Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking, (202) 267-9677, for a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by modifying Class E airspace at Show Low Regional Airport, Show Low, AZ. A minor adjustment to the boundary approach would be made for the airspace extending upward from 1,200 feet above the surface to further accommodate aircraft using RNAV (GPS) standard instrument approach procedures at Show Low Regional Airport. This action would enhance the safety and management of IFR operations at the airport.

Class E airspace designations are published in paragraph 6005, of FAA Order 7400.9V, dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3)

does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies controlled airspace at Show Low Regional Airport, Show Low, AZ.

SUPPLEMENTARY INFORMATION: In the *Federal Register* of July 26, 2011 (76 FR 44506), we published a notice, stating that the Commission had received a submission from John L. Branum, Attorney at Law, on behalf of Bettsey Bumpas (“petitioner”), dated May 9, 2011, requesting that we initiate rulemaking to require torch fuel and lamp oil to be packaged in containers that are not see-through. The notice explained that we were docketing the request as a petition under the Poison Prevention Packaging Act (“PPPA”). 15 U.S.C. 1471–1477.

The PPPA authorizes the Commission to issue requirements that certain household substances must be sold in child-resistant containers. 15 U.S.C. 1471–1477. Child-resistant packaging requirements currently apply to torch fuel and lamp oil. (More specifically, the child-resistant packaging requirements apply to “kindling and/or illuminating preparations,” which includes “cigarette lighter fuel, charcoal lighter fuel, camping equipment fuel, torch fuel, and fuel for decorative and functional lanterns, which contain 10 percent or more by weight of petroleum distillates and have a viscosity of less than 100 Saybolt universal seconds at 100[deg] Fahrenheit.” 16 CFR 1700.14(7)). The PPPA does not authorize the Commission to prescribe specific packaging designs for household substances. 15 U.S.C. 1472(d). However, in the case of a
