### Petition For Exemption

**Docket No.:** FAA-2012-0706.

**Petitioner:** The Boeing Company.

**Section of 14 CFR Affected:**

§ 25.981(a)(3) at Amendment 25-64.

**Description of Relief Sought:**

Exemption from the requirements of fuel-tank structural lightning protection for the fuel tanks on Boeing Model 767-2C airplanes. This is a correction to a prior summary notice, published in the **Federal Register** on October 30, 2012 (77 FR 65763), that incorrectly specified 747-8 airplanes.

### Federal Highway Administration

[Docket No. FHWA-2013-0003]

#### Agency Information Collection

#### Activities: Request for Comments for a New Information Collection

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice and request for comments.

**SUMMARY:** The FHWA invites public comments about our intention to request

the Office of Management and Budget's (OMB) approval for a new information collection, which is summarized below under **SUPPLEMENTARY INFORMATION**. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

**DATES:** Please submit comments by April 16, 2013.

**ADDRESSES:** You may submit comments identified by DOT Docket ID 2013-0003 by any of the following methods:

**Web Site:** For access to the docket to read background documents or comments received go to the Federal eRulemaking Portal: Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

**Fax:** 1-202-493-2251.

**Mail:** Docket Management Facility, U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590-0001.

**Hand Delivery or Courier:** U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:**

Shane D. Boone, 202-493-3064, Nondestructive Evaluation Research Program, Federal Highway Administration, Department of Transportation, 6300 Georgetown Pike, McLean, VA 22101. Office hours are from 8 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

**SUPPLEMENTARY INFORMATION:**

**Title:** Non-Destructive Inspection Protocol for Reinforced Concrete Highway Barriers and Bridge Railings.

**Background:** Highway barriers and bridge railings serve to prevent errant vehicles from departing the travelway at grade separations. Most bridge railings are made of reinforced concrete. Despite the important role that they play in maintaining safety and their ubiquitous nature, barrier inspection rarely moves beyond visual inspection. In August of 2008, tractor-trailer dislodged a section of barrier on the William Preston Lane, Jr. Memorial Bridge. Portions of the displaced barrier separated and the tractor-trailer fatally departed the bridge. Investigations following the accident identified significant corrosion of the anchor bolts attaching the bridge railing to the bridge deck.

As a result of the information gathered during its investigation of the accident, the National Transportation Safety Board (NTSB) made recommendations to the Federal Highway Administration concerning

Non-Destructive Evaluation of concrete bridge railings. One of these recommendations (H-10-18) is as follows:

Expand the research and development of nondestructive evaluation technologies to develop bridge inspection methods that augment visual inspections; offer reliable measurement techniques; and are practical, both in terms of time and cost, for field inspection work; and promote the use of these technologies by bridge owners.

The barrier on the Preston Lane, Jr. Memorial Bridge was unique in that the anchor bolts connecting the barrier to the deck were exposed. This exposure allowed inspection of the remaining anchor bolts directly using ultrasonic testing. In contrast, most barriers have configurations where the steel anchorage is completely embedded in the deck and barrier. Most reinforced concrete barriers are anchored to the deck of a bridge or retaining wall using reinforcing steel protruding from the main structure or by anchored bars or bolts during retrofits. Corrosion of steel bars or bolts can weaken this attachment and reduce the capacity of the barrier. The most direct damage resulting from corrosion is the reduction of steel diameter and cross-sectional area. Steel corrosion in concrete is caused primarily by two reasons: chloride induced corrosion and carbonation induced corrosion. Barriers are generally located at or very near the gutter-line of a roadway and may have significant long-term exposure to corrosive deicing materials.

It is beyond the capacity of visual inspection to identify and evaluate concrete voids and corrosion of anchorage mechanisms embedded in concrete. A literature review revealed that some promising research has been done using NDE methods to evaluate reinforced concrete and the embedded steel reinforcement.

Effective corrosion detection methods are just one piece of the barrier and railing maintenance puzzle. Identification of when to use advanced NDE tools as well as to what level the capacity is likely impacted by the measured deterioration will be examined as a part of this project. In order to most effectively investigate the correct barrier and railing designs, it was noted that input from the state DOTs was required. Thus, a survey to determine what protocols for design, fabrication, installation, and inspection was created and should be disseminated to the 50 state DOTs and also to the DC and Puerto Rico DOTs.

**Respondents:** All 50 state DOTs and also DC and Puerto Rico DOTs. 52 total.  
**Frequency:** Once.

*Estimated Average Burden per Response:* Approximately 2 hours to collect the necessary information and 1 hour to fill out the survey.

*Estimated Total Annual Burden Hours:* Approximately 156 hours.

*Public Comments Invited:* You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

**Authority:** The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: February 11, 2013.

**Michael Howell,**

*Information Collection Officer.*

## DEPARTMENT OF TRANSPORTATION

### Federal Highway Administration

#### Notice of Final Federal Agency Actions on Proposed Highway in California

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice of Limitation on Claims for Judicial Review of Actions by the California Department of Transportation (Caltrans), pursuant to 23 U.S.C. 327.

**SUMMARY:** The FHWA, on behalf of Caltrans, is issuing this notice to announce actions taken by Caltrans, that are final within the meaning of 23 U.S.C. § 139(l)(1). The actions relate to a proposed highway project on the West Mission Bay Drive crossing of the San Diego River flood control channel between West Mission Bay Drive/Sea World Drive intersection and the Sports Arena Boulevard/I-8 intersection in the County of San Diego, State of California. Those actions grant licenses, permits, and approvals for the project.

**DATES:** By this notice, the FHWA, on behalf of Caltrans, is advising the public of final agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before July 15, 2013. If the Federal law

that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

**FOR FURTHER INFORMATION CONTACT:** For Caltrans: Kevin Hovey, Senior Environmental Planner, Caltrans, 4050 Taylor Street, San Diego, CA 92110, 7 a.m.–3 p.m., 619-688-0240, [Kevin\\_Hovey@dot.ca.gov](mailto:Kevin_Hovey@dot.ca.gov).

**SUPPLEMENTARY INFORMATION:** Effective July 1, 2007, the Federal Highway Administration (FHWA) assigned, and the California Department of Transportation (Caltrans) assumed, environmental responsibilities for this project pursuant to 23 U.S.C. 327. Notice is hereby given that the Caltrans, has taken final agency actions subject to 23 U.S.C. 139(l)(1) by issuing licenses, permits, and approvals for the following highway project in the State of California: Improve the West Mission Bay Drive Bridge by removing the existing four-lane bridge and replacing it with two, new, three-lane, parallel bridge structures. The total length of the new bridge will be approximately 1,300 feet. The project is located within the City of San Diego and spans the San Diego River flood control channel between West Mission Bay Drive/Sea World Drive intersection and the Sports Arena Boulevard/I-8 intersection. The federal aide project number is BHLS-5004(049). The actions by the Federal agency, and the laws under which such actions were taken, are described in the Final Environmental Assessment (FEA) for the project, approved on 2/8/13, in the FHWA Finding of No Significant Impact (FONSI) issued on 2/8/13, and in other documents in the FHWA project records. The FEA, FONSI, and other project records are available by contacting Caltrans at the addresses provided above. This notice applies to all Federal agency decisions as of the issuance date of this notice and all laws under which such actions were taken, including but not limited to

1. Council on Environmental Quality Regulations
2. National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4321 et seq.
3. Federal-Aid Highway Act of 1970, 23 U.S.C 109
4. MAP-21, the Moving Ahead for Progress in the 21st Century Act (Pub. L. 112-141)
5. Clean Air Act Amendments of 1990 (CAAA)
6. Clean Water Act of 1977 and 1987
7. Federal Water Pollution Control Act of 1972 (see Clean Water Act of 1977 & 1987)
