The hearing will be held, as provided in this notice

and in the proposed rule, if requested, and will take place in Washington, DC.

SUPPLEMENTARY INFORMATION: The public hearing is to provide the public with an opportunity to present oral comments regarding proposed revisions to EPA's Final Transport Rule (Federal Implementation Plans: Interstate Transport of Fine Particulate Matter and Ozone and Correction of SIP Approvals). EPA is proposing to amend the assurance penalty provisions of the rule to make them effective beginning January 1, 2014. EPA is also proposing, or seeking comment on, revisions to address discrepancies in unit-specific modeling assumptions that affect proper calculation of Transport Rule state budgets, new unit set-asides, Indian

country new unit set-asides, and assurance levels as follows: (1) Revise an error in Michigan's annual NO_x budget to account for an erroneously assumed selective catalytic reduction (SCR) emission control device at one unit; (2) revise an error in Nebraska's annual NO_x budget to account for an erroneously assumed SCR emission control device at one unit; (3) revise an error in the Texas SO₂ budget to account for erroneously assumed flue gas desulphurization (FGD, or scrubber) emission control devices at three units and revised assumptions regarding flue gas treatment in existing scrubbers at seven units; (4) revise an error in the Arkansas ozone-season new unit set-aside to account for erroneously omitted projected emissions from one new unit; (5) revise an error in the Texas new unit set-aside to account for erroneously omitted projected emissions for SO₂, ozone-season NO_x, and annual NO_x; (6) revise New Jersey's ozone-season NO_x, annual NO_x and annual SO₂ budgets to account for an erroneously assumed scrubber and selective catalytic reduction emission control device at one unit and generation required for reliability purposes at six units; (7) revise Wisconsin's annual SO₂ and annual NO_x budgets to account for an erroneously assumed FGD and SCR device at two units; and (8) revise New York's annual SO₂, annual NO_x, and ozone season NO_x budgets based on required operational constraints likely to necessitate non-economic generation at ten units; (9) revise Louisiana's ozone season NO_x budget taking into account operational constraints likely to necessitate non-economic generation at twelve units; (10) revise Mississippi's ozone season NO_x budget taking into account operational constraints likely to necessitate non-economic generation at four units; (11) revise Texas's annual NO_x and ozone season NO_x budgets based on operational constraints likely to necessitate non-economic generation at seven units; and (12) revise Florida's ozone-season NO_x budget taking into account the unavailability of a previously operating nuclear unit. EPA is also proposing to add an additional limit on the allocation of allowances to units covered by certain consent decrees. In addition, EPA is proposing to correct technical errors in the rule text.

Public hearing: The proposal for which EPA will hold the public hearing, if requested, is available at <http://www.epa.gov/crossstaterule> and also in the docket identified below. The public hearing, if requested, will provide interested parties the opportunity to

present data, views, or arguments concerning the proposal. EPA may ask clarifying questions during the oral presentations, but will not respond to the presentations at that time. Written statements and supporting information submitted during the comment period will be considered with the same weight as any oral comments and supporting information presented at the public hearing. Written comments on the proposed rule must be postmarked November 14, 2011 unless a public hearing is requested in which event comments must be received on or before November 28, 2011.

Commenters should notify Ms. Stevens if they will need specific equipment or if there are other special needs related to providing comments at the hearing. EPA will provide equipment for commenters to show overhead slides or make computerized slide presentations if we receive special requests in advance. Oral testimony will be limited to 5 minutes for each commenter. EPA encourages commenters to provide EPA with a copy of their oral testimony electronically (via e-mail or CD) or in hard copy form.

The hearing schedule, including lists of speakers, will be posted on EPA's Web site <http://www.epa.gov/crossstaterule>.
