BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2011-0002; Internal Agency Docket No. FEMA-B-1212]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Comments are requested on the proposed Base (1% annual-chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed in the table below. The purpose of this proposed rule is to seek general information and comment regarding the proposed regulatory flood elevations for the reach described by the downstream and upstream locations in the table below. The BFEs and modified BFEs are a part of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). In addition, these elevations, once finalized, will be used by insurance agents and others to calculate appropriate flood insurance

premium rates for new buildings and the contents in those buildings.

DATES: Comments are to be submitted on or before November 15, 2011.

ADDRESSES: The corresponding preliminary Flood Insurance Rate Map (FIRM) for the proposed BFEs for each community is available for inspection at the community's map repository. The respective addresses are listed in the table below.

You may submit comments, identified by Docket No. FEMA-B-1212, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064, or (e-mail) luis.rodriguez1@dhs.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-4064, or (e-mail) luis.rodriguez1@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities.

These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

Comments on any aspect of the Flood Insurance Study and FIRM, other than the proposed BFEs, will be considered. A letter acknowledging receipt of any comments will not be sent.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Executive Order 12866, Regulatory Planning and Review. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866, as amended.

Executive Order 13132, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This proposed rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*;
Reorganization Plan No. 3 of 1978, 3 CFR,
1978 Comp., p. 329; E.O. 12127, 44 FR 19367,
3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the
authority of § 67.4 are proposed to be
amended as follows:

State	City/town/county	Source of flooding	Location **	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground ^ Elevation in meters (MSL)	
				Existing	Modified
City of Denver, Colorado					
Colorado	City of Denver	First Creek	Approximately 1,340 feet downstream of Pena Boulevard West.	None	+5308
			Approximately 0.5 mile upstream of 42nd Avenue.	None	+5440
Colorado	City of Denver	First Creek	At the First Creek confluence	None	+5382
			Tributary T	At the upstream side of Picadilly Road	None

* National Geodetic Vertical Datum.

+ North American Vertical Datum.

Depth in feet above ground.

^ Mean Sea Level, rounded to the nearest 0.1 meter.

** BFEs to be changed include the listed downstream and upstream BFEs, and include BFEs located on the stream reach between the referenced locations above. Please refer to the revised Flood Insurance Rate Map located at the community map repository (see below) for exact locations of all BFEs to be changed.

Send comments to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472.

ADDRESSES**City of Denver**

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 54

[WC Docket Nos. 03-109 and 11-42; CC Docket No. 96-45; DA 11-1346]

Further Inquiry Into Four Issues in the Universal Service Lifeline/Link Up Reform and Modernization Proceeding

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; solicitation of comments.

SUMMARY: The Federal Communications Commission (Commission) sought public comment on proposed reforms that would assist the Commission in assessing strategies to increase broadband adoption, without increasing overall program size. Based on the current record in this proceeding, four issues in particular merit further inquiry. In this document, the Commission seeks further inquiry on four issues: designing and implementing a Lifeline/Link Up broadband pilot program to evaluate whether and how Lifeline/Link Up can effectively support broadband adoption by low-income households; limiting the availability of Lifeline support to one discount per residential address; revising the definition of Link Up service, as well as the possible reduction of the \$30 reimbursement amount for Link Up support; and improving methods for verifying continued eligibility for the program. The Commission believes that this analysis would benefit from further development of these issues in the record, and therefore seek further comment focused on these areas.

DATES: Comments are due on or before August 26, 2011. Reply comments are due on or before September 2, 2011.

ADDRESSES: Interested parties may file comments and reply comments on or before the dates indicated above. All comments are to reference WC Docket Nos. 11-42, 03-109, and CC Docket No. 96-45 and may be filed using: (1) The Commission's Electronic Comment Filing System (ECFS) or (2) by filing

paper copies. See *Electronic Filing of Documents in Rulemaking Proceedings*, 63 FR 24121, May 1, 1998.

- **Electronic Filers:** Comments may be filed electronically using the Internet by accessing the ECFS: <http://fjallfoss.fcc.gov/ecfs2/>.

- **Paper Filers:** Parties who choose to file by paper must file an original and one copy of each filing. If more than one docket or rulemaking number appears in the caption of this proceeding, filers must submit two additional copies for each additional docket or rulemaking number.

Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission's Secretary, Office of the Secretary, Federal Communications Commission.

- All hand-delivered or messenger-delivered paper filings for the Commission's Secretary must be delivered to FCC Headquarters at 445 12th St., SW., Room TW-A325, Washington, DC 20554. The filing hours are 8 a.m. to 7 p.m. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes must be disposed of *before* entering the building.

- Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9300 East Hampton Drive, Capitol Heights, MD 20743.

- U.S. Postal Service first-class, Express, and Priority mail must be addressed to 445 12th Street, SW., Washington, DC 20554.

People with Disabilities: To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice), 202-418-0432 (tty). For detailed instructions for where and how to file comments, see the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Jamie Susskind, Attorney Advisor, Wireline Competition Bureau, Telecommunications Access Policy Division, (202) 418-7400 or TTY (202) 418-0484.

SUPPLEMENTARY INFORMATION: To comprehensively reform and modernize the universal service Lifeline and Link Up programs in light of recent technological, market, and regulatory changes, on March 4, 2011 the Commission released the *2011 Lifeline and Link Up Notice of Proposed Rulemaking (NPRM or 2011 Lifeline and*

Link Up NPRM), 76 FR 16482, March 23, 2011. The NPRM sought public comment on proposed reforms that would significantly bolster protections against waste, fraud, and abuse; control the size of the program; strengthen program administration and accountability; improve enrollment and outreach efforts; and support pilot programs that would assist the Commission in assessing strategies to increase broadband adoption, without increasing overall program size. Based on the current record in this proceeding, four issues in particular merit further inquiry: designing and implementing a Lifeline/Link Up broadband pilot program to evaluate whether and how Lifeline/Link Up can effectively support broadband adoption by low-income households; limiting the availability of Lifeline support to one discount per residential address; revising the definition of Link Up service, as well as the possible reduction of the \$30 reimbursement amount for Link Up support; and improving methods for verifying continued eligibility for the program. We believe that the Commission's analysis would benefit from further development of these issues in the record, and therefore seek further comment focused on these areas.

1. Broadband Pilot Program

a. **Scope of Permissible Funding.** We seek comment on the Commission's statutory authority to permit universal service funds to be used for such purposes, directly or indirectly, and what other legal considerations must be addressed before the Commission proceeds with a broadband pilot program.

b. **Consumer Eligibility for Pilot Program.** We seek additional focused comment specifically on whether to maintain the current eligibility requirements for consumers participating in the pilot program that are currently used in the low-income program, or whether to adopt stricter or more permissive eligibility requirements for those consumers. How might adjusting the eligibility criteria affect our ability to maximize broadband adoption while providing support that is sufficient, but not excessive? How would it affect the reliability and statistical significance of the results of the pilot program? How would it help the pilot programs yield better data on how to accomplish our goals of maximizing adoption in low-income communities?

c. **Barriers to Consumer Participation in Pilots.** The National Association of Regulatory Utility Commissioners supports a Lifeline/Link Up broadband
