Certain Helical Spring Lock Washers From Taiwan and the People's Republic of China: Final Results of the Expedited Third Five-Year Sunset Reviews of the Antidumping Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* October 4, 2011.

SUMMARY: On June 1, 2011, the Department of Commerce ("Department") initiated the third sunset reviews of the antidumping duty orders on certain helical spring lock washers ("lock washers") from Taiwan and the People's Republic of China ("PRC"). The Department has conducted expedited sunset reviews of these orders. As a result of these reviews, the Department finds that revocation of the antidumping duty orders would likely lead to a continuation or recurrence of dumping at the margins identified in the "Final Results of Review" section of this notice.

FOR FURTHER INFORMATION CONTACT: Joshua Morris, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-1779.

SUPPLEMENTARY INFORMATION:

Background

On June 1, 2011, the Department published the notice of initiation of the third sunset review of the antidumping duty orders on lock washers from Taiwan and the PRC pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). See *Initiation of Five-Year ("Sunset") Review*, 76 FR 31588 (June 1, 2011). On June 13, 2011, the Department received a notice of intent to participate in both of these reviews from Shakeproof Assembly Components Division of Illinois Tool Works Inc. ("Shakeproof"), within the deadline specified in 19 CFR 351.218(d)(1)(i). Shakeproof, Petitioner in these proceedings, claimed interested party status for both of these reviews under section 771(9)(C) of the Act, as a producer of the domestic like product.

On June 30, 2011, the Department received a complete substantive response from Petitioner for both reviews within the deadline specified in 19 CFR 351.218(d)(3)(i). We received no substantive responses from any respondent interested parties. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department conducted expedited sunset reviews of these antidumping duty orders.

Scope of the Orders

The products covered by the orders are lock washers of carbon steel, of carbon alloy steel, or of stainless steel, heat-treated or non-heat-treated, plated or non-plated, with ends that are off-line. Lock washers are designed to: (1) Function as a spring to compensate for developed looseness between the component parts of a fastened assembly; (2) distribute the load over a larger area

for screws or bolts; and (3) provide a hardened bearing surface. The scope does not include internal or external tooth washers, nor does it include spring lock washers made of other metals, such as copper.

Lock washers subject to the orders are currently classifiable under subheadings 7318.21.0000 and 7318.21.0030 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this proceeding is dispositive.¹

Analysis of Comments Received

All issues raised in these reviews are addressed in the Issues and Decision Memorandum ("Decision Memorandum") from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration, dated concurrently with this notice, which is hereby adopted by this notice. The issues discussed in the Decision Memorandum include the likelihood of continuation or recurrence of dumping and the magnitude of the margins likely to prevail if the orders were revoked. Parties can find a complete discussion of all issues raised in these reviews and the corresponding recommendations in this public memorandum, which is on file in the Central Records Unit in room 7046 of the main Department building.

In addition, a complete version of the Decision Memorandum can be accessed directly on the Internet at <http://www.ia.ita.doc.gov/frn>. The paper copy and electronic version of the Decision Memorandum are identical in content.

Final Results of Review

Pursuant to sections 752(c)(1) and (3) of the Act, we determine that revocation of the antidumping duty orders on lock washers from Taiwan and the PRC would be likely to lead to continuation or recurrence of dumping at the following weighted-average percentage margins:

Manufacturers/producers/exporters	Margin (percent)
Lock Washers From Taiwan	
Spring Lake Enterprises Co., Ltd	31.93
Ceimiko Industrial Co., Ltd	31.93
Par Excellence Industrial Co., Ltd	31.93
All-Others	31.93

¹ On September 30, 1997, the Department determined that lock washers which are imported

into the United States in an uncut, coil form are

within the scope of the orders. See *Notice of Scope Rulings*, 62 FR 62288 (November 21, 1997).

Exporters	Margin (percent)
Lock Washers from the PRC	
Hangzhou Spring Washer Co., Ltd. a/k/a Zhejiang Wanxin Group Co., Ltd.	
Co., Ltd. a/k/a Hangzhou Spring Washer Plant ("HSWP")	69.88
HSWP via IFI Morgan Limited	69.88
HSWP via Carway Development Ltd	69.88
HSWP via Midway Fasteners Ltd	69.88
HSWP via Linkwell Industry Co., Ltd	69.88
HSWP via Fastwell Industry Co., Ltd	69.88
HSWP via Sunfast International Corp	69.88
HSWP via Winner Standard Parts Co., Ltd	69.88
PRC-wide	128.63

This notice also serves as the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective orders is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the final results and notice in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act.

Dated: September 27, 2011.

Ronald K. Lorentzen

Deputy Assistant Secretary for Import Administration.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of two scientific research permits.

SUMMARY: Notice is hereby given that NMFS has issued Permit 15824 to Santa Cruz County Environmental Health Services and Permit 16318 to Hagar Environmental Science.

ADDRESSES: The approved application for each permit is available on the Applications and Permits for Protected Species (APPS), <https://apps.nmfs.noaa.gov> Web site by

searching the permit number within the Search Database page. The applications, issued permits and supporting documents are also available upon written request or by appointment: Protected Resources Division, NMFS, 777 Sonoma Avenue, Room 325, Santa Rosa, CA 95404 (ph: (707) 575-6097, fax: (707) 578-3435).

FOR FURTHER INFORMATION CONTACT:

Jeffrey Jahn at 707-575-6097, or e-mail: Jeffrey.Jahn@noaa.gov.

SUPPLEMENTARY INFORMATION:

Authority

The issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) (ESA), is based on a finding that such permits/modifications: (1) Are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations (50 CFR parts 222-226) governing listed fish and wildlife permits.

Species Covered in This Notice

This notice is relevant to federally endangered Central California Coast coho salmon (*Oncorhynchus kisutch*), threatened Central California Coast steelhead (*O. mykiss*), and threatened South-Central California Coast steelhead (*O. mykiss*).

Permits Issued

Permit 15824

A notice of the receipt of an application for a scientific research permit (15824) was published in the **Federal Register** on June 1, 2011 (76 FR 31590). Permit 15824 was issued to the

County of Santa Cruz, Environmental Health Services on August 30, 2011.

Permit 15824 authorizes snorkel surveys, capture by backpack electrofishing and seining, handling (measuring), scale sampling, marking (fin-clipping), and release of juvenile Central California Coast (CCC) coho salmon, Central California Coast (CCC) steelhead, and South-California Coast (S-CCC) steelhead, henceforth referred to as ESA-listed salmonids. Permit 15824 authorizes unintentional lethal take of: Juvenile ESA-listed salmonids not to exceed one percent of the total number of fish captured. Permit 15824 does not authorize any non-lethal or lethal take of adult ESA-listed salmonids.

Permit 15824 is for research to be conducted in the San Lorenzo River, Aptos Creek, Soquel Creek, and Corralitos Creek in Santa Cruz County, California. The main purpose of the project is to track habitat conditions and site densities of juvenile salmonids in these watersheds. Permit 15824 expires on December 31, 2016.

Permit 16318

A notice of the receipt of an application for a scientific research permit renewal (16318) was published in the **Federal Register** on June 1, 2011 (76 FR 31590). Permit 16318 was issued to Hagar Environmental Science (HES) on August 30, 2011.

Permit 16318 authorizes HES to take juvenile ESA-listed salmonids associated with three research projects consisting of lagoon surveys and stream surveys in Santa Cruz, Monterey, and San Luis Obispo counties in central California. The data from lagoon and stream surveys will be used to track salmonid spawning and rearing conditions in lagoons and streams, prioritize restoration and conservation efforts, and inform land and water use decisions.

Under Permit 16318, authorized research methods include snorkel surveys, electrofishing, scale sampling,
