Please call the Information Line for up-to-date information on this meeting. A notice in the **Federal Register** about last minute modifications that affect a previously announced advisory committee meeting cannot always be published quickly enough to provide timely notice. Therefore, you should always check the Agency's Web site and call the appropriate advisory committee hot line/phone line to learn about possible modifications before coming to the meeting.

Registration and Presentations: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions from persons other than EES and CDRH may be made to the docket on or before December 7, 2011. Submit electronic comments to <http://www.regulations.gov>. The amount of time to be allotted to each presenter may be limited to provide opportunities to as many persons wishing to present as possible. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for that session. We encourage individuals and organizations with common interests to consolidate or coordinate their presentations to allow adequate time for each request for presentation. Nancy Braier will notify interested persons regarding their request to speak by December 5, 2011. On the day of the meeting scheduled open public speakers should identify themselves at the registration desk.

After the scheduled speakers have spoken, the Chair of the advisory committee may ask them to remain if the advisory committee wishes to question them further. The Chair may recognize unscheduled speakers should time allow.

I. Background

FDA is announcing that, in accordance with section 515(g)(2) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 360e(g)(2)), a public advisory committee will review CDRH's denial of a PMA for the SEDASYS Computer-Assisted Personalized Sedation System submitted by EES—the sponsor for SEDASYS.

On March 25, 2008, EES submitted a PMA (PMA P080009) for SEDASYS. SEDASYS is an integrated patient monitoring and drug delivery system. The device's proposed indication is for the intravenous administration of 1 percent (10 milligrams per milliliter (mg/mL)) propofol injectable emulsion for the initiation and maintenance of minimal-to-moderate sedation in adult patients (American Society of Anesthesiology physical status I and II) undergoing colonoscopy and esophagogastroduodenoscopy (EGD) procedures.

At a May 28, 2009 meeting, the Anesthesiology and Respiratory Therapy Devices Panel met to discuss, and provide recommendations regarding, the PMA. The panel recommended, by a vote of 8-2, that the PMA be found "approvable with conditions."
