

maximum of four months to travel and work in largely unskilled positions. The program has been in operation since 1963 and helps the Department reach a segment of the youth demographic that often does not have the means to visit the United States unless they can work to defray their costs. In 2011, approximately 103,000 foreign students will have participated in the SWT program. Roughly one million foreign post-secondary students have participated in the past decade. The SWT program supports public diplomacy efforts by fostering constructive, personal ties with foreign youth and offering them a positive view of the United States that they can then share in their home countries.

The Department began an ongoing, comprehensive review of the Summer Work Travel program in spring 2010, which has resulted in significant changes to the existing regulations that govern administration of the program. A pilot program that placed more stringent requirements on participants from six countries (Russia, Ukraine, Bulgaria, Belarus, Moldova and Romania) was implemented for the 2011 season. A program-wide Interim Final Rule, which took effect on July 15, 2011: (a) Strengthens sponsor oversight requirements with respect to both program participants for whom sponsors are responsible and the third parties that sponsors rely upon to assist them in administering their programs (i.e., U.S. employers and foreign agents); (b) requires that participants from non-Visa Waiver Program countries be pre-placed in a job before the Form DS-2019 is issued; (c) requires sponsors to fully vet employers and all SWT job offers; and, (d) requires sponsors to contact current program participants on a monthly basis to monitor their welfare and whereabouts.

Yet, despite these new regulations, the number of program complaints received this year continues to remain unacceptably high and includes, among other issues, reports of improper work placements, fraudulent job offers, job cancellations upon participant arrival in the United States, inappropriate work hours, and problems regarding housing and transportation.

To ensure that these issues are appropriately addressed, the Department is continuing and augmenting its review of the Summer Work Travel program and its governing regulations. Until the Department completes its review and implements the next steps, currently designated sponsors may continue to operate under their present designations and current regulations at 22 CFR Part 62; however,

until further notice, SWT program sponsors in business for the full 2011 calendar year will not be permitted to expand their number of program participants beyond their actual total 2011 participant program size. No new applications from prospective sponsors for SWT program designation will be accepted at this time.

Major Issues Raised by China

On December 8, 2004, the U.S. Department of Commerce published in the **Federal Register** notice of its affirmative final less-than-fair-value (“LTFV”) determination in the antidumping investigation concerning certain frozen and canned warmwater shrimp from China (69 FR 70997). On February 1, 2005, the Department of Commerce published notice of an amended final LTFV determination, along with an antidumping duty order (70 FR 5149). That amended final LTFV determination has been subsequently amended. On May 24, 2011, the Department of Commerce published notice of an amended final LTFV determination pursuant to a court decision (76 FR 30100). The latter two notices contain the most recent margins of LTFV sales.

On May 22, 2006, the Department of Commerce published in the **Federal Register** notice of its affirmative final LTFV determination in the antidumping investigation concerning diamond sawblades and parts thereof from China (71 FR 29303). On June 22, 2006, the Department of Commerce published notice of an amended final LTFV determination (71 FR 35864) and on November 4, 2009 the Department published the antidumping duty order (74 FR 57145). The latter notice contains the most recent margins of LTFV sales.

In its request for the establishment of a panel, China alleges that the Department of Commerce improperly calculated margins of dumping by “zeroing” so-called “negative dumping margins.” Based on the use of zeroing, China alleges that the final LTFV determinations and the antidumping duty orders are inconsistent with the first sentence of Article 2.4.2 of the Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade 1994. In this regard, on March 6, 2006, the Department of Commerce announced that it will no longer use “zeroing” when making average-to-average comparisons in an antidumping investigation. See 71 FR 11189.
