DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of International Meeting

The Federal Energy Regulatory Commission hereby gives notice that the agency will host an international meeting of the Asia Pacific Energy Regulatory (APER) Forum on August 1-2, 2012 at its headquarters, 888 First Street NE., Washington, DC 20426. Commissioners and staff will take part in this event. Commissioner Philip Moeller and Commissioner John R. Norris are co-chairs of the event.

The meetings are expected to begin at 8:30 a.m. and end at 5:00 p.m. Eastern Time on both days. An agenda of the conference is attached to this notice.

Those wishing to attend this event are encouraged to register using the on-line form located at: <https://www.ferc.gov/aper-forum/aper-8-1-12-form.asp>.

The APER Forum was established as a recommendation at the 3rd Energy Regulatory and Market Development Forum, which operated under the Asia-Pacific Partnership on Clean Development and Climate (APP). The APP was an international partnership between the United States, South Korea, Japan, India, Canada, China and Australia aimed at addressing the challenges of climate change, energy security and air pollution in a way that encouraged economic development and reduced poverty. The APER Forum builds upon the work begun under the APP.

The APER Forum is designed to bring together policymakers, regulators, energy industry participants, academics, regulatory research organizations, and grid and market operators from Asian and Pacific countries to engage in meaningful information exchanges on matters relating both to electricity and to natural gas. The APER Forum is voluntary in nature and intends to provide an ongoing experience for information exchange on the development and application of best practices in regulatory and market arrangements. The first meeting was sponsored by Australia and held in 2010.

This year marks the second biennial meeting of the APER Forum. The event will include delegations from the United States, Canada, Australia, China, India, New Zealand, Thailand and Singapore. Other attendees include regulators from Pakistan, Ghana and the Czech Republic. It will focus on three major issues:

Transitioning to a Low-Carbon Economy—examining policy, regulatory arrangements and standards that encourage energy efficiency and clean energy technologies and promote clean investment/delivery (including renewable and alternative energy) with the aim of reducing greenhouse gas emissions.

Energy Infrastructure and Market Regulatory Arrangements—examining challenges and reforms to the operation and design of energy systems within the context of a market.

Competition Reform—examining regulatory, policy and standards matters that influence and encourage competition (wholesale and retail) growth in the market.

The conference will not be transcribed. However, there will be a free webcast. Anyone with Internet access who desires to watch the conference and download presentations can do so by going to the calendar of events on the FERC Web site (www.ferc.gov). The Capitol Connection provides technical support for webcasts and offers the option of listening to the meeting via phone-bridge for a fee. If you have any questions, visit www.CapitolConnection.org or call 703-993-3100.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973.
