BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 14170-000]

Riverbank Hydro No. 14, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On May 2, 2011, Riverbank Hydro No. 14, LLC (Riverbank Hydro), filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Tuttle Creek Hydroelectric Project (Tuttle Creek Project or project) to be located at the U.S. Army Corps of Engineers' (Corps) Tuttle Creek Dam, on Big Blue River, near Manhattan, Riley County, Kansas. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A 350-foot-long, 16-foot-diameter penstock bifurcating from the existing outlet structure; (2) a 100-foot-long, 50-foot-wide concrete powerhouse containing one turbine with a generator rating of 7.9 megawatts; (3) a tailrace structure directing flows from the powerhouse back into the river channel downstream of the existing dam; (4) a 2.8-mile-long, 25-kilovolt transmission line connecting the project to an existing transmission line; and (5) appurtenant facilities. The estimated annual generation of the Tuttle Creek Project would be 30.5 gigawatt-hours.

Applicant Contact: Mr. Kuo-Bao Tong, Riverbank Power Corporation, Royal Bank Plaza, South Tower, P.O. Box 166, 200 Bay Street, Suite 3230, Toronto, Ontario, Canada M5J2J4; phone: (416) 861-0092, extension 154.

FERC Contact: Sergiu Serban; phone: (202) 502-6211.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of

intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-14170-000) in the docket number field to access the document. For assistance, contact FERC Online Support.

Dated: August 9, 2011.

Kimberly D. Bose,
Secretary.

Southwestern Power Administration

Integrated System Power Rates: Correction

AGENCY: Southwestern Power Administration, DOE.

ACTION: Notice of public review and comment; Correction.

SUMMARY: Southwestern Power Administration published a document in the **Federal Register** (76 FR 48159) on August 8, 2011, announcing the public review and comment period on proposed rates. Inadvertently, the date listed for the combined Public Information and Comment Forum (Forum) was erroneously listed in the **DATES** section as of August 16, 2011. The correct date and time for the Forum, if requested, will be August 30, 2011, at 9 a.m.

FOR FURTHER INFORMATION CONTACT: Mr. James K. McDonald, Assistant Administrator, Office of Corporate Operations, Southwestern Power Administration, U.S. Department of Energy, One West Third Street, Tulsa, Oklahoma 74103, (918) 595-6690, jim.mcdonald@swpa.gov.

Dated: August 10, 2011.

Jon Worthington,
Administrator.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OW-2004-0013; FRL-9452-1]

Agency Information Collection Activities; Proposed Collection; Comment Request; EPA Strategic Plan Information on Source Water Protection

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a request to renew an existing approved Information Collection Request (ICR) to the Office of Management and Budget (OMB). This ICR is scheduled to expire on December 31, 2011. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described in the **SUPPLEMENTARY INFORMATION** section.

DATES: Comments must be submitted on or before October 17, 2011.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OW-2004-0013 by one of the following methods:

- <http://www.regulations.gov>: Follow the on-line instructions for submitting comments.
- *E-mail:* OW-Docket@epa.gov.
- *Mail:* Water Docket, Environmental Protection Agency, EPA Docket Center (EPA/DC), Mailcode: 4101T, 1200 Pennsylvania Ave., NW., Washington, DC 20460.
- *Hand Delivery:* The EPA Docket Center at the Public Reading Room, Room B3334, EPA West Building, 1301 Constitution Avenue, NW., Washington, DC. Such deliveries are only accepted during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA-HQ-OW-2004-0013. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <http://www.regulations.gov> or e-mail. The <http://www.regulations.gov> Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov> your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

FOR FURTHER INFORMATION CONTACT: Beth Hall, Drinking Water Protection Division—Prevention Branch, Office of Ground Water and Drinking Water (MC 4606M), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; *telephone number:* 202-564-3883; *fax number:* 202-564-3756; *e-mail address:* hall.beth@epa.gov.

SUPPLEMENTARY INFORMATION:

How can I access the docket and/or submit comments?

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OW-2004-0013, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Water Docket in the EPA Docket Center (EPA/DC), EPA West, Room B3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8

a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Water Docket is 202-566-2426.

Use www.regulations.gov to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified in this document.

What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Offer alternative ways to improve the collection activity.

6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What information collection activity or ICR does this apply to?

Affected entities: Entities potentially affected by this action are State environmental and health agencies.

Title: EPA Strategic Plan Information on Source Water Protection.

ICR numbers: EPA ICR No. 1816.05, OMB Control No. 2040-0197.

ICR status: This ICR is currently scheduled to expire on December 31, 2011. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA is collecting, on a voluntary basis, data from the states on their progress toward substantial implementation of prevention strategies for all community water systems (CWSs). The information to be collected will help states and EPA understand the progress toward the Agency's goal of increasing the number of CWSs (and the populations they serve) with minimized risk to public health through development and implementation of source water protection strategies for source water areas. The Safe Drinking Water Act, while authorizing the generation of this data, does not require the implementation of source water protection programs by States. Section 1452 of the Safe Drinking Water Act allows the use of Drinking Water State Revolving Fund monies for support efforts in the information collection.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 27.6 hours per annual response for each respondent, or 4,224 hours over the next three years of the information collection. Burden means the total time, effort, or financial

resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 51.

Frequency of response: annual.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 1,408.

Estimated total annual costs: \$58,325. All of this cost is associated with labor; there are no capital investment or maintenance and operational costs associated with this ICR.

Are there changes in the estimates from the last approval?

There is a decrease of 308 hours in the total estimated annual respondent burden compared with that identified in the ICR currently approved by OMB. This decrease results from reduced labor burden associated with automated reporting of progress toward developing and implementing prevention strategies for all community water systems via the Safe Drinking Water Information System (SDWIS). EPA estimates that 11 states will incur reduced burden by using the capabilities of SDWIS to report to EPA on the status of contamination prevention efforts in their states.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the

technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: August 11, 2011.

Ronald W. Bergman,

Acting Director, Office of Ground Water & Drinking Water.

[FR Doc. 2011-20827 Filed 8-15-11; 8:45 am]

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9451-8]

Science Advisory Board Staff Office; Notification of Public Teleconferences of the Science Advisory Board Radiation Advisory Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA Science Advisory Board (SAB) Staff Office announces two teleconferences of the SAB Augmented Radiation Advisory Committee (RAC) to discuss the draft advisory report related to uranium and thorium in-situ leach recovery and post-closure stability monitoring.

DATES: The public teleconferences will be conducted on Tuesday, September 6, 2011 and Wednesday, October 5, 2011, from 1 p.m. to 4 p.m. (Eastern Daylight Time).

ADDRESSES: The public teleconferences will be conducted by telephone only.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding this Notice may contact Dr. K. Jack Kooyoomjian, Designated Federal Officer (DFO), SAB Staff Office (1400R), 1200 Pennsylvania Avenue, NW., Washington, DC 20460; or by telephone/voice mail at (202) 564-2064, or via e-mail at kooyoomjian.jack@epa.gov. General information concerning the EPA Science Advisory Board can be found at the EPA SAB Web site at <http://www.epa.gov/sab>.

Technical Contact: Technical background information pertaining to the Uranium In-Situ leach recovery—Post-Closure Stability Monitoring can be found at <http://www.epa.gov/radiation/tenorm/pubs.html>. Information pertaining to EPA's regulatory standards in 40 CFR part 192—Health and Environmental Protection Standards for Uranium and Thorium Mill Tailings can be found at <http://yosemite.epa.gov/oepi/rulegate.nsf/byRIN/2060-AP43?opendocument>. For questions concerning the technical aspects of this topic, please contact Dr. Mary E. Clark of the U.S. EPA, ORIA by telephone at

(202) 343-9348, or via e-mail at clark.marye@epa.gov.

SUPPLEMENTARY INFORMATION:

Background: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical peer review advice, consultation and recommendations to the EPA Administrator on the technical basis for Agency actions, positions and regulations. As a Federal Advisory Committee, the SAB conducts business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. App. 2) and related regulations. Pursuant to FACA and EPA policy, notice is hereby given that the augmented RAC will hold two public teleconferences. The SAB will comply with the provisions of FACA and all appropriate EPA and SAB Staff Office procedural policies.

The EPA has requested the SAB review the Agency draft technical document on ISL/ISR post closure stability monitoring to evaluate what criteria should be considered to establish a specific period of monitoring for ISL/ISR facilities, once uranium extraction operations are completed. Among the issues to be considered are whether specific site characteristics, features or benchmarks can be used to aid in establishing a post-closure monitoring time period; and if other technical approaches should be considered by EPA to provide reasonable assurances of aquifer stability and groundwater protection. The Agency's draft technical document will be used as a basis to evaluate the technical and scientific issues pertaining to standards in 40 CFR part 192—Health and Environmental Protection Standards for Uranium and Thorium Mill Tailings. The SAB RAC augmented with additional experts held an initial public teleconference of July 12, 2011 and a two-day meeting on July 18 and 19, 2011 to discuss advisory comments on the EPA's June 2011 draft technical document entitled "*Considerations Related to Post-Closure Monitoring of Uranium In-Situ Leach/In-Situ Recovery (ISL/ISR) Sites*". These previous meetings were announced in the **Federal Register** on Thursday, June 23, 2011 (Vol. 76, No. 121, pp. 36918-36919). The purpose of the September 6, 2011 and October 5, 2011 public teleconferences is for the augmented RAC to discuss its draft advisory report on this topic.

Availability of Meeting Materials: The Agenda, roster of the augmented RAC,
