

Authorized government personnel and authorized contractors assigned roles in the vetting process are provided role-specific training to ensure that they are knowledgeable in how to protect personally identifiable information. Access to the Department of State records within the system will be controlled by the network firewall configuration.

Within the Department of State, all users are given cyber security awareness training which covers the procedures for handling Sensitive but Unclassified information, including personally identifiable information (PII). Annual refresher training is mandatory. In addition, all Foreign Service and Civil Service employees and those Locally Engaged Staff who handle PII are required to take the FSI distance learning course instructing employees on privacy and security requirements, including the rules of behavior for handling PII and the potential consequences if it is handled improperly. Before being granted access to RAM records, a user must first be granted access to the Department of State computer system.

Remote access to the Department of State network from non-Department owned systems is authorized only through a Department-approved access program. Remote access to the network is configured with the Office of Management and Budget Memorandum M-07-16 security requirements, which include but are not limited to two-factor authentication and time out function. All Department of State employees and contractors with authorized access have undergone a thorough background security investigation.

RETENTION AND DISPOSAL:

Records are retired in accordance with published Department of State Records Disposition Schedules as approved by the National Archives and Records Administration (NARA). More specific information may be obtained by writing the Director; Office of Information Programs and Services, A/GIS/IPS; Department of State, SA-2; 515 22nd Street, NW., Washington, DC 20522-8001.

SYSTEM MANAGER(S) AND ADDRESS:

Office of Risk Analysis and Management, Department of State, Washington, DC, 2201 C St. NW., Washington, DC 20520.

NOTIFICATION PROCEDURE:

Individuals who have cause to believe that Risk Analysis and Management Records might have records pertaining to them should write to the Director;

Office of Information Programs and Services, A/GIS/IPS, Department of State, SA-2; 515 22nd Street NW., Washington, DC 20522-8001. The individual must specify that he/she wishes the records of the Risk Analysis and Management Records to be checked. At a minimum, the individual must include: name; date and place of birth; current mailing address and zip code; signature; and the approximate dates of application for a contract, grant or other funding.

RECORD ACCESS PROCEDURES:

Individuals who wish to gain access to or amend records pertaining to themselves should write to the Director, Office of Information Programs and Services (address above).

CONTESTING RECORD PROCEDURES:

(See above.)

RECORD SOURCE CATEGORIES:

Information in this system is obtained from the application form completed and submitted by an organization or individual applying for a contract, grant, cooperative agreement, or other funding from the Department of State. In the case of applications submitted by an individual in his/her own capacity, the information will be collected directly from the individual applicant. Information in this system may also be obtained from public sources, agencies conducting national security screening law enforcement and intelligence agency records, and other government databases.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Pursuant to 5 U.S.C. 552a(j)(2), records in this system may be exempt from subsections (c)(3) and (4), (d), (e)(1), (2) and (3), (e)(4)(G), (H), and (I), (e)(5) and (8), (f), (g) and (h) of the Privacy Act. Pursuant to 5 U.S.C. 552a(k)(1), (k)(2), and (k)(5), records in this system may be exempt from subsections 5 U.S.C. 552a(c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f) of the Privacy Act.

If a record contains information from other exempt systems of records, the Department of State will rely on the exemptions claimed for those systems.

BILLING CODE 4710-24-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2011-0089]

Petition for Waiver of Compliance

In accordance with part 211 of title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that by a document dated November 9, 2011, the Association of American Railroads (AAR) and the American Short Line and Regional Railroad Association (ASLRRA) have petitioned the Federal Railroad Administration (FRA) on behalf of their members for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 231, Safety Appliance Standards. FRA assigned the petition Docket Number FRA-2011-0089.

Specifically, AAR and ASLRRA are requesting relief from section 49 CFR Section 231.27(b)(3), which requires that end platforms on boxcars be "centered on each end of car between inner ends of handholds not more than eight (8) inches above top of center sill." The AAR and ASLRRA request relief for a group of boxcars that have end platforms that may exceed the 8-inch maximum by as much as 2 inches. AAR and ASLRRA stated that more than 18,000 cars and 20 different car owners are affected. The cars were manufactured between 1977 and 2001 as provided in an attachment to the petition. AAR and ASLRRA assert that in order to correct the end platform variance, many cars would require extensive modifications that are costly and labor intensive. Additionally, AAR and ASLRRA stated that one issue is whether the cars in question actually violate 49 CFR 231.27(b)(3) based on the specific method used to measure the sill step relationship to the platform height. AAR and ASLRRA believe that waiver would resolve any end platform variance created by the ambiguous wording contained in 49 CFR 231.27(b)(3). AAR and ASLRRA also stated that they are unaware of any personal injuries or other incidents arising from the height of the end platforms. AAR and ASLRRA believe a permanent waiver would be appropriate instead of the granting of a traditional 5-year waiver.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE., W12-140, Washington, DC 20590. The Docket

Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2011-0091]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that by a document dated November 15, 2011, New Jersey Transit (NJT) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety laws or regulations contained at Title 49 U.S.C. Section 20302. FRA assigned the petition Docket Number FRA-2011-0091.

Specifically, NJT is seeking relief from 49 U.S.C. 20302(1)(B). FRA has determined that NJT has incorrectly sought relief from the statute, which does not apply specifically to this issue. The correct areas that NJT should be seeking relief from are 49 CFR 231.1(e), *Ladders*; and 49 CFR 238.230(b), *Welded safety appliances*. FRA has modified the application to reflect the correct citations and will proceed with the waiver application as modified.

The side door access ladders of the series ALP 46, ALP 46A, and ALP 45DP locomotives consist of a frame assembly incorporating welded joints in the fabrication. The assembly is then bolted to the side sill of the locomotive. NJT has stated that the ALP 46 and ALP 46A locomotives have been in use for 9 years with no history of structural failure or reported injuries associated with this ladder design.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at <http://www.regulations.gov> and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE., W12-140, Washington, DC 20590.
