

Mainstreet Rejuvenation and Housing Act of 2003 (Pub. L. 108–186, 117 Stat. 2685, approved December 16, 2003); and the Omnibus Appropriations Act, 2009 (Pub. L. 111–8, approved March 11, 2009). The purpose of the HOPE VI Main Street program is to provide grants to small communities to assist in the rejuvenation of an historic or traditional central business district or “Main Street” area by replacing unused commercial space in buildings with affordable housing units. The objectives of the program are to (1) redevelop Main Street areas; (2) preserve historic or traditional architecture or design features in Main Street areas; (3) enhance economic development efforts in Main Street areas; and (4) provide affordable housing in Main Street areas.

On November 11, 2009, HUD posted its FY2009 Main Street Grants program NOFA to Grants.gov. This made approximately \$4 million in assistance available for the competition. Prior to the application due date, the Department added \$1.5 million to the competition from assistance appropriated by the Department of Housing and Urban Development Consolidated Appropriations Act, 2010 (Pub. L. 111–117 approved December 16, 2009). The Department reviewed, evaluated and scored the applications received based on the criteria in the FY2009 NOFA. As a result, HUD has funded the applications announced in Appendix A, and in accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989 (103 Stat. 1987, 42 U.S.C. 3545), the Department is hereby publishing details concerning the recipients of funding awards in Appendix A of this document.

In accordance with Section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989 (103 Stat. 1987, 42 U.S.C. 3545), the Department is publishing the names, addresses, and amounts of the five (5) awards made

under FY 2009–10 HOPE VI Main Street NOFA.

Sandra B. Henriquez,
Assistant Secretary for Public and Indian Housing.

SUPPLEMENTARY INFORMATION:**Introduction**

With this notice, we finalize the CCP
process for Mason Neck and
Featherstone NWRs. We started this
process through a notice of intent in the
Federal Register (72 FR 28066) on May
18, 2007. We released the draft CCP/
environmental assessment (EA) to the
public, announcing and requesting
comments in a notice of availability in
the **Federal Register** (76 FR 582) on
January 5, 2011.

Mason Neck and Featherstone NWRs,
together with Occoquan Bay NWR,
comprise the Potomac River NWR
Complex, which is headquartered in
Woodbridge, Virginia. Mason Neck
NWR was established in 1969 as the
first NWR specifically created to protect
a Federally listed species. The refuge
was created under the authority of the
Endangered Species Preservation Act of
1966, the precursor to the Endangered
Species Act of 1973. The bald eagle
(*Haliaeetus leucocephalus*), which was
Federally listed as threatened in 1969,
was, and continues to be, the focal
species of concern on the refuge. Due to
successful recovery efforts throughout
its range, the bald eagle was officially
removed from the Federal List of
Endangered and Threatened Wildlife
(50 CFR 17.11(h)) in 2007. It continues
to be protected, however, under other
Federal laws and State law in Virginia.
Mason Neck NWR encompasses 2,277
acres of forest, marsh, and riverine
habitat along Occoquan Bay and the
mainstem of the tidal Potomac River.
Refuge visitors engage in wildlife
observation and photography,
environmental education and
interpretation, and deer hunting.

Featherstone NWR was established in
1979 with land acquired from the
District of Columbia. It was further
expanded in 1992 with lands donated

by Prince William County. It presently
encompasses 325 acres of marsh and
forested riverine habitat along the
southwest edge of Occoquan Bay. Its
wetlands are important habitat for bald
eagles, wading birds, waterbirds, and
waterfowl, as well as other native
species of conservation concern. The
refuge has been closed to public use and
access since its establishment because
there is no public parking available or
safe access across active railroad tracks,
which lie along the length of the
refuge's western boundary.

We announce our decision and the
availability of the FONSI for the final
CCP for Mason Neck and Featherstone
NWRs in accordance with National
Environmental Policy Act (NEPA) (40
CFR 1506.6(b)) requirements. We
completed a thorough analysis of
impacts on the human environment,
which we included in the draft CCP/EA.

The CCP will guide us in managing
and administering Mason Neck and
Featherstone NWRs for the next 15
years. Alternative B, as described for
both refuges in the draft CCP/EA, and
with the modifications described below,
is the foundation for the final CCP.

Background

The National Wildlife Refuge System
Administration Act of 1966 (16 U.S.C.
668dd-668ee) (Administration Act), as
amended by the National Wildlife
Refuge System Improvement Act of
1997, requires us to develop a CCP for
each NWR. The purpose for developing
a CCP is to provide refuge managers
with a 15-year plan for achieving refuge
purposes and contributing toward the
mission of the National Wildlife Refuge
System (NWRS), consistent with sound
principles of fish and wildlife
management, conservation, legal
mandates, and our policies. In addition
to outlining broad management
direction on conserving wildlife and
their habitats, CCPs identify wildlife-
dependent recreational opportunities
available to the public, including
opportunities for hunting, fishing,
wildlife observation and photography,
and environmental education and
interpretation. We will review and
update the CCP at least every 15 years
