

Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477–78).

Docket: To read background documents or comments received, go to <http://www.regulations.gov> at any time or to the Docket Management Facility in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Keira Jones (202) 267–4024, Tyneka Thomas (202) 267–7626, or David Staples (202) 267–4058, Office of Rulemaking, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591.

This notice is published pursuant to 14 CFR 11.85.

Issued in Washington, DC, on October 21, 2011.

Dennis R. Pratte,

Acting Director, Office of Rulemaking.

Petition for Exemption

Docket No.: FAA–2011–1129.

Petitioner: American Airlines.

Section of 14 CFR Affected: 14 CFR 60.17(d).

Description of Relief Sought:

Petitioner requests relief to allow their B757 FSTD to be qualified to Level D and for the FSTD to remain under its initial Qualification Test Guide (QTG) criteria described by Advisory Circular (AC) 120–40B.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Request To Release Airport Property

AGENCY: Federal Aviation Administration (FAA) DOT.

ACTION: Notice of Intent to Rule on Request to Release Airport Property at the Halifax County Airport (RZZ), Roanoke Rapids, North Carolina.

SUMMARY: The FAA proposes to rule and invites public comment on the release of land at the Halifax County Airport (RZZ), Roanoke Rapids, NC under the provisions of 49 U.S.C. 47107(h).

DATES: Comments must be received on or before November 25, 2011.

ADDRESSES: Comments on this application may be mailed or delivered to the FAA at the following address: Larry F. Clark, Assistant Manager, Federal Aviation Administration, Atlanta Airports District Office, 1701

Columbia Ave., Campus Building, Suite 2–260, College Park, GA 30337.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to: Tony N. Brown, Halifax County Manager, 10 North King Street, Halifax, NC 27839.

FOR FURTHER INFORMATION CONTACT:

Larry F. Clark, Assistant Manager, Federal Aviation Administration, Atlanta Airports District Office, 1701 Columbia Avenue, Campus Building, Suite 2–260, College Park, GA 30337.

The request to release property may be reviewed, by appointment, in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA invites public comment on the request to release approximately 292 acres of property known as the Halifax County Airport (RZZ) under the provisions of 49 U.S.C. 47107(h)(2). In May, 2009, the Halifax-Northampton Regional Airport Authority opened the new Halifax-Northampton Regional Airport (IXA) as a replacement for the Halifax County Airport (RZZ). On April 20, 2010, the Chairman of the Board of Commissioners of Halifax County and the Mayor of Roanoke Rapids notified the FAA that because of the opening of the new Halifax-Northampton Regional Airport and the subsequent decommissioning of RZZ that they were officially requesting a full release of the affected property from federal obligations. All operations at RZZ have ceased. The FAA has determined that the request to release property at RZZ submitted by the airport sponsors meets the procedural requirements of the FAA. The release of this property does not and will not impact future aviation needs in the region. The FAA may approve the request in whole no sooner than 30 days after publication of this notice.

The Following Is a Brief Overview of the Request

The Airport Sponsors are proposing the release of the entire airport property and associated facilities. The release of land is necessary to comply with FAA Grant Assurances that do not allow federally acquired airport property to be used for non-aviation purposes. The permanent abandonment of the subject property will result in the lands of RZZ being changed from aeronautical to nonaeronautical use and release of the lands from the conditions of the AIP Grant Agreement Grant Assurances. In accordance with 49 U.S.C. 47107(c)(2)(B)(i) and (iii), the Airport Sponsor has reinvested an amount equal to the fair market value of RZZ in the recently-constructed IXA.

Any person may inspect, by appointment, the request in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT**.

In addition, any person may, upon appointment and request, inspect the application, notice and other documents determined by the FAA to be related to the application in person at the Halifax County Manager's Office, 10 North King Street, Halifax, NC.

Issued in College Park, Georgia on October 12, 2011.

Scott L. Seritt,

Manager, FAA Atlanta Airports District Office.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Reports, Forms and Record Keeping Requirements, Agency Information Collection Activity Under OMB Review

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collections and their expected burden. The **Federal Register** Notice with a 60-day comment period was published on June 24, 2011 [76 FR 37189].

DATES: Comments must be submitted on or before November 25, 2011.

FOR FURTHER INFORMATION CONTACT: National Highway Traffic Safety Administration, Office of Defects Investigation, 202–493–0210. 1200 New Jersey Avenue, SE., W48–221, Washington, DC 20590.

SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration

(1) *Title:* Replaceable Light Source Dimensional Information Collection, 49 CFR part 564.

OMB Number: 2127–0563.

Type of Request: Extension of a currently approved collection.

Affected Public: Business or other for profit organizations.

Abstract: The information to be collected is in response to 49 CFR part 564, “Replaceable Light Source

Dimensional Information.” Persons desiring to use newly designed replaceable headlamp light sources are required to submit interchangeability and performance specifications to the agency. After a short agency review to assure completeness, the information is placed in a public docket for use by any person who would desire to manufacture headlamp light sources for highway motor vehicles. In Federal Motor Vehicle Safety Standard No. 108, Lamps, reflective devices and associated equipment,” part 564 submission are referenced as being the source of information regarding the performance and interchangeability information for legal headlamp light sources, whether original equipment or replacement equipment. Thus, the submitted information about headlamp light sources becomes the basis for certification of compliance with safety standards.

Estimated Total Annual Burden: 28.

Estimated Number of Respondents: 7.

(2) *Title:* Compliance Labeling of Retroreflective Materials heavy Trailer Conspicuity.

OMB Number: 2127–0569.

Type of Request: Extension of a currently approved collection.

Affected Public: Business or other for profit organizations.

Abstract: Federal Motor Vehicle Safety Standard No. 108, “Lamps Reflective Devices, and Associated Equipment,” specifies requirements for vehicle lighting for the purposes of reducing traffic accidents and their tragic results by providing adequate roadway illumination, improved vehicle conspicuity, appropriate information transmission through signal lamps, in both day, night, and other conditions of reduced visibility. For certifications and identification purposes, the Standard requires the permanent marking of the letters “DOT–C2,” “DOT–C3,” or “DOT–C4” at least 3mm high at regular intervals on retroreflective sheeting material having adequate performance to provide effective trailer conspicuity.

The manufacturers of new tractors and trailers are required to certify that their products are equipped with retroreflective material complying with the requirements of the standard. The Federal Motor Carrier Safety Administration (FMCSA) enforces this and other standards through roadside inspections of trucks. There is no practical field test for the performance requirements, and labeling is the only objective way of distinguishing trailer conspicuity grade material from lower performance material. Without labeling, FMCSA will not be able to enforce the performance requirements of the

standard and the compliance testing of new tractors and trailers will be complicated. Labeling is also important to small trailer manufacturers because it may help them to certify compliance. Because wider stripes or material of lower brightness also can provide the minimum safety performance, the marking system serves the additional role of identifying the minimum stripe width required for retroreflective brightness of the particular material. Since the differences between the brightness grades of suitable retroreflective conspicuity material is not obvious from inspection, the marking system is necessary for tractor and trailer manufacturers and repair shops to assure compliance and for FMCSA to inspect tractors and trailers in use. Permanent labeling is used to identify retroreflective material having the minimum properties required for effective conspicuity of trailers at night. The information enables the FMCSA to make compliance inspections, and it aids tractor and trailer owners and repairs shops in choosing the correct repair materials for damaged tractors and trailers. It also aids smaller trailer manufacturers in certifying compliance of their products.

The FMCSA will not be able to determine whether trailers are properly equipped during roadside inspections without labeling. The use of cheaper and more common reflective materials, which are ineffective for the application, would be expected in repairs without the labeling requirement.

Estimated Total Annual Burden: 1.

Estimated Number of Respondents: 3.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725–17th Street, NW., Washington, DC 20503, Attention NHTSA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department’s estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A Comment to OMB is most effective if OMB receives it within 30 days of publication.

Issued in Washington, DC, on October 20, 2011.

Nathaniel Beuse,

Director, Office of Crash Avoidance Standards.

National Highway Traffic Safety Administration

[Docket No. NHTSA–2010–0047; Notice 2]

Tireco, Inc., Grant of Petition for Decision of Inconsequential Noncompliance

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Grant of Petition for Decision of Inconsequential Noncompliance.

SUMMARY: Tireco, Inc., (Tireco), has determined that approximately 6,170 of its “GEO-Trac” brand P235/75R15 passenger car tires, manufactured between June 12, 2009 and August 20, 2009 by the fabricating manufacturer, the Shandong Linglong Tyre Co., Ltd., and imported into the United States by Tireco, do not comply with paragraph S5.5(c) of Federal Motor Vehicle Safety Standard (FMVSS) No. 139, *New pneumatic radial tires for light vehicles*. Tireco has filed an appropriate report pursuant to 49 CFR part 573, *Defect and Noncompliance Responsibility and Reports* (dated August 31, 2009).

Pursuant to 49 U.S.C. 30118(d) and 30120(h) and the rule implementing those provisions at 49 CFR part 556, Tireco has petitioned for an exemption from the notification and remedy requirements of 49 U.S.C. chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

Notice of receipt of Tireco’s petition was published, with a 30-day public comment period, on April 21, 2010, in the **Federal Register** (75 FR 20879). No comments were received. To view the petition and all supporting documents log onto the Federal Docket Management System Web site at: <http://www.regulations.gov/>. Then follow the online search instructions to locate docket number “NHTSA–2010–0047.”

For further information on this decision, contact Mr. George Gillespie, Office of Vehicle Safety Compliance, the National Highway Traffic Safety Administration (NHTSA), telephone (202) 366–5299, facsimile (202) 366–7002.

Affected are approximately 6,170 tires imported into the United States by
