

Security and Rural Investment Act of 2002. The Animal and Plant Health Inspection Service (APHIS) is the Agency charged with carrying out this disease prevention mission. An important approach for disease detection and control is provided to APHIS by the assistance of private veterinarians through the National Veterinary Accreditation Program (NVAP). This voluntary program, administered by APHIS, certifies private practitioners, to work cooperatively with Federal and State animal health authorities.

Need and Use of the Information: APHIS will use VS form 1–36A to collect information to certify private practitioners to work cooperatively with Federal and State animal health authorities as accredited private veterinarians on various approaches for disease prevention and proactive disease surveillance as effective methods for maintaining a healthy animal population and for enhancing the United States' ability to compete in the global market for animal and animal product trade.

Description of Respondents: Business or other for-profit.

Submission for OMB Review; Comment Request

November 19, 2012.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or

other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *OIRA_Submission@OMB.EOP.GOV* or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: WIC Program Regulations-Reporting and Recordkeeping Burden.

OMB Control Number: 0584–0043.

Summary of Collection: The WIC Program is authorized by the Child Nutrition Act of 1966, as amended, and is administered by State agencies in accordance with WIC program regulations at 7 CFR part 246. This submission incorporates the information collection burden associated with requirements contained in the Healthy Hunger-Free Kids Act of 2010 (Pub. L. 111–296).

Need and Use of the Information: The Food and Nutrition Service (FNS) will collect information that include participant certification information (e.g. income and nutrition risk); nutrition education documentation; local agency and vendor application and agreement information; vendor sales and shelf price data; data related to vendor monitoring and training; and, financial and food delivery system records. The information is needed for the general operation of the Program, including regulatory compliance, and for ongoing program integrity and cost-saving efforts. The information collected is also used by FNS to manage, plan, evaluate, make decisions and report on WIC program operations. If the information were not collected the efficiency and effectiveness of the program would be jeopardized, the likelihood of misuse or improper use of Federal funds would increase, and FNS' ability to detect violations or abusive behavior would diminish greatly.

Description of Respondents: State, Local, or Tribal Government; individuals or households; business or other for-profit; not-for-profit institutions.

Number of Respondents: 9,023,066.

Frequency of Responses: Recordkeeping; Report: Quarterly; semi-annually; annually; biennially.

Total Burden Hours: 4,024,697.

SUPPLEMENTARY INFORMATION: *Title:* Flathead Wild and Scenic River Visitor Survey and McKenzie River Visitor Survey.

OMB Number: 0596–0229.

Expiration Date of Approval: 04/30/2013.

Type of Request: Extension with no revision of a currently approved information collection

Abstract: The Flathead and Willamette National Forests are proposing to continue implementation of an information collection from forest visitors who are recreating on or near the Flathead Wild and Scenic River, McKenzie Wild and Scenic River, or McKenzie National Recreational Trail. Because of the differences in the issues on each River and the need for different information, two separate surveys will be administered for the Flathead and Willamette Rivers though the methodology for collection will be essentially identical.

The visitor survey will support development of the Flathead Comprehensive River Management Plan (CRMP), implementation of the exiting Upper McKenzie River Management Plan, and will provide needed information for managers to protect and enhance the outstandingly remarkable values for which the Flathead and McKenzie Rivers were designated. In addition, the survey proposed will help managers identify the most important indicators to monitor over the life of the plan, determine if any thresholds are being approached, and if management action may need to occur.

Information will continue to be collected from visitors who are recreating on or near the Flathead and McKenzie Rivers and McKenzie National Recreational Trail by in-person, written surveys which will be administered by Forest Service or National Park Service (Flathead) employees, volunteers, or study cooperators to randomly selected visitors. Surveys will ask visitors to provide information about their trip and activities, environmental and social conditions that may alter the quality of their recreational experience, and their attitudes toward different existing and potential recreation management policies and practices. Visitors' responses are voluntary and anonymous.

Data will be entered into an Excel database. Once data entry has been completed and validated, the hardcopy questionnaires will be discarded. Data will be imported into SPSS (Statistical

Package for the Social Sciences) for analysis. The database will be maintained at the respective National Forest to be used for development of subsequent management plans and direction.

Collecting thoughts from the public on how these areas should be managed and consideration of their interests and priorities is a critical component to developing a fair and balanced management plan and strategy. Without the public's involvement, a plan has the risk of being biased and ineffective.

Estimate of Annual Burden: The survey is expected to take 20 minutes to complete.

Type of Respondents: National Forest and National Park (Flathead) visitors (adults, age 16 and older) who are recreating on or near the Flathead or McKenzie Rivers or the McKenzie National Recreational Trail.

Estimated Annual Number of Respondents: 1000 (Willamette) and 1200 (Flathead).

Estimated Annual Number of Responses per Respondent: One response per respondent.

Estimated Total Annual Burden on Respondents: 333 hours (Willamette) and 400 hours (Flathead).

Comment is Invited

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the agency, including whether the information will have practical or scientific utility; (2) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission request toward Office of Management and Budget approval.

Dated: November 5, 2012.

Forest Service

White River National Forest; Eagle County, CO; Vail Mountain Recreation Enhancements Projects EIS

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: Vail Mountain Ski Resort (Vail) recently submitted a proposal to the White River National Forest (WRNF) for new and enhanced activities within its Forest Service-administered Special Use Permit (SUP) area. The WRNF has accepted this proposal, and is initiating a National Environmental Policy Act (NEPA) analysis to document and disclose potential impacts. The Proposed Action—the Vail Mountain Recreation Enhancements Project—is built on the goal of fostering enhanced opportunities for, and appreciation of, natural resource-based recreation on public lands administered by the WRNF. The proposed projects are designed to take advantage of existing lift and guest service infrastructure across Vail's SUP area and proposed non-ski-based activities are designed to suit a wide range of visitors to the WRNF and the Vail Valley.

DATES: Comments concerning the scope of the analysis must be received by December 26, 2012. The draft environmental impact statement is expected to be available for public review in August or September 2013 and the final environmental impact statement is expected in the winter of 2013/14.

ADDRESSES: Comments may be submitted online at www.vailreceis.info. Send written comments to: Scott Fitzwilliams, Forest Supervisor, c/o Don Dressler, Winter Sports Administrator, White River National Forest, P.O. Box 190, Minturn, CO 81645; FAX (970) 945–9343 or by email to: comment@vailreceis.info (include "Vail Recreation Enhancements Project EIS" in the subject line). Additional details of the Proposed Action, figures, the EIS scoping process, how to comment electronically, and the overall NEPA process can be viewed at www.vailreceis.info.
