

effectiveness of these principles in the conduct of a cost comparison?

4. In 2010, the Department of Defense established business rules for use in estimating and comparing the full costs of military and civilian manpower and contract support. See Directive-Type Memorandum (DTM) 09-007, "Estimating and Comparing the Full Costs of Civilian and Military Manpower and Contract Support," available at <http://www.dtic.mil/whs/directives/corres/pdf/DTM-09-007.pdf>. What, if any, principles might be considered for adoption government-wide?

C. Small Business Considerations

Section 1655 of the NDAA for FY 2013 requires OMB to publish procedures and methodologies to be used by Federal agencies with respect to decisions to convert a function being performed by a small business concern to performance by a Federal employee, including procedures and methodologies for determining which contracts will be studied for potential conversion.

Section 5-3 of Policy Letter 11-01 includes management guidance in connection with small business contracting. Specifically, section 5-3:

- Instructs agencies to place a lower priority on reviewing work performed by small businesses where the work is not inherently governmental and where continued contractor performance does not put the agency at risk of losing control of its mission or operations, especially if the agency has not recently met, or currently is having difficulty meeting, its small business goals;
- encourages agencies to involve their small business advocates if considering the insourcing of work currently being performed by small businesses; and
- instructs agencies that make a management decision to outsource work that is currently being performed by both small and large businesses, to apply the "rule of two" to the work that will continue to be performed by contractors (the rule of two calls for a contract to be set aside for small businesses when at least two small businesses can do the work for a fair market price).

1. What additional factors might be considered, if any, in addition to those identified in Policy Letter 11-01, to determine where it may be appropriate to outsource work that is otherwise suitable for performance by a small business contractor?

2. Section 1655 also requires OMB's guidance to address procedures and methodologies for estimating and comparing costs. If a situation arises

where it is appropriate to consider a cost-based insourcing of work currently being performed by a small business, to what extent, if any, should costing procedures and methodologies differ from those used to evaluate the cost effectiveness of other than small businesses?

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (13-014)]

Notice of Information Collection

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, in its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3506(c)(2)(A)).

DATES: All comments should be submitted within 30 calendar days from the date of this publication.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street NW., Washington, DC 20503, Attention: Desk Officer for the Office of NASA.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Ms. Frances Teel, NASA Clearance Officer, NASA Headquarters, 300 E Street SW., JF000, Washington, DC 20546, Frances.C.Teel@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

In accordance with Executive Order 13506 establishing the White House Council on Women and Girls, the Women@NASA Program was created to provide mentoring opportunities in science, technology, engineering, and math (STEM) disciplines for female students. To support the White House *Educate to Innovate* campaign, the Women@NASA Program was expanded

to offer an equivalent program for young males called NASA Building Outstanding Young Scientists (BOYS). Both programs are designed to engage underrepresented rising 5th-8th grade students in a one-on-one virtual mentoring experience, under parental/adult supervision, one hour per week for a five-week period. Participants will be selected from a diverse set of geographical locations across the USA.

This clearance request pertains to the collection of information associated with the administration of electronic application forms, parental consent forms, and pre and post parent/student surveys. Surveys are designed to gauge participant interest in STEM subjects before and after the virtual mentoring experience, measure the program impact, access the effectiveness of the virtual mentoring approach and identify opportunities for improvement.

II. Method of Collection

Electronic.

III. Data

Title: NASA Girls and Boys Virtual Mentoring Program.

OMB Number: 2700-XXXX.

Type of review: New Information Collection.

Affected Public: Individuals or households.

Estimated Number of Respondents: 4,800.

Estimated Time Per Response: Variable.

Estimated Total Annual Burden Hours: 2,600.

Estimated Total Annual Cost: \$170,000.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection.

They will also become a matter of public record.

Frances Teel,
NASA PRA Clearance Officer.

Information Collection Notice/NASA Great Moonbuggy Race

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: NASA Information Collection Notice; Correction.

Federal Register Citation of Previous Announcement: 76 FR 23339, Document Number 2013-01648, Notice Number 12-004, dated January 28, 2013.

SUMMARY: The National Aeronautics and Space Administration published a notice in the **Federal Register** of January 28, 2013, inviting the general public and other Federal agencies to comment on a proposed information collection; the NASA Great Moonbuggy Race, as required by the Paperwork Reduction Act of 1995.

Correction: In Section III Data, the Estimated Total Annual Burden Hours is 118.

FOR FURTHER INFORMATION CONTACT: Ms. Frances Teel, NASA Clearance Officer, National Aeronautics and Space Administration, Washington, DC 20546, (202) 358-2225.

SUPPLEMENTARY INFORMATION: This information collection supports the President's initiative to create opportunities to advance science, technology, engineering, and mathematics (STEM) education. The Great Moonbuggy race is a vehicular engineering experience that targets high school and college students and connects classroom training to tangible activities that enable practical application of STEM disciplines, cultivates innovative thinking, and embraces teamwork. This event is inspired by the original lunar rover that piloted across the Moon's surface in the early 1970's. Participating students will design a vehicle that addresses a series of engineering problems similar to problems faced by the original Moonbuggy. Comments are invited on (1) whether the proposed collection of information is necessary for the proper performance of the functions at NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the

burden (including hours and cost; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents; including automated collection techniques or the use of other information technology.

Frances Teel,
PRA Clearance Officer, National Aeronautics and Space Administration.
