use). All temporary roads will be closed and hydrologically stabilized at the end of the project. No new roads will be added to the National Forest System.

The Forest Service developed project design features to mitigate adverse environmental impacts of the proposed action to forest resources. To view project design features, maps, and additional information about this project please visit the following Web site: http://www.fs.fed.us/nepa/fs-usdapop.php/?project=30290.

Responsible Official

The Responsible Official for this project is the Forest Supervisor for the Klamath National Forest, Patricia A. Grantham, 1312 Fairlane Road, Yreka, California 96097.

Nature of Decision To Be Made

The Forest Service is the lead agency for the project. Based on the result of the NEPA analysis, the Forest Supervisor's record of decision regarding the Pumice Vegetation Management Project will recommend implementation of one of the following: (1) The proposed action; (2) an alternative to the proposed action; or (3) the no-action alternative. The record of decision will also document the consistency of the selected alternative with the Klamath National Forest Land and Resource Management Plan (1995, as amended).

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the EIS. To be considered for EIS development, comments should be submitted prior to the close of this comment period. To be most helpful to the agency for alternative development and effects analysis, comments should be as specific as possible and discuss potentially significant issues, points of discussion, dispute, or debate about the effects of the proposed action.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public project record. Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the agency with the ability to provide the respondent with subsequent environmental documents. See the ADDRESSES section at the beginning of this notice for more information about how and when to submit comments.

Certain Polyester Staple Fiber From the People's Republic of China: Final Results of Antidumping Duty Administrative Review, and Revocation of an Order in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On July 8, 2011, the Department of Commerce ("Department") published in the Federal Register the Preliminary Results of the 2009-2010 administrative review of the antidumping duty order on certain polyester staple fiber from the People's Republic of China ("PRC").1 We gave interested parties an opportunity to comment on the Preliminary Results. None were received. As such, these final results do not differ from the Preliminary Results. We find that the mandatory respondents in this review, Ningbo Dafa Chemical Fiber Co., Ltd. ("Ningbo Dafa") and Cixi Santai Chemical Fiber Co., Ltd. ("Cixi Santai") did not sell subject merchandise at less than normal value during the period of review ("POR"), June 1, 2009, through May 31, 2010. The final dumping margin for this administrative review is listed in the "Final Results of Review" section below.

DATES: *Effective Date:* November 9, 2011.

FOR FURTHER INFORMATION CONTACT:

Steven Hampton, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–0116.

SUPPLEMENTARY INFORMATION:

Background

As noted above, on July 8, 2011, the Department published the *Preliminary Results* of the administrative review of certain polyester staple fiber from the PRC. The Department did not receive comments from interested parties on our *Preliminary Results*.

Changes Since the Preliminary Results

We have not made any changes to our *Preliminary Results*.

¹ See Certain Polyester Staple Fiber From the People's Republic of China: Notice of Preliminary Results of the Antidumping Duty Administrative Review, and Intent To Revoke Order in Part, 76 FR 40329 (July 8, 2011) ("Preliminary Results").

Scope of the Order

The merchandise subject to the order is synthetic staple fibers, not carded, combed or otherwise processed for spinning, of polyesters measuring 3.3 decitex (3 denier, inclusive) or more in diameter. This merchandise is cut to lengths varying from one inch (25 mm) to five inches (127 mm). The subject merchandise may be coated, usually with a silicon or other finish, or not coated. Polyester staple fiber is generally used as stuffing in sleeping bags, mattresses, ski jackets, comforters, cushions, pillows, and furniture.

The following products are excluded from the scope of the order: (1) Polyester staple fiber of less than 3.3 decitex (less than 3 denier) currently classifiable in the Harmonized Tariff Schedule of the United States ("HTSUS") at subheading 5503.20.0025 and known to the industry as polyester staple fiber for spinning and generally used in woven and knit applications to produce textile and apparel products; (2) polyester staple fiber of 10 to 18 denier that are cut to lengths of 6 to 8 inches and that are generally used in the manufacture of carpeting; and (3) low-melt polyester staple fiber defined as a bi-component fiber with an outer, non-polyester sheath that melts at a significantly lower temperature than its inner polyester core (classified at HTSUS 5503.20.0015).

Certain polyester staple fiber is classifiable under the HTSUS subheadings 5503.20.0045 and 5503.20.0065. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise under the order is dispositive.

Revocation of Order, in Part

In the *Preliminary Results*, we preliminarily determined that Ningbo Dafa and Cixi Santai qualify for revocation from the antidumping duty order on certain polyester staple fiber from the PRC, and invited parties to comment. None were received. Accordingly, in accordance with 19 CFR 351.222(b)(2)(ii), we are revoking the order on certain polyester staple fiber from the PRC manufactured and exported by Ningbo Dafa or Cixi Santai to the United States.

Final Results of Review

The dumping margins for the POR are as follows:

Company	Antidumping duty margin (percent)
Ningbo Dafa Chemical Fiber Co., Ltd Cixi Santai Chemical Fiber	0.00
Co., Ltd	0.00 4.44
	4.44
Fiber Corporation Zhejiang Waysun Chemical Fiber Co., Ltd	4.44 4.44

Assessment

Upon issuance of the final results, the Department will determine, and U.S. Customs and Border Protection ("CBP") shall assess, antidumping duties on all appropriate entries. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of review. Pursuant to 19 CFR 351.212(b)(1), we will calculate importer-specific (or customer) ad valorem duty assessment rates based on the ratio of the total amount of the dumping margins calculated for the examined sales to the total entered value of those same sales. In accordance with 19 CFR 351.106(c)(2), we will instruct CBP to liquidate, without regard to antidumping duties, all entries of subject merchandise during the POR for which the importer-specific assessment rate is zero or de minimis.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) For the exporters listed above, the cash deposit rate will be the rate established in the final results of review (except, if the rate is zero or de minimis, i.e., less than 0.5 percent, a zero cash deposit rate will be required for that company); (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all PRC exporters of subject merchandise which have not been found to be entitled to a separate rate, the cash deposit rate will be the PRC-wide rate of 44.3 percent; and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit

rate will be the rate applicable to the PRC exporters that supplied that non-PRC exporter. The deposit requirements, when imposed, shall remain in effect until further notice.

Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this administrative review and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: November 2, 2011.

Paul Piquado,

Assistant Secretary for Import Administration.
