SUPPLEMENTARY INFORMATION:

Title: Organizational Information.

OMB Number: 0524–0026.

Expiration Date of Current Approval: April 30, 2013.

Type of Request: Intent to extend a currently approved information collection for three years.

Abstract: NIFA has primary responsibility for providing linkages between the Federal and State components of a broad-based, national agricultural research, extension, and education system. Focused on national issues, its purpose is to represent the Secretary of Agriculture and carry out the intent of Congress by administering formula and grant funds appropriated for agricultural research, extension, and education. Before awards can be made, certain information is required from applicants to effectively assess the potential recipient's capacity to manage Federal funds.

Need for the Information: Form NIFA–666 “Organizational Information”: Enables NIFA to determine that applicants recommended for awards will be responsible recipients of Federal funds. The information pertains to organizational management and financial matters of the potential grantee. This form and the documents which the applicant attaches to it provide NIFA with information such as the legal name of grantee, certification that the organization has the legal authority to accept Federal funding, identification and signatures of the key officials of the organization, the organization's practices in regard to compensation rates and benefits of employees, insurance for equipment, subcontracting with other organizations, etc., as well as the financial condition of the organization and certification that the organization is not delinquent on Federal taxes. All of this information is considered by NIFA prior to award to determine whether the grantee is both managerially and fiscally responsible. This information is submitted to NIFA on a one-time basis and updated accordingly. If sufficient changes occur

within the organization, the grantee submits revised information.

Estimate of the Burden: NIFA estimates the number of responses for the Form NIFA–666 will be 150 with an estimated response time of 6.3 hours per form, representing a total annual burden of 945 hours for this form. These estimates are based on a survey of grantees that were approved for grant awards.

They were asked to give an estimate of the time it took them to complete each form. This estimate was to include such things as: (1) Reviewing the instructions; (2) searching existing data sources; (3) gathering and maintaining the data needed; and (4) actual completion of the forms. The average time it took each respondent was calculated from their responses.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have a practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Done at Washington, DC, this 22nd day of February 2013.

Catherine E. Woteki,

Under Secretary, REE, Chief Scientist, USDA.

Foreign-Trade Zones Board

[B–16–2013]

Foreign-Trade Zone 124—Gramercy, LA; Application for Reorganization (Expansion of Service Area) Under Alternative Site Framework

An application has been submitted to the Foreign-Trade Zones (FTZ) Board (the Board) by the Port of South Louisiana, grantee of Foreign-Trade Zone 124, requesting authority to reorganize the zone to expand its service area under the alternative site framework (ASF) adopted by the Board (15 CFR 400.2(c)). The ASF is an option

for grantees for the establishment or reorganization of zones and can permit significantly greater flexibility in the designation of new subzones or “usage-driven” FTZ sites for operators/users located within a grantee’s “service area” in the context of the Board’s standard 2,000-acre activation limit for a zone. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u) and the regulations of the Board (15 CFR part 400). It was formally docketed on February 21, 2013.

FTZ 124 was approved by the Board on December 20, 1985 (Board Order 319, 50 FR 53351, December 31, 1985), and was reorganized under the ASF on January 31, 2012 (Board Order 1814, 77 FR 6059, February 7, 2012). The zone currently has a service area that includes St. Charles, St. John the Baptist, St. James, La Fourche and St. Mary Parishes, Louisiana.

The applicant is now requesting authority to expand the service area of the zone to include Tangipahoa Parish, as described in the application. If approved, the grantee would be able to serve sites throughout the expanded service area based on companies’ needs for FTZ designation. The proposed expanded service area is adjacent to the Gramercy Customs and Border Protection port of entry.

In accordance with the Board’s regulations, Camille Evans of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the Board.

Public comment is invited from interested parties. Submissions shall be addressed to the Board’s Executive Secretary at the address below. The closing period for their receipt is April 29, 2013. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to May 13, 2013.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230–0002, and in the “Reading Room” section of the Board’s Web site, which is accessible via www.trade.gov/ftz. For further information, contact Camille Evans at Camille.Evans@trade.gov or (202) 482–2350.

Dated: February 21, 2013.

Andrew McGilvray,
Executive Secretary.

Silicon Metal From the People’s Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2011–2012

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* February 27, 2013.

SUMMARY: The Department of Commerce (“Department”) is conducting an administrative review of the antidumping duty order on silicon metal from the People’s Republic of China (“PRC”) for the period of review (“POR”) June 1, 2011, through May 31, 2012. This review covers one PRC company, Shanghai Jinneng International Trade Co., Ltd. (“Shanghai Jinneng”).¹ The Department preliminarily finds that Shanghai Jinneng did not have reviewable transactions during the POR. We intend to issue the final results no later than 120 days from the date of publication of this notice, pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the “Act”).

FOR FURTHER INFORMATION CONTACT: Lori Apodaca, AD/CVD Operations, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–4551.

SUPPLEMENTARY INFORMATION:

Background

On June 1, 2012, the Department published a notice of an opportunity to request an administrative review of the antidumping duty order on silicon metal from the PRC.² On June 29, 2012, Globe Metallurgical Inc. (“Petitioner”) requested a review of Shanghai Jinneng.³ On July 31, 2012, the

Department initiated the review of Shanghai Jinneng.⁴ Shanghai Jinneng certified that the company had no shipments of subject merchandise to the United States during the POR on August 9, 2012.⁵ On October 18, 2012, the Department notified U.S. Customs and Border Protection (“CBP”) of the company claiming no shipments and requested that if CBP has information contradicting the claim, it provide such information.⁶ On November 9, 2012, the Department notified parties that the results of the CBP query indicated that Shanghai Jinneng had not shipped subject merchandise during the POR.⁷

As explained in the memorandum from the Assistant Secretary for Import Administration, the Department has exercised its discretion to toll deadlines for the duration of the closure of the Federal Government from October 29 through October 30, 2012.⁸ Thus, all deadlines in this segment of the proceeding have been extended by two days. The revised deadline for the preliminary results of this review is now March 4, 2013.

Scope of the Order

Imports covered by the order are shipments of silicon metal containing at least 96.00 but less than 99.99 percent of silicon by weight. Also covered by the order is silicon metal from the PRC containing between 89.00 and 96.00 percent silicon by weight but which contain a higher aluminum content than the silicon metal containing at least 96.00 percent but less than 99.99 percent silicon by weight. Silicon metal is currently provided for under subheadings 2804.69.10 and 2804.69.50 of the Harmonized Tariff Schedule of the United States (“HTSUS”) as a chemical product, but is commonly referred to as a metal. Semiconductor-grade silicon (silicon metal containing by weight not less than 99.99 percent of silicon and provided for in subheading 2804.61.00 of the HTSUS) is not subject to the order.
