Submission for OMB Review; Comment Request

October 26, 2011.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the

burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, Washington, DC; *OIRA_Submission@OMB.EOP.gov* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of publication of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service

Title: Agricultural Resource Management, Chemical Use, and Post-harvest Chemical Use Surveys.

OMB Control Number: 0535-0218.

Summary of Collection: The primary objectives of the National Agricultural Statistics Service (NASS) are to provide the public with timely and reliable agricultural production and economic statistics, as well as environmental and specialty agricultural related statistics. Three surveys—the Agricultural Resource Management Study, the Fruit and Vegetable Chemical Use Surveys, and the Post-harvest Chemical Use Survey—are critical to NASS' ability to fulfill these objectives and to build the Congressionally mandated database on agricultural chemical use and related farm practices. NASS uses a variety of survey instruments to collect the

information in conjunction with these studies.

Need and Use of the Information: The Agricultural Resource Management Study provides a robust data base of information to address varied needs of policy makers. There are many uses for the information from this study including an evaluation of the safety of the Nation's food supply; input to the farm sector portion of the gross domestic product; and to provide a barometer on the financial condition of farm businesses. Data from the Fruit and Vegetable Chemical Use Surveys is used to assess the environmental and economic implications of various program and policies and the impact on agricultural producers and consumers. The results of the Post-harvest Chemical Use Survey are used by the Environmental Protection Agency (EPA) to develop Food Quality Protection Act risk assessments. Other organizations use this data to make sound regulatory decisions.

Description of Respondents: Farms.

Number of Respondents: 135,583.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 79,731.

Charlene Parker,

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION:

Title: Multiple Peril Crop Insurance.
OMB Number: 0563-0053.
Expiration Date of Approval: March 31, 2012.

Type of Request: Extension of a currently approved information collection.

Abstract: The information collection requirements for this renewal package are necessary for administering the crop insurance program. Producers are required to report specific data when they apply for crop insurance and report acreage, yields, and notices of loss.

Insurance companies accept applications; issue policies; establish and provide insurance coverage; compute liability, premium, subsidies, and losses; indemnify producers; and report specific data to FCIC as required in Appendix III/M13 Handbook. Commodities for which Federal crop insurance is available are included in this information collection package. This submission's per-response time was re-evaluated by data element and line item to show a truer, more accurate account of the time spent to collect the data FCIC requires.

FCIC is requesting the Office of Management and Budget (OMB) to extend the approval of this information collection for an additional 3 years.

The purpose of this notice is to solicit comments from the public concerning this information collection. These comments will help us:

- (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;

- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information;

- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond (such as through the use of appropriate automated, electronic, mechanical, or other forms of information technology, e.g., permitting electronic submission of responses).

Estimate of Burden: The public reporting burden for this collection of information are estimated to average 0.76 of an hour per response.

Respondents/Affected Entities: Producers and insurance companies reinsured by FCIC.

Estimated Annual Number of Respondents: 556,408.

Estimated Annual Number of Responses Per Respondent: 18.8.

Estimated Annual Number of Responses: 10,470,186.

Estimated Total Annual Burden on Respondents: 7,960,519.

All responses to this notice will be summarized and included in the request

for OMB approval. All comments will also become a matter of public record.

Signed in Washington, DC, on October 25, 2011.

William J. Murphy,
Manager, Federal Crop Insurance Corporation.

Forest Service

Bridger-Teton National Forest; Big Piney Ranger District; Wyoming; Environmental Impact Statement for the Sherman Cattle & Horse Allotment Grazing Authorization and Management Project

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Department of Agriculture, Forest Service, will prepare an environmental impact statement to analyze the effects of domestic livestock grazing in the Sherman Cattle & Horse Allotment. This action was originally listed as a proposal (to be analyzed under an environmental assessment) on the Bridger-Teton National Forest Schedule of Proposed Actions on January 1, 2010. However, during development of the environmental assessment, it was determined that analysis and disclosure under an environmental impact statement would be more appropriate. The analysis contained in the environmental impact statement will be used by the Responsible Official to decide whether livestock grazing can be authorized within the allotment, and if so, under what conditions. The Sherman Cattle and Horse Allotment is located in western Wyoming, about 35 miles northwest of Big Piney, Wyoming, and is situated on the east side of the northern end of the Wyoming Range. The entire 17,370 acre allotment lies within Sublette County and within the boundaries of the Big Piney Ranger District.

DATES: Comments concerning the scope of the analysis must be received by November 30, 2011. All comments that were received during the previous analysis period will be considered in the current analysis. The draft environmental impact statement is expected in April of 2012 and the final environmental impact statement is expected in August of 2012.
