

be installed on artificial islands and fixed structures.

To obtain approval to establish a private aid to navigation, applicants must submit either CG Form 2554 (Private Aids to Navigation Application) or CG Form 4143 (Application for Class 1 Private Aids to Navigation on Artificial Islands and Fixed Structures). The forms collect information about the private aid to navigation (type, color, geographic position), as well as the applicant's contact information. The information is stored in the Coast Guard's Integrated Aids to Navigation System (I-ATONIS). I-ATONIS is the Coast Guard's comprehensive database for managing information about aids to navigation.

Collecting the applicant's contact information is important because it allows the Coast Guard to contact the applicant should there be a discrepancy or mishap involving the permitted private aid to navigation. Certain discrepancies create hazards to navigation and must be immediately corrected or repaired. I-ATONIS has user access controls in place to govern who may view or access the information. The contact information is only available to Coast Guard aids to navigation personnel and contact is only initiated if the private aid to navigation becomes discrepant or in need of repair.

Forms: CG-2554 and CG-4143.

Burden Estimate: The estimated burden remains 3,000 hours a year.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended.

Dated: February 20, 2012.

R.E. Day,

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Command, Control, Communications, Computers and Information Technology.
