT property located near Inkster Road is not subject to a license issued by the NRC. It consists of operating rail lines and associated right-of-way and is located to the west of Inkster Road in Livonia, Michigan. The parcel is adjacent to, and runs parallel to, the southern boundary of the AAR Manufacturing, Inc. (AAR) site. The AAR site was formerly owned by Brooks and Perkins, Inc. (B&P), a licensee of the NRC's predecessor agency, the U.S. Atomic Energy Commission (AEC). AEC Source Material License No. D-547 was issued to B&P on January 17, 1957, and was superseded by License STB-0362 on August 10, 1961. AEC terminated License STB-0362 on May 17, 1971. In 1981, AAR purchased B&P and obtained the property. In March 1994, the NRC informed AAR that radioactive thorium surface and subsurface contamination had been detected at several locations on the site and requested that AAR perform radiological surveys and remediation activities (ADAMS Accession No. ML110670259). The AAR site was added to the Site Decommissioning Management Plan list in August 1994.

In May 1997, NRC inspectors performed a limited radiation survey of the CSXT right-of-way adjacent to the AAR site. NRC staff provided the inspection report to CSXT in a June 12, 1997, letter; the report identified three locations with elevated levels of thorium in the soil (ADAMS Accession No. ML091000360). NRC staff considered the possibility that some residual radioactive material may have spread from the AAR site onto the CSXT property. In a September 8, 1997, letter, NRC requested that CSXT provide an accurate characterization of the property (ADAMS Accession No. ML101250613). CSXT submitted the report to NRC on September 13, 2000 (ADAMS Accession No. ML090680748). The CSXT conclusion in this report was that the dose modeling results demonstrate that no remedial actions or restrictions on site usage are required and that the total site dose does not exceed the 25 mrem/year NRC criteria for unrestricted release. NRC staff reviewed the CSXT report and concluded that the surveys and measurements were generally not consistent with NRC guidance. After evaluating the existing data for the CSXT property, the NRC staff decided to have the NRC independent survey contractor perform confirmatory surveys of the CSXT property.

Based on the survey and sampling results, as well as an all-pathways analysis of the potential doses to the public from the residual radioactivity at

the site, it was determined that contamination on the CSXT property would result in doses well below NRC's criteria for unrestricted use. Therefore the NRC staff concludes that no further action is needed by CSXT. NRC will not require remediation activities at the site unless new information demonstrates that the criteria in 10 CFR Part 20, Subpart E, "Radiological Criteria for License Termination," are not being met and residual radioactivity at the site could result in a significant threat to public health and safety. The NRC staff documented its review in a Safety Evaluation Report (SER) (ADAMS Accession No. ML111370451).

Dated at Rockville, Maryland this 28th day of July, 2011.

For the Nuclear Regulatory Commission.

**Keith I. McConnell,**

*Deputy Director, Decommissioning and Uranium Recovery Licensing Directorate, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs.*

## **NUCLEAR REGULATORY COMMISSION**

**[NRC-2010-0206; Docket No. 50-443]**

### **NextEra Energy Seabrook, LLC; Notice of Availability of Draft Supplement 46 to the Generic Environmental Impact Statement for License Renewal of Nuclear Plants and Public Meetings for the License Renewal of Seabrook Station, Unit 1**

Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) has published a draft plant-specific supplement to the Generic Environmental Impact Statement for License Renewal of Nuclear Plants (GEIS), NUREG-1437, regarding the renewal of operating license NPF-86 for an additional 20 years of operation for Seabrook Station, Unit 1 (Seabrook). Seabrook is located 13 miles south of Portsmouth, New Hampshire. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources.

Any interested party may submit comments on the draft supplement to the GEIS for consideration by the NRC staff. To be considered, comments on the draft supplement to the GEIS and the proposed action must be received by October 26, 2011. The NRC staff is able to ensure consideration only for comments received on or before this date.

**ADDRESSES:** Please include Docket ID NRC-2010-0206 in the subject line of your comments. Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site, <http://www.regulations.gov>. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed.

You may submit comments by any one of the following methods:

- **Federal Rulemaking Web Site:** Go to <http://www.regulations.gov> and search for documents filed under Docket ID NRC-2010-0206. Address questions about NRC dockets to Carol Gallagher at 301-492-3668 or by e-mail at [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov).

- **Mail comments to:** Cindy Bladey, Chief, Rules, Announcements, and Directives Branch (RADB), Division of Administrative Services, Office of Administration, Mail Stop: TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

- **Fax comments to:** RADB at 301-492-3446.

You can access publicly available documents related to this notice using the following methods:

- **NRC's Public Document Room (PDR):** The public may examine and have copied, for a fee, publicly available documents at the NRC's PDR, Public File Area O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** Publicly available documents created or received at the NRC are available online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. From this page, the public can gain entry into ADAMS, which provides text and image files of NRC's public documents. If you do not have access to ADAMS, or if there are problems in accessing the documents located in ADAMS, contact the NRC's PDR reference staff at 1-800-397-4209, 301-415-4737, or by e-mail at [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The Accession

Number for draft Supplement 46 to the GEIS is ML11213A080.

- **Federal Rulemaking Web site:** Public comments and supporting materials related to this notice can be found at <http://www.regulations.gov> by searching for Docket ID NRC-2010-0206.

In addition, a copy of the draft supplement to the GEIS is available to local residents near the site at the Seabrook Library located at 25 Liberty Street, Seabrook, NH 03874, and at the Amesbury Public Library located at 149 Main Street, Amesbury, MA 01913.

All comments received by the NRC, including those made by Federal, State, and local agencies; Native American Tribes; or other interested persons, will be made available electronically at the NRC's PDR in Rockville, Maryland, and through ADAMS. Comments received after the due date will be considered only if it is practical to do so.

The NRC staff will hold public meetings prior to the close of the public comment period to present an overview of the draft plant-specific supplement to the GEIS and to accept public comments on the document. Two meetings will be held at One Liberty Lane in Hampton, New Hampshire, on Thursday, September 15, 2011. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7 p.m. and will continue until 10 p.m., as necessary. The meetings will be transcribed and will include: (1) a presentation of the contents of the draft plant-specific supplement to the GEIS and (2) the opportunity for interested government agencies, organizations, and individuals to provide comments on the draft report. Additionally, the NRC staff will host informal discussions one hour prior to the start of each session at the same location. No comments on the draft supplement to the GEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing. Persons may pre-register to attend or present oral comments at the meeting by contacting Mr. Michael Wentzel, the NRC Environmental Project Manager, at 1-800-368-5642, extension 6459, or by e-mail at [michael.wentzel@nrc.gov](mailto:michael.wentzel@nrc.gov) no later than Friday, September 9, 2011. Members of the public may also register to provide oral comments within 15 minutes of the start of each session. Individual oral comments may be limited by the time available, depending on the number of persons who register. If special equipment or accommodations are needed to attend or present information

at the public meeting, the need should be brought to Mr. Wentzel's attention no later than September 9, 2011, to provide the NRC staff adequate notice to determine whether the request can be accommodated.

**FOR FURTHER INFORMATION CONTACT:** Mr. Michael Wentzel, Division of License Renewal, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Mail Stop O-11F1, Washington, DC 20555-0001. Mr. Wentzel may be contacted at the aforementioned telephone number or e-mail address.

Dated at Rockville, Maryland this 1st day of August 2011.

For the Nuclear Regulatory Commission.

**Lisa M. Regner,**

*Acting Chief, Projects Branch 2, Division of License Renewal, Office of Nuclear Reactor Regulation.*

## **NUCLEAR WASTE TECHNICAL REVIEW BOARD**

**Board Meeting: September 13-14, 2011—Salt Lake City, UT; the U.S. Nuclear Waste Technical Review Board Will Meet To Discuss DOE Plans for Used Fuel Disposition R&D**

Pursuant to its authority under section 5051 of Public Law 100-203, Nuclear Waste Policy Amendments Act of 1987, the U.S. Nuclear Waste Technical Review Board will hold a public meeting in Salt Lake City, Utah, on Tuesday, September 13, and Wednesday, September 14, 2011, to discuss the Department of Energy's (DOE) plans for research and development (R&D) related to its Used Fuel Disposition Program. The Board will hear presentations on a range of studies being supported by the Office of Used Fuel Disposition, including research on transportation and long-term storage of spent nuclear fuel (SNF), studies of various geologic media that might be considered for disposing of SNF and high-level radioactive waste (HLW), and DOE's Used Fuel Disposition R&D "Roadmap." Other issues that will be discussed at the meeting include a preliminary report by the Blue Ribbon Commission on America's Nuclear Future and the implications for waste management of the experiences of commercial nuclear reactors using MOX fuel.

The meeting sessions will begin on both days at 8 a.m. and will be held at the Little America Hotel; 500 South Main Street; Salt Lake City, Utah 84101;
