SUMMARY: The U.S. Nuclear Regulatory Commission (NRC or the Commission) is issuing a new regulatory guide (RG) 3.74, "Guidance for Fuel Cycle Facility Change Processes." This regulatory guide describes the types of changes for which fuel cycle facility licensees should seek prior approval from the NRC and discusses how licensees can evaluate potential changes to determine whether NRC approval is required before implementing a change. This regulatory guide also describes the level of information that the NRC staff considers acceptable for use in documenting and reporting changes made without prior NRC approval.

SUPPLEMENTARY INFORMATION:**I. Introduction**

The NRC is issuing a new guide in the NRC's "Regulatory Guide" series. This series was developed to describe and make available to the public information such as methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

RG 3.74, "Guidance for Fuel Cycle Facility Change Processes," was issued with a temporary identification as Draft Regulatory Guide, DG-3037, to address several requirements of Title 10 of the *Code of Federal Regulations* (10 CFR) Part 70, "Domestic Licensing of Special Nuclear Material." The guide describes how fuel cycle facility licensees can evaluate potential changes to determine whether NRC approval is required before implementing them. Operating experience from nuclear fuel cycle facilities shows that past incidents often resulted from changes implemented at the facility. In some cases, licensee management or personnel did not analyze, authorize, or understand the changes before implementing them. Subpart H to 10 CFR part 70, in part, includes requirements for tracking, evaluating, and documenting changes made to fuel cycle facilities, and to licensee safety programs. The requirements governing these changes are stated in 10 CFR 70.72, "Facility Changes and Change Process," and pursuant to 10 CFR 70.60, apply to fuel cycle facility licensees that possess greater than a critical mass of special nuclear material and that are engaged in enriched uranium processing, fabrication of uranium fuel or fuel assemblies, uranium enrichment, enriched uranium hexafluoride conversion, plutonium processing, or fabrication of mixed-oxide fuel or fuel assemblies. Such fuel cycle facility licensees must establish a configuration management system to evaluate, implement, and track each change to the site, structures, processes, systems, equipment, components, computer programs, and activities of personnel, in accordance with 10 CFR 70.72(a). Licensees may make such changes without prior approval of the NRC as long as the changes meet the criteria in

10 CFR 70.72(c). RG 3.74 describes how fuel cycle facility licensees can evaluate potential changes to determine whether NRC approval is required before implementing them. This regulatory guide identifies an acceptable level of information to be provided by licensees when documenting and reporting changes made without prior NRC approval.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, pursuant to 39 U.S.C. 404(d), the Commission received four petitions for review of the Postal Service's determination to close the Plover post office in Plover, Iowa. The first petition for review received November 30, 2011, was filed by Darla Johnson. The second petition for review received November 30, 2011, was filed by Alan and Karen Minkler. A third petition for review received December 2, 2011, was filed by Eugene B. Van Deest. A fourth petition for review received December 6, 2011, was filed by the Citizens of Plover. The earliest postmark date is November 19, 2011. The Commission hereby institutes a proceeding under 39 U.S.C. 404(d)(5) and establishes Docket No. A2012-92 to consider Petitioners' appeal. If Petitioners would like to further explain their position with supplemental information or facts, Petitioners may either file a Participant Statement on PRC Form 61 or file a brief with the Commission no later than January 4, 2012.

Notwithstanding the Postal Service's determination to close this post office, on December 15, 2011, the Postal Service advised the Commission that it "will delay the closing or consolidation of any Post Office until May 15, 2012."¹ The Postal Service further indicated that it "will proceed with the discontinuance process for any Post Office in which a Final Determination was already posted as of December 12, 2011, including all pending appeals." *Id.* It stated that the only "Post Offices" subject to closing prior to May 16, 2012 are those that were not in operation on, and for which a Final Determination was posted as of, December 12, 2011. It affirmed that it "will not close or consolidate any other Post Office prior to May 16, 2012." *Id.* Lastly, the Postal Service requested the Commission "to continue adjudicating appeals as provided in the 120-day decisional schedule for each proceeding." *Id.*

The Postal Service's Notice outlines the parameters of its newly announced discontinuance policy. Pursuant to the

Postal Service's request, the Commission will fulfill its appellate responsibilities under 39 U.S.C. 404(d)(5).

Categories of issues apparently raised. Petitioners contend that (1) the Postal Service failed to consider the effect of the closing on the community (*see* 39 U.S.C. 404(d)(2)(A)(i)); and (2) the Postal Service failed to consider whether it will continue to provide a maximum degree of effective and regular postal services to the community (*see* 39 U.S.C. 404(d)(2)(A)(iii)).

After the Postal Service files the administrative record and the Commission reviews it, the Commission may find that there are more legal issues than those set forth above, or that the Postal Service's determination disposes of one or more of those issues. The deadline for the Postal Service to file the applicable administrative record is within 15 days after the date on which the petition for review was filed with the Commission. *See* 39 CFR 3001.113. In addition, the due date for any responsive pleading by the Postal Service is also within 15 days after the date on which the petition for review was filed with the Commission.

Availability; Web site posting. The Commission has posted the appeal and supporting material on its Web site at <http://www.prc.gov>. Additional filings in this case and participant's submissions also will be posted on the Web site, if provided in electronic format or amenable to conversion, and not subject to a valid protective order. Commission reserves the right to redact personal information which may infringe on an individual's privacy rights from documents filed in this proceeding.

A procedural schedule has been developed to accommodate this statutory deadline. In the interest of expedition, in light of the 120-day decision schedule, the Commission may request the Postal Service or other participants to submit information or memoranda of law on any appropriate issue. As required by Commission rules, if any motions are filed, responses are due 7 days after any such motion is filed. *See* 39 CFR 3001.21.
