

I. Abstract

This request is for an extension of a current information collection.

eLandings and seaLandings are data entry components of the Alaska Interagency Electronic Reporting System (IERS) which is a collaborative program run by National Marine Fisheries Service (NMFS) Alaska Regional Office, Alaska Department of Fish and Game (ADF&G), and the International Pacific Halibut Commission (IPHC). eLandings and seaLandings provide the Alaska fishing industry with a consolidated electronic means of reporting production and landings of commercial fish and shellfish to multiple management agencies with a single reporting system. NMFS collects groundfish harvest and production data for Fishery Management Plan species in the Exclusive Economic Zone (EEZ). ADF&G collects harvest data for groundfish species taken in the State of Alaska waters, and has responsibility for some fisheries in the EEZ, such as lingcod and black rockfish. ADF&G and NMFS cooperatively manage the Crab Rationalization Program (CR) fisheries in the Bering Sea and Aleutian Islands Management Area. NMFS and IPHC cooperatively manage Individual Fishing Quota (IFQ) for Pacific halibut and sablefish in both State waters and in the EEZ.

Using the eLandings Web-based application, shoreside processors report groundfish, crab, Pacific halibut, and sablefish production and landings data (<http://www.elandings.alaska.gov>). Processors with no Web access, such as the at-sea fleet, use eLandings client desktop software named seaLandings, provided by NMFS, and submit landing reports as email attachments. Once data are entered and submitted, the User daily must print onsite through eLandings each landing report, production report, and if an IFQ delivery, each IFQ receipt. The parties to the information must acknowledge the accuracy of the printed reports by signing them and entering date signed. In addition, the User must make the printed copies available upon request of NMFS observers and authorized officers.

Some of the benefits of IERS include: improved data quality, automated processing of data, improved process for correcting or updating information, availability of more timely data for fishery managers, and reduction of duplicative reporting of similar information to multiple agencies.

II. Method of Collection

Methods of submittal include online and email. Clients with no Web access, such as the at-sea fleet, use seaLandings client desktop software and submit landing reports as email attachments. The vessels use satellite communications which may or may not include telephone, Internet, text messaging, email, and email attachment capabilities.

III. Data

OMB Control Number: 0648–0515.

Form Number: None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Individuals or households; business or other for-profit organizations.

Estimated Number of Respondents: 272.

Estimated Time per Response: 15 minutes for eLandings processor registration; 35 minutes for eLandings landing report; 35 minutes for backup manual eLandings report; 35 minutes for eLandings production report; 15 minutes for electronic logbook (eLog) registration; and 41 minutes for active response and 5 minutes for inactive response for longline or pot gear catcher/processor eLog.

Estimated Total Annual Burden Hours: 23,610.

Estimated Total Annual Cost to Public: \$11,212.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

RIN 0648–XC150

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Habitat Oversight Committee to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This meeting will be held on Thursday, August 23, 2012 at 9:30 a.m.

ADDRESSES: The meeting will be held at the Hotel Providence, 139 Mathewson Street, Providence, RI 02903; telephone: (401) 861–8000; fax: (401) 454–4306.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

SUPPLEMENTARY INFORMATION: There are three topics related to adverse effects and Dedicated Habitat Research Areas (DHRA) for Habitat Committee consideration at this meeting. First, the Committee will review updated DHRA recommendations from the Habitat Plan Development Team (PDT) and provide feedback to the PDT for further work. Next, the Committee will discuss PDT recommendations regarding ground cable length options. Finally, the Committee will review species and area-based 'extra-SASI' materials intended to support decision making related to adverse effects minimization and DHRA alternatives, and provide any feedback as to how this information can be made more useful.

There are three topics related to deep-sea corals for Habitat Committee consideration at this meeting. First, the

Committee will review a Memorandum of Understanding about coordination on deep-sea coral issues with the other Atlantic coast Councils, particularly MAFMC. This will include a presentation from the PDT on fishing effort in coral zones. Second, they will review comments received to date on a **Federal Register** notice indicating that the Council is exploring the possibility of splitting corals from the EFH Omnibus Amendment, 77 FR 44214, July 27, 2012 (comment period closes on August 27). Finally, the Committee will discuss work plans and timelines under various scenarios (i.e. corals split or not).

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard, Executive Director, at 978-465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 3, 2012.

SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** of May 23, 2012, in FR Doc. 2012-12462, make the following corrections:

1. On page 30511, in the first column, removal of paragraph;

“The FY 2011 Work Plan outlines a strategy to balance the Energy Program in both legacy and renewable components, providing up to \$2.4 million of available program funds specifically toward the emerging technology program pending state match. If match for this program is not provided, this funding shall be reallocated to legacy projects.”

2. On page 30511, in the third column, include in the heading “Transportation” caption to read:
