Amnor Hydro West Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On January 24, 2011, and supplemented on April 25, 2011, May 3, 2011, July 6, 2011, and August 6, 2011, Amnor Hydro West Inc. (Amnor or applicant) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of constructing the Hiram M. Chittenden Lock and Dam Hydroelectric Project (Hiram Dam Project or project) located at the Hiram M. Chittenden Lock and Dam facility owned and operated by the U.S. Army Corps of Engineers (Corps). The project would be located on Salmon

Bay near Seattle in King County, Washington. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would include: (1) Three new intake structures and a new powerhouse integral with three of the six gates of the Corps' lock and dam facility; (2) three new axial turbine/generator units with a combined capacity of 5 megawatts with a design head of 26 feet; (3) a new tailrace exhaust apron returning flows to Salmon Bay; (4) a new 14.7-kilovolt, 100-foot-long transmission line from the powerhouse south to a proposed substation; and (5) appurtenant facilities. The estimated annual generation of the project would be 17.3 gigawatt-hours.
