

Total Burden Hours: 200.

Animal Plant and Health Inspection Service

Title: Interstate Movement of Sheep and Goats.

OMB Control Number: 0579–0258.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. Disease prevention is the most effective method for maintaining a healthy animal population and enhancing the ability of the Animal and Plant Health Inspection Service (APHIS) to help U.S. producers compete in the world market of animal and animal product trade. The Veterinary Services (VS) program of APHIS is the unit responsible for carrying out the disease prevention mission. One of the APHIS disease eradication programs addresses scrapie. Scrapie is a progressive, degenerative, and eventually fatal disease affecting the central nervous system of sheep and goats.

Need and Use of the Information: In order for APHIS' scrapie eradication program to be effective, its animal identification, recordkeeping, and other requirements must be carried out at livestock facilities that handle sheep and goats moving in interstate commerce. The individual legally responsible for the day-to-day operation of the facility must execute an Approval of Livestock Facilities Agreement with APHIS. The information restricts the interstate movement of livestock within the United States to control diseases of concern and approve livestock facilities that handle sheep and goats moving in interstate commerce.

Description of Respondents: Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 200.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 237.

SUPPLEMENTARY INFORMATION: *Title:* Milk and Milk Products Surveys.

OMB Control Number: 0535–0020.

Expiration Date of Approval: March 31, 2012.

Type of Request: To revise and extend a currently approved information collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service (NASS) is to collect, prepare and issue State and national estimates of crop and livestock production, prices and disposition as well as economic statistics, farm numbers, land values, on-farm pesticide usage, pest crop

management practices, as well as the Census of Agriculture. The Milk and Milk Products Surveys obtain basic agricultural statistics on milk production and manufactured dairy products from farmers and processing plants throughout the nation. Data are gathered for milk production, dairy products, evaporated and condensed milk, manufactured dry milk, and manufactured whey products. Milk production and manufactured dairy products statistics are used by the U.S. Department of Agriculture (USDA) to help administer Federal programs and by the dairy industry in planning, pricing, and projecting supplies of milk and milk products. Included in this approval request are several changes to this group of surveys. The monthly Milk Production Survey will now be conducted quarterly (January, April, July, and October) instead of monthly. Monthly estimates for the non-quarterly months will still be published for total number of dairy cows, the number of cows milked, and the total milk produced. Estimates for the non-survey months will be generated by using a combination of administrative data, regression modeling, and historic data. In the spring of 2012 NASS also plans to discontinue the collection of Dairy Product Prices. This data will be collected by the Agricultural Marketing Service (AMS) in compliance with the Mandatory Price Reporting Act of 2010, and the amended section 273(d) of the Agricultural Marketing Act of 1946.

Authority: Voluntary dairy information reporting is conducted under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985 (7 U.S.C. 2276), which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Mandatory dairy product information reporting is based on the Agricultural Marketing Act of 1946, as amended by the Dairy Market Enhancement Act of 2000 and the Farm Security and Rural Development Act of 2002 (U.S.C. 1637–1637b). This program requires each manufacturer to report to USDA the price, quantity, and moisture content of dairy products sold and each entity storing dairy products to report information on the quantity of dairy products stored. Any manufacturer that processes, markets, or stores less than 1,000,000 pounds of dairy products per year is exempt. USDA is required to maintain information, statistics, or documents obtained under these Acts in a manner that ensures that confidentiality is preserved regarding

the identity of persons and proprietary business information, subject to verification by the Agricultural Marketing Service (AMS) under Public Law No. 106–532. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, “Implementation Guidance for Title V of the E–Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA).”

Federal Register, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 8 minutes per response. This average is based on the 12 different surveys in the information collection: 4 weekly, 2 monthly, 4 quarterly, and 2 annual. The estimated total number of responses is 64,500 annually, with an average annual frequency of 3.64 responses per respondent.

Respondents: Farms and businesses.

Estimated Number of Respondents: 15,000.

Estimated Total Annual Burden on Respondents: 8,350 hours.

Copies of this information collection and related instructions can be obtained without charge from NASS Clearance Officer, at (202) 720–2248 or at ombofficer@nass.usda.gov.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Institute of Standards and Technology (NIST).

Title: Evacuation Movement and Behavior Questionnaire.

OMB Control Number: 0693–0051.

Type of Request: Regular.

Burden Hours: 3,334.

Number of Respondents: 20,000.

Average Hours per Response: 10 minutes.

Needs and Uses: The NIST’s Engineering Laboratory, formally the Building and Fire Research Laboratory, has established project efforts to better understand occupant egress from high-rise buildings. Buildings of interest include varying heights, and of varying occupancy types, e.g., residential, office, and assembly occupancies. Data will be collected via questionnaires on occupant behavior during regularly scheduled evacuation drills from high-rise building across the United States. All of these evacuation drills will be conducted regardless of whether NIST data collection takes place. The occupant behavioral data requested will involve the occupants’ knowledge of the procedure, their awareness of the event, and their behavior during the evacuation. This data will be used to improve egress designs for buildings, safety assessment models, and occupant training and education about what to do in an emergency.

Affected Public: Individuals or households (selected individuals who have evacuated high-rise buildings in cities across the U.S. during scheduled evacuation drills).

Frequency: Annually.

Respondent’s Obligation: Voluntary.

OMB Desk Officer: Jasmeet Seehra, (202) 395–3123.
