

B. State Water Project Facilities

The Department of Water Resources operates and maintains the SWP, which delivers water to agricultural and municipal and industrial (M&I) contractors in northern California, the San Joaquin Valley, the Bay Area, the Central Coast, and southern California.

- SWP water is stored and re-regulated in Lake Oroville and released into the Feather River, which flows into the Sacramento River.

- SWP water flows in the Sacramento River to the Delta and is exported from the Delta at the Banks Pumping Plant. The Banks Pumping Plant lifts the water into the California Aqueduct, which delivers water to the SWP contractors and conveys water to the San Luis Reservoir.

- The SWP also delivers water to the Cross-Valley Canal, when the systems have capacity, for CVP water service contractors.

VI. Alternatives To Be Considered

The proposed action for the purposes of NEPA will consider operational components of the 2008 USFWS and the 2009 NMFS Reasonable and Prudent Alternatives. These components address continued operation of the CVP, in coordination with the SWP, in a manner intended to avoid jeopardizing continued existence of federally listed species or result in the destruction or adverse modification of designated critical habitat.

- We expect to analyze flow management actions resulting from the 2008 USFWS Reasonable and Prudent Alternative that affect:

- (1) Protection of adult, juvenile, and larval delta smelt; and

- (2) Habitat improvements for delta smelt growth and rearing.

- We expect to analyze flow management actions resulting from the 2009 NMFS Reasonable and Prudent Alternative that affect:

- (1) Attraction and channel maintenance flows;

- (2) Reduction of thermal stress;

- (3) Passage of fish at Red Bluff Diversion Dam;

- (4) Reduction of redd dewatering, entrainment, and straying; and

- (5) Reduction of negative hatchery influences on natural populations.

The proposed action will not consider:

- Structural changes prescribed in the NMFS 2009 Reasonable and Prudent Alternative that would require future evaluations, environmental documentation, and permitting; and

- Reasonable and Prudent Alternative actions that would require future studies.

As required by NEPA, we will develop and consider a proposed action and a reasonable range of alternatives, including a No Action Alternative.

Reasonable alternatives to the proposed action may include physical changes or changes in operations of CVP facilities.

Alternatives could affect all or various components of the CVP, and may also include actions that affect SWP operations. We will engage with the Department of Water Resources in developing the proposed action and alternatives. We will also consider including in the alternative analysis reasonable alternatives to the proposed action identified through the scoping process.

VII. Statutory Authority

NEPA [42 U.S.C. 4321 *et seq.*] requires that Federal agencies conduct an environmental analysis of their proposed actions to determine if the actions may significantly affect the human environment. In addition, as required by NEPA, Reclamation will analyze in the EIS the potential direct, indirect, and cumulative environmental effects that may result from the implementation of the proposed action and alternatives, which may include, but are not limited to, the following areas of potential impact:

- a. Water resources, including groundwater;
- b. Land use, including agriculture;
- c. Socioeconomics;
- d. Environmental justice;
- e. Biological resources, including fish, wildlife, and plant species;
- f. Cultural resources;
- g. Water quality;
- h. Air quality;
- i. Soils, geology, and mineral resources;
- j. Visual, scenic, or aesthetic resources;
- k. Global climate change;
- l. Indian trust assets
- m. Transportation; and
- n. Recreation.

VII. Request for Comments

The purposes of this notice are:

- To advise other agencies, CVP and SWP water and power contractors, affected tribes, and the public of our intention to gather information to support the preparation of an EIS;

- To obtain suggestions and information from other agencies, interested parties, and the public on the scope of alternatives and issues to be addressed in the EIS; and

- To identify important issues raised by the public related to the development and implementation of the proposed action.

We invite written comments from interested parties to ensure that the full range of alternatives and issues related to the development of the proposed action are identified. Comments during this stage of the scoping process will only be accepted in written form.

Written comments may be submitted by mail, electronic mail, facsimile transmission or in person (see **ADDRESSES**). Comments and participation in the scoping process are encouraged.

IX. Public Disclosure

While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
