

collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 0.725 hours and 508 hours per response, depending upon the type of response. Burden is defined in 5 CFR 1320.3(b).

Respondents/Affected Entities: Entities potentially affected by this action are manufacturers, processors or importers of chemical substances.

Frequency of Collection: On occasion.

Estimated Average Number of

Responses for Each Respondent: 4.8.

Estimated No. of Respondents: 443.

Estimated Total Annual Burden on Respondents: 117,162 hours.

Estimated Total Annual Costs: \$34,417,821.

Changes in Burden Estimates: This request reflects a decrease of 350 hours (from 117,512 hours to 117,162 hours) in the total estimated respondent burden from that currently in the OMB inventory. This decrease represents a re-estimate in the number of annual submissions to reflect EPA's experiences since the most recent ICR. The decrease in the number of annual submissions is largely associated with the finalization of the e-PMN rule in 2010. The change is an adjustment.

Dated: November 30, 2011.

John Moses,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OW-2011-0439; FRL-9500-7]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Disinfectants/Disinfection Byproducts, Chemical and Radionuclides (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before January 6, 2012.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OW-2011-0439, to (1) EPA online using <http://www.regulations.gov> (our preferred method), by email to OW-Docket@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB by mail to: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Matthew Reed, Drinking Water Protection Division, Office of Ground Water and Drinking Water, (4606M), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; *telephone number:* (202) 564-4719; *fax number:* (202) 564-3755; *email address:* reed.matthew@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On July 5, 2011 (76 FR 39092), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments during the comment period. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OW-2011-0439 Notice 2, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Water Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Water Docket is (202) 566-2426.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without

change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: Disinfectants/Disinfection Byproducts, Chemical and Radionuclides (Renewal).

ICR numbers: EPA ICR No. 1896.09, OMB Control No. 2040-0204.

ICR Status: This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Disinfectants/Disinfection Byproducts, Chemical and Radionuclides ICR examines Public Water System, primacy agency and EPA burden and costs for recordkeeping and reporting requirements in support of the chemical drinking water regulations. These recordkeeping and reporting requirements are mandatory for compliance with 40 CFR parts 141 and 142. The following chemical regulations are included: Stage 1 Disinfectants and Disinfection Byproducts Rule (Stage 1 DBPR), Stage 2 Disinfectants and Disinfection Byproducts Rule (Stage 2 DBPR), Chemical Phase Rules (Phases II/IIB/V), 1976 Radionuclides Rule and 2000 Radionuclides Rule, Total Trihalomethanes (TTHM) Rule, Disinfectant Residual Monitoring and Associated Activities under the Surface Water Treatment Rule, Arsenic Rule, Lead and Copper Rule (LCR) and revisions. Future chemical-related rulemakings will be added to this consolidated ICR after the regulations are finalized and the initial, rule-specific, ICRs are due to expire.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average .45 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain,

or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/operators of Public Water Systems who must report to their primacy agency. Primacy agencies, which include States, Tribes (if they have been authorized to act as primacy agencies), and EPA Regions that act as primacy agencies in Indian lands and States that do not have primacy.

Estimated Number of Respondents: 153,036.

Frequency of Response: Varies by requirement (*i.e.*, on occasion, monthly, quarterly, semi-annually, annually, biennially, and every 3, 6, and 9 years).

Estimated Total Annual Hour Burden: 5,734,335.

Estimated Total Annual Cost: \$435,706,000 includes \$230,059,000 annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 384,924 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is a result of updating relevant baseline information for each rule with the most current and accurate information available (*e.g.*, Public Water System inventories) and updating burden to incorporate the results of consultation with stakeholders. Where appropriate and available, estimated violation, waiver, and other associated rates have also been updated to reflect current information on rule compliance.

Dated: November 30, 2011.

John Moses,

Director, Collection Strategies Division.

Title: Water Quality Standards Regulation (Renewal).

ICR numbers: EPA ICR No. 0988.11, OMB Control No. 2040-0049.

ICR Status: This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Water quality standards are provisions of State, Tribal, and Federal law that consist of designated uses for waters of the United States, water quality criteria to protect the designated uses, and an antidegradation policy. Section 303(c) of the Clean Water Act requires States and authorized Tribes to establish water quality standards, and to review and, if appropriate, revise their
