SUPPLEMENTARY INFORMATION:

Title: FERC–598, Self Certification for Entities Seeking Exempt Wholesale Generator or Foreign Utility Company Status.

OMB Control No.: 1902–0166.

Type of Request: Three-year extension of the FERC–598 information collection requirements with no changes to the reporting requirements.

Abstract: The Commission uses the information collected under the requirements of FERC–598, “Self Certification for Entities Seeking Exempt Wholesale Generator or Foreign Utility Company Status” (OMB Control No. 1902–0166), to implement the statutory provisions of Title XII, subchapter F of the Energy Policy Act of 2005 (EPA 2005).¹

EPA 2005 repealed the Public Utility Holding Company Act (PUHCA) of 1935 in its entirety, including section 32. This repeal enabled the Commission to exempt wholesale generators from PUHCA 1935 on a case-by-case basis. The Commission amended its regulations (in Order No. 667²) to add procedures for self-certification by entities seeking exempt wholesale generator (EWG) and foreign utility company (FUCO) status. Moreover, Order No. 667 implemented the repeal of PUHCA 1935 and the supplementary enactment of PUHCA 2005. This self-certification is similar to the process available to entities that seek qualifying facility status.

An EWG is a “person engaged directly, or indirectly through one or more affiliates * * * and exclusively in the business of owning or operating, or both owning and operating, all or part of one or more eligible facilities and selling electric energy at wholesale.”³ A FUCO is a company that “owns or operates facilities that are not located in any state and that are used for the generation, transmission, or distribution of electric energy for sale or the distribution at retail of natural or manufactured gas for heat, light, or power, if such company: (1) Derives no part of its income, directly or indirectly, from the generation, transmission, or distribution of electric energy for sale or the distribution at retail of natural or manufactured gas for heat, light, or power, within the United States; and (2) neither the company nor any of its subsidiary companies is a public-utility

² Repeal of the Public Utility Holding Company Act of 1935 and Enactment of the Public Utility Holding Company Act of 2005, 70 FR. 75,592 (2005), FERC Statutes and Regulations ¶ 31,197 (2005) *Order on reh'g*, 71 FR 28,446 (2006), FERC Statutes and Regulations ¶ 31,213 (2006), *order on reh'g*, 71 FR 42,750 (2006), FERC Statutes and Regulations ¶ 31,224 (2006), *order on reh'g*, FERC ¶ 61,133 (2007).

company operating in the United States.”⁴

An exempt EWG or FUCO or its representative may file with the Commission a notice of self certification demonstrating that it satisfies the definition of exempt wholesale generator or foreign utility company. In the case of EWGs, the person filing a notice of self certification must also file a copy of the notice of self certification

with the state regulatory authority of the state in which the facility is located and that person must also represent to the Commission in its submission that it has filed a copy of the notice with the appropriate state regulatory authority.⁵

A submission of the information is necessary for the Commission to carry out its responsibilities under EPAct 2005.⁶ The Commission implements its responsibilities through the Code of

Federal Regulations (CFR) Title 18 Part 366. These filing requirements are mandatory.

Type of Respondents: EWGs and FUCOs.

*Estimate of Annual Burden:*⁷ The Commission estimates the total Public Reporting Burden for this information collection as:

FERC-598 (IC12-3-000): SELF CERTIFICATION FOR ENTITIES SEEKING EXEMPT WHOLESALE GENERATOR OR FOREIGN UTILITY COMPANY STATUS

	Number of respondents (A)	Number of responses per respondent (B)	Total number of responses (A) × (B) = (C)	Average burden hours per response (D)	Estimated total annual burden (C) × (D)
EWG/FUCOs	102	1	102	6	612

The total estimated annual cost burden to respondents is \$41,890 [612 hours ÷ 2080⁸ hours/year = 0.29423 years * \$142,372⁹ = \$41,890].

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: March 14, 2012.

Kimberly D. Bose,
Secretary.
