Title of Collection: NPEFS 2011-2014: Common Core of Data (CCD) National Public Education Financial Survey.

OMB Control Number: 1850-0067.

Type of Review: Extension.

Total Estimated Number of Annual Responses: 56.

Total Estimated Number of Annual Burden Hours: 5,264.

Abstract: The NPEFS collection includes data on all state-run schools from the 50 states, the District of Columbia, American Samoa, the Northern Mariana Islands, Guam, Puerto Rico, and the Virgin Islands. NPEFS data are used for a wide variety of purposes, including to calculate federal program allocations such as states' "average per-pupil expenditure" (SPPE) for elementary and secondary education, certain formula grant programs (e.g. Title I, Part A of the Elementary and Secondary Education Act of 1965 (ESEA) as amended, Impact Aid, and Indian Education programs). Furthermore, other federal programs, such as the Educational Technology State Grants program (Title II Part D of the ESEA), the Education for Homeless Children and Youth Program under Title VII of the McKinney-Vento Homeless Assistance Act, and the Teacher Quality State Grants program (Title II Part A of the ESEA) make use of SPPE data indirectly because their

formulas are based, in whole or in part, on State Title I Part A allocations. No changes have been made to the NPEFS since its last Office of Management and Budget approval in January 2012. This submission is to conduct the annual collection of state-level finance data for FY 2012–2014.

Title of Collection: FAFSA

Completion Project Evaluation.

OMB Control Number: Pending.

Type of Review: New.

Total Estimated Number of Annual Responses: 200.

Total Estimated Number of Annual Burden Hours: 1,120.

Abstract: This information is intended to help schools implement targeted outreach to seniors and their families who have not yet submitted a FAFSA, or who submitted a FAFSA that may be incomplete. The evaluation of the project is being conducted by IES staff in the National Center for Education Evaluation. The study will use a delayed-treatment control group design, and will examine whether there is an impact from access to the data on students' application for and receipt of federal student aid and a proxy for college enrollment. The data collection to address these research questions will create minimal burden on respondents and have limited cost to the government. IES is requesting permission to obtain lists of high schools and student rosters from the participating districts or their high schools. Other data for the study—completion of a FAFSA, receipt of Pell Grant, and a proxy for college enrollment (whether an institution of higher education has drawn down the Pell Grant funds for individual students)—will come from existing ED administrative data that will not generate any new burden because they are already collected for other purposes.

The analyses will be conducted internally by IES staff on data that is stripped of personally identifiable information. The results will be summarized in an internal memo.

Dated: September 14, 2012.

Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.
