New York Independent System Operator, Inc.; Notice of Request for Waiver and Shortened Notice Period

On July 29, 2011, the New York Independent System Operator, Inc. (NYISO) filed a notification of its inability to timely complete price corrections, a request for a limited tariff waiver to permit ancillary service prices to be corrected with the corrected prices to be posted by the end of Monday, August 1, 2011, and a request for a shortened notice period and expedited Commission action. NYISO requests a shortened answer period to facilitate expedited Commission consideration. NYISO states that good cause exists for the Commission to act on an expedited basis because until the Commission acts on NYISO's waiver request, NYISO and market participants will not know if

certain posted real-time ancillary service prices are correct and final.

By this notice, the period for filing answers to NYISO's request for a tariff waiver is shortened to and including August 3, 2011.

Dated: July 29, 2011.

What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

- (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- (iii) enhance the quality, utility, and clarity of the information to be collected; and

- (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
