Additional announcements of individual contract actions may be published in the **Federal Register** and in newspapers of general circulation in the areas determined by Reclamation to be affected by the proposed action.

ADDRESSES: The identity of the approving officer and other information pertaining to a specific contract proposal may be obtained by calling or writing the appropriate regional office at the address and telephone number given for each region in the **SUPPLEMENTARY INFORMATION** section.

SUPPLEMENTARY INFORMATION: Consistent with section 9(f) of the Reclamation Project Act of 1939 and the rules and regulations published in 52 FR 11954, April 13, 1987 (43 CFR 426.22), Reclamation will publish notice of proposed or amendatory contract actions for any contract for the delivery of project water for authorized uses in newspapers of general circulation in the affected area at least 60 days prior to contract execution. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity. The public participation procedures do not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. Either of the contracting parties may invite the public to observe contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act. Pursuant to the "Final Revised Public Participation Procedures" for water resource-related contract negotiations, published in 47 FR 7763, February 22, 1982, a tabulation is provided of all proposed contractual actions in each of the five Reclamation regions. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary of the Interior, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the regional directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved.

Public participation in and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

1. Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.

2. Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of Reclamation.

3. Written correspondence regarding proposed contracts may be made available to the general public pursuant to the terms and procedures of the

Freedom of Information Act, as amended.

4. Written comments on a proposed contract or contract action must be submitted to the appropriate regional officials at the locations and within the time limits set forth in the advance public notices.

5. All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.

6. Copies of specific proposed contracts may be obtained from the appropriate regional director or his or her designated public contact as they become available for review and comment.

7. In the event modifications are made in the form of a proposed contract, the appropriate regional director shall determine whether republication of the notice and/or extension of the comment period is necessary.

Factors considered in making such a determination shall include, but are not limited to, (i) The significance of the modification, and (ii) the degree of public interest which has been expressed over the course of the negotiations. At a minimum, the regional director will furnish revised contracts to all parties who requested the contract in response to the initial public notice.

Concurrently with the proposed Consent Decree, the United States and the Coeur d'Alene Tribe filed a complaint naming seven defendants: Alice Consolidated Mines, Inc.; Hypotheek Mining and Milling Company; Callahan Consolidated Mines, Inc.; Constitution Mining Company; Golconda Mining Corp.;

Highland Surprise Mining Company; and Nevada-Stewart Mining Company. The Complaint alleges that the Defendants are liable pursuant to Section 107(a) of CERCLA for response costs incurred and to be incurred by the United States and for natural resources damages in connection with releases of hazardous substances at or from Operable Unit 3 of the Bunker Hill Mining and Metallurgical Complex Superfund Site ("Site") in northern Idaho. The Coeur d'Alene Tribe is a co-trustee of injured natural resources and a party to the proposed Consent Decree. The Consent Decree requires payments totaling \$208,500, based on the defendant's financial resources. The Consent Decree also requires, among other things, that Defendants assign their interests in insurance policies to a trust, established for the benefit of EPA and the natural resource trustees, and pay two percent of net smelter returns generated from any future mining activities. The Consent Decree grants the Defendants a covenant not to sue for response costs, as well as natural resource damages, in connection with the Site.

For thirty (30) days after the date of this publication, the Department of Justice will receive comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O. BILLING CODE 4410-15-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

Notice is hereby given that on September 23, 2011, a proposed Consent Decree in *United States v. TRAC Enterprises, LLC*, Civil Action No. 2:11-cv-00652, was lodged with the United States District Court for the Southern District of West Virginia.

In this cost recovery action, brought pursuant to Section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. 9607, the United States, on behalf of the Administrator of the United States Environmental Protection Agency ("EPA"), sought reimbursement of costs incurred by EPA for response actions taken at or in connection with the release or threatened release of hazardous substances at the Custom Plating and Polishing Site ("the Site") in Dunbar, Kanawha County, West Virginia.

The complaint alleged that EPA conducted an emergency removal action at the Site to address chemicals and wastes used in and generated by the electroplating and metal refinishing business that were found at the Site, including "hazardous substances" within the meaning of Section 101(14) of CERCLA, 42 U.S.C. 9601(14).

Under the proposed Consent Decree, TRAC Enterprises, LLC, the owner of the Site, will pay a total of \$72,000 to the Hazardous Substance Superfund, in reimbursement of EPA's past response costs incurred through the date of entry of the Consent Decree. This amount was determined based on an analysis of TRAC Enterprise's ability to pay.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O. Box 7611, U.S. Department of Justice, Washington, DC
