McClellan Air Force Base Superfund Site Proposed Notice of Administrative Order on Consent

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: Notice is hereby given that a proposed administrative order on consent concerning portions of the McClellan Air Force Base Superfund Site (“Site”) in McClellan, California has been negotiated by the Agency and the Respondent, McClellan Business Park, LLC, a Delaware limited liability company. The proposed administrative order on consent concerns cleanup of portions of the Site pursuant to the Comprehensive Environmental Response, Compensation and Liability Act, (“CERCLA”). Pursuant to a Federal Facilities Agreement (“FFA”), the U.S. Air Force is performing the CERCLA response actions for the Site; however, the FFA was amended to suspend the obligations of the Air Force to conduct the response actions undertaken by the Respondent. The Air Force has prepared a Finding of Suitability for Early Transfer (“FOSET”), which has been subject to a public comment period. The Air Force submitted the FOSET to the Environmental Protection Agency (“EPA”), Region 9, and the State of California for their approval and upon approval of the FOSET, the Air Force will transfer portions of the Site to the County of Sacramento, which will then transfer those portions to the Respondent. The Air Force and the County of Sacramento have entered into an Environmental Services Cooperative

Agreement, which requires the County of Sacramento to perform certain CERCLA response actions on the transferred portions of the Site, using funds supplied by the Air Force. The County of Sacramento has contracted with Respondent to conduct those CERCLA response actions. The proposed administrative order on consent would require the Respondent to prepare and perform removal actions, one or more remedial investigations and feasibility studies and one or more remedial designs and remedial actions for certain contaminants present on the transferred portions of the Site, under the oversight of EPA and the State of California. The administrative order on consent also commits the Respondent to reimburse direct and indirect future response costs incurred by EPA in connection with actions conducted under CERCLA at the transferred portions of the Site.

For thirty (30) calendar days following the date of publication of this notice, EPA will receive written comments relating to the proposed administrative order on consent. If requested prior to the expiration of this public comment period, EPA will provide an opportunity for a public meeting in the affected area. EPA’s response to any comments received will be available for public inspection at the U.S. Environmental Protection Agency, 75 Hawthorne Street, San Francisco, CA 94105.

DATES: Comments must be submitted on or before September 28, 2012.

ICR Status: This ICR is scheduled to expire on 08/31/12. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB." An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. Abstract: Section 126(f) of the Superfund Amendments and Reauthorization Act of 1986 (SARA) requires EPA to set worker protection standards for State and local employees engaged in hazardous waste operations and emergency response in the 27 States

that do not have Occupational Safety and Health Administration approved State plans. The EPA coverage, required to be identical to the Occupational Safety and Health Administration (OSHA) standards, extends to three categories of employees: Those engaged in clean-ups at uncontrolled hazardous waste sites, including corrective actions at Treatment, Storage and Disposal (TSD) facilities regulated under the Resource Conservation and Recovery Act (RCRA); employees working at routine hazardous waste operations at RCRA TSD facilities, and employees involved in emergency response operations without regard to location. This ICR renews existing mandatory record keeping collection of ongoing activities including monitoring of any potential employee exposure at uncontrolled hazardous waste sites, maintaining records of employee training, refresher training, medical exams and reviewing emergency response plans.

Burden Statement: The annual public reporting and recordkeeping burden for this collection is estimated to average 10.69 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State and local employees engaged in hazardous waste operations and emergency response in the 27 States that do not have OSHA approved State plans.

Estimated Number of Respondents: 23,900.

Frequency of Response: Annually.

Estimated Total Average Number of Responses for Each Respondent: 1.

Estimated Total Annual Hour Burden: 255,477 hours.

Estimated Total Annual Cost: \$3,525,588, includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 56,203 hours in the total estimated burden currently identified in

the OMB Inventory of Approved ICR Burdens. This is due to an adjustment accounting for improved computer programs for recordkeeping.

Director, Collection Strategies Division.
