SUPPLEMENTARY INFORMATION:

Background

Under the regulations in “Subpart—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–54, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into and spread within the United States.

Section 319.56–4 contains a performance-based process for approving the importation of commodities that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the designated phytosanitary measures listed in paragraph (b) of that section.

APHIS received a request from the Government of the Philippines to allow the importation of fresh fruit of litchi (*Litchi chinensis*), longan (*Dimocarpus longan*), and rambutan (*Nephelium lappaceum*) from the Philippines into the continental United States. Currently, fresh fruits of litchi, longan, and rambutan are not authorized for entry from the Philippines. We have completed a pest risk analysis for the purpose of evaluating the pest risks associated with the importation of fresh fruit of litchi, longan, and rambutan into the continental United States. The analysis consists of a pest list identifying pests of quarantine significance that are present in the Philippines and could follow the pathway of importation into the United States and a risk management document identifying phytosanitary measures that could be applied to the commodities to mitigate the pest risk.

We have concluded that fresh fruit of litchi, longan, and rambutan can be safely imported into the continental United States from the Philippines using one or more of the five designated phytosanitary measures listed in § 319.56–4(b). The requirements for shipments of fresh fruit of litchi, longan, and rambutan from the Philippines would be as follows:

- The fresh fruit of litchi, longan, and rambutan may be imported into the continental United States in commercial consignments only;
- The fresh fruit of litchi, longan, and rambutan must be irradiated in accordance with 7 CFR part 305 with a minimum absorbed dose of 400 Gy;
- If the irradiation treatment is applied outside the United States, each consignment of fresh fruit of litchi, longan, and rambutan must be jointly inspected by APHIS and the national plant protection organization (NPPO) of the Philippines and accompanied by a phytosanitary certificate attesting that the fruit received the required irradiation treatment. In the case of fresh rambutan fruit, the phytosanitary certificate must also include an additional declaration stating that the consignment was inspected and found free of the powdery mildew *Oidium nephelii*;
- If irradiation is applied upon arrival in the United States, each consignment of fresh fruit of litchi, longan, and rambutan must be inspected by the NPPO of the Philippines prior to departure. In the case of fresh rambutan fruit, the phytosanitary certificate must also include an additional declaration stating that the consignment was inspected and found free of the powdery mildew *Oidium nephelii*; and
- The fresh fruit of litchi, longan, and rambutan are subject to inspection upon arrival at the U.S. port of entry.

Therefore, in accordance with § 319.56–4(c), we are announcing the availability of our pest risk analysis for public review and comment. The pest risk analysis may be viewed on the Regulations.gov Web site or in our reading room (see **ADDRESSES** above for a link to Regulations.gov and information on the location and hours of the reading room). You may request paper copies of the pest risk analysis by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the subject of the pest risk analysis you wish to review when requesting copies.

After reviewing any comments we receive, we will announce our decision regarding the import status of fresh fruit of litchi, longan, and rambutan from the Philippines in a subsequent notice. If

the overall conclusions of the analysis and the Administrator's determination of risk remain unchanged following our consideration of the comments, then we will authorize the importation of fresh fruit of litchi, longan, and rambutan from the Philippines into the continental United States subject to the requirements specified in the risk management document.

Request for Applications: The Community Forest and Open Space Conservation Program

AGENCY: Forest Service.

ACTION: Notice; Correction.

SUMMARY: The Department of Agriculture (USDA), Forest Service, State and Private Forestry, Cooperative Forestry staff, published a document in the **Federal Register** of February 15, 2011, concerning requests for applications for the Community Forest and Open Space Conservation Program (Community Forest Program or CFP). The document contained incorrect funding information in section 2 (Award).

ADDRESSES: All local governments' and qualified nonprofit organizations' applications must be submitted to the State Forester of the State where the property is located. All Indian tribal applications must be submitted to the equivalent official of the Indian tribe. The Forest Service encourages applicants to contact and work with their State Forester or equivalent official of the Indian tribe when developing their proposal. The State Forester's contact information may be found at <http://www.fs.fed.us/spf/coop/programs/loa/cfp.shtml>.

All applicants must also send an email to communityforest@fs.fed.us to confirm an application has been submitted for funding consideration.

FOR FURTHER INFORMATION CONTACT: For questions regarding the grant application or administrative regulations, contact Kathryn Conant, Program Manager, 202–401–4072,

kconant@fs.fed.us or Maya Solomon, Program Coordinator, 202–205–1376, mayasolomon@fs.fed.us.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Relay Service (FRS) at 1–800–877–8339 twenty-four hours a day, every day of the year, including holidays.

Correction

In the **Federal Register** of February 15, 2012, in FR DOC #2012–3528 on page 8802 in the first column, correct the “2. Award Information” to read:

2. Award Information

Total CFP funding anticipated for awards made under this program is \$3.15 million. Individual grant applications may not exceed \$400,000. Awarding of grants under this program is contingent upon the availability of appropriated funds.

No legal liability on the part of the Government shall be incurred until appropriated funds are available and committed by the grant officer for this program to the applicant in writing. The initial grant period shall be for two years, and acquisition of lands should occur within that timeframe. The grant may be extended by the Forest Service when necessary to accommodate unforeseen circumstances in the land acquisition process. Awardees must submit written annual financial performance reports and semi-annual project performance reports shall be required and submitted to the appropriate grant officer.

Dated: February 21, 2012.

James Hubbard,

Deputy Chief, State & Private Forestry.
