SUPPLEMENTARY INFORMATION:

Title: FERC–598, Self Certification for Entities Seeking Exempt Wholesale Generator or Foreign Utility Company Status.

OMB Control No.: 1902–0166.

Type of Request: Three-year extension of the FERC–598 information collection requirements with no changes to the reporting requirements.

Abstract: The Commission uses the information collected under the requirements of FERC–598, “Self Certification for Entities Seeking Exempt Wholesale Generator or Foreign Utility Company Status” (OMB Control No. 1902–0166), to implement the statutory provisions of Title XII, subchapter F of the Energy Policy Act of 2005 (EPA 2005).¹

EPA 2005 repealed the Public Utility Holding Company Act (PUHCA) of 1935 in its entirety, including section 32. This repeal enabled the Commission to exempt wholesale generators from PUHCA 1935 on a case-by-case basis. The Commission amended its regulations (in Order No. 667²) to add procedures for self-certification by entities seeking exempt wholesale generator (EWG) and foreign utility company (FUCO) status. Moreover, Order No. 667 implemented the repeal of PUHCA 1935 and the supplementary enactment of PUHCA 2005. This self-certification is similar to the process available to entities that seek qualifying facility status.

An EWG is a “person engaged directly, or indirectly through one or more affiliates * * * and exclusively in the business of owning or operating, or both owning and operating, all or part of one or more eligible facilities and selling electric energy at wholesale.”³ A FUCO is a company that “owns or operates facilities that are not located in any state and that are used for the generation, transmission, or distribution of electric energy for sale or the distribution at retail of natural or manufactured gas for heat, light, or power, if such company: (1) Derives no part of its income, directly or indirectly, from the generation, transmission, or distribution of electric energy for sale or the distribution at retail of natural or manufactured gas for heat, light, or power, within the United States; and (2) neither the company nor any of its subsidiary companies is a public-utility
