Abstract: Pursuant to Section 106 of the Rehabilitation Act of 1973, as amended, Vocational Rehabilitation agencies found to be out of compliance with federal requirements as a result of failing to meet established performance standards must develop for Rehabilitation Service Administration (RSA) approval a program improvement plan (PIP) using the on-line form located on the RSA management information system. The PIP must contain goals established by the agency, including measurable targets, by which it will assess its progress toward meeting the required minimum performance levels, along with strategies for the achievement of the goals. In accordance with regulations at 34 CFR 361.89(c), RSA reviews an agency's progress toward achieving the goals established in the PIP. For this purpose, it requires that the agency report its progress on a quarterly basis.

Abstract: Nineteen states currently have Access to Telework programs that provide financial loans to individuals with disabilities for the purchase of computers and other equipment that support teleworking for an employer or self-employment on a full or part-time basis. These grantees are required to report annual data on their programs to the Rehabilitation Services Administration. This information collection provides a standard format for the submission of those annual performance reports and a follow-up survey to be administered to individuals who receive loans.

The proposed instrument eliminates an entire section of optional information that is not required for submission by the Telework grantees, further reducing the burden from approximately 12.5 hours to 11 hours per state. Section C. Telework Optional Data Elements, which are not annual reporting requirements for the Telework grantees, has been proposed for removal from the current instrument. The information
