

policies and procedures for creating this list are limited in scope and do not establish a process by which the Office can resolve the specialty station status of a particular station, regardless of the purported facts. Since the inception of this process, the Office has stated clearly that it would not play a role in determining the merits of a specialty station claim, noting that "it should not itself verify the specialty station status of particular stations." 54 FR 38466 (September 18, 1989). The Office has also commented that it periodically provides an updated annotated list so that "cable systems can make an informed decision as to whether MPAA or any other party might contest the system's carriage of a particular station on a specialty basis." 56 FR 61056 (November 29, 1991). In light of these policies and practices, there is no support for MPAA's contention that the Office can make determinations regarding the specialty status of a particular station under the principles underlying Section 411(b).

As noted above, the Office received affidavits from 63 broadcast stations for which the owner or licensee of the television station had filed the requested affidavit. Since the publication of the initial list, the Office received 24 additional affidavits, attesting to the specialty station status of the 24 identified stations. Because the Office received a substantial number of late filed affidavits, the Office found it necessary to seek input from the public regarding the asserted specialty station status of these particular stations and allow any interested party to file an objection to these newly listed stations. See 76 FR 69288 (November 8, 2011). No one filed any objections to the television stations listed in this most recent **Federal Register** publication. As such, these stations shall be duly listed here.

The final list of specialty stations, as identified in the affidavits and published herein, shall be applicable to accounting periods beginning on January 1, 2012. Licensing examiners shall refer to the final annotated list in examining a statement of account where a cable system operator claims specialty station status for a particular station. If a cable system operator claims specialty station status for a station not on the published final list, the examiner shall determine whether the owner of the station has filed an affidavit since publication of the list.

With regard to the treatment of contested specialty stations after this proceeding concludes, it is important to note that the Licensing Division examiners will look at these stations in

the same way they have done in the past. That is, if a cable operator claims specialty station status for a contested station on the list, the examiner will inform the operator by letter that a particular party objects to the "specialty station characterization." See 54 FR 38461, 38464 (September 18, 1989). The cable operator may then file an amended Statement of Account and recalculate royalties, if the operator so chooses.

NUCLEAR REGULATORY COMMISSION

[NRC-2011-0025]

Administrative Guide for Verifying Compliance With Packaging Requirements for Shipment and Receipt of Radioactive Material

AGENCY: Nuclear Regulatory Commission.

ACTION: Regulatory guide; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC or Commission) is issuing a revision to Regulatory Guide 7.7, "Administrative Guide for Verifying Compliance with Packaging Requirements for Shipment and Receipt of Radioactive Material." This regulatory guide describes an approach the staff of the NRC considers acceptable for meeting the administrative requirements associated with the shipment and receipt of radioactive materials.

ADDRESSES: Please refer to Docket ID NRC-2011-0025 when contacting the NRC about the availability of information regarding this document. You may access information related to this document, which the NRC possesses and is publicly available, using the following methods:

- *Federal Rulemaking Web Site:* Go to <http://www.regulations.gov> and search

for Docket ID NRC-2011-0025. Address questions about NRC dockets to Carol Gallagher, telephone: (301) 492-3668; email Carol.Gallagher@nrc.gov.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may access publicly available documents online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1 (800) 397-4209 or 1 (301)-415-4737, or by emailing to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced in this notice (if that document is available in ADAMS) is provided the first time that a document is referenced. Revision 1 of Regulatory Guide 7.7 is available in ADAMS under Accession No. ML112160407. The regulatory analysis may be found in ADAMS under Accession No. ML112160410. Public comments and the NRC staff response to them may be found in ADAMS under Accession No. ML112160411.

Regulatory guides are not copyrighted, and NRC approval is not required to reproduce them.

- **NRC's PDR:** You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852.

FOR FURTHER INFORMATION CONTACT: Bernard White, Office of Nuclear Material Safety and Safeguards, Division of Spent Fuel Storage and Transportation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: (301) 492-3303 or email: Bernard.White@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is issuing a revision to an existing guide in the NRC's "Regulatory Guide" series. This series was developed to describe and make available to the public information such as methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

This revision to Regulatory Guide 7.7 provides licensees and applicants with a method the NRC considers acceptable for meeting the administrative requirements for transporting licensed

material under 10 CFR part 71, "Packaging and Transportation of Radioactive Material" either in a Type B or a Type AF package and receipt, and for opening of the package under 10 CFR Part 20, "Standards for Protection Against Radiation." The NRC's administrative requirements for the shipment, receipt, and opening of a Type B package appear in Subpart J, "Precautionary Procedures" of 10 CFR part 20 and subpart G, "Operating Controls and Procedures," of 10 CFR part 71.

The staff developed and published this guidance to provide licensees with an acceptable method to satisfy the administrative requirements in 10 CFR part 20 and part 71 for transferring, shipping, and receiving radioactive material.

II. Further Information

Revision 1 of Regulatory Guide 7.7 was issued with a temporary identification as Draft Regulatory Guide, DG-7007. Draft Regulatory Guide, DG-7007, was published in the **Federal Register** on January 28, 2011 (76 FR 5215) for a 60 days public comment period. The public comment period closed on March 30, 2011. The NRC staff's responses to the public comments on DG-7007 are available under ADAMS Accession Number ML112160411.

Dated at Rockville, Maryland, this 19th day of March, 2011.

For the Nuclear Regulatory Commission.

Richard Jervey,

Acting Chief, Regulatory Guide Development Branch, Division of Engineering, Office of Nuclear Regulatory Research.

NUCLEAR REGULATORY COMMISSION

[NRC-2010-0305]

Availability of Electric Power Sources

AGENCY: Nuclear Regulatory Commission.

ACTION: Regulatory guide; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC or Commission) is issuing Revision 1 of Regulatory Guide (RG) 1.93, "Availability of Electric Power Sources." This guide describes actions the NRC staff considers acceptable when available electric power sources are less than the number of sources required by the limiting conditions for operations (LCOs) for the facility.

ADDRESSES: Please refer to Docket ID NRC-2010-0305 when contacting the NRC about the availability of information regarding this document. You may access information related to this document, which the NRC possesses and is publicly available using the following methods:

- **Federal Rulemaking Web site:** Go to <http://www.regulations.gov> and search for Docket ID NRC-2010-0305. Address questions about NRC dockets to Carol Gallagher; telephone 301-492-3668; email: Carol.Gallagher@nrc.gov.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** Publicly available documents created or received at the NRC are available online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Document" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209 or 301-415-4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced in this notice (if that document is available in ADAMS) is provided the first time that document is referenced. Revision 1 of Regulatory Guide 1.93 is available electronically under ADAMS Accession Number ML090550661. The regulatory analysis may be found in ADAMS under Accession Number ML101870610. Public Comments and the NRC staff response to them are summarized in a table that may be found in ADAMS under Accession Number ML090550693.

Regulatory guides are not copyrighted, and NRC approval is not required to reproduce them.

- **NRC's Public Document Room (PDR):** The public may examine and have copied, for a fee, publicly available documents at the NRC's PDR, O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Sheila Ray, Division of Engineering, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: 301-251-7644; email: Sheila.Ray@nrc.gov.
