#### Approval and Promulgation of Air Quality Implementation Plans; Maryland; Deferral for CO<sub>2</sub> Emissions From Bioenergy and Other Biogenic Sources Under the Prevention of Significant Deterioration Program

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** EPA is approving a State Implementation Plan (SIP) revision submitted by the Maryland Department of the Environment (MDE) on April 4, 2012. This revision defers until July 21, 2014 the application of the Prevention of Significant Deterioration (PSD) permitting requirements to biogenic carbon dioxide (CO<sub>2</sub>) emissions from bioenergy and other biogenic stationary sources in the State of Maryland. This action is being taken under the Clean Air Act (CAA).

**DATES:** This final rule is effective on April 1, 2013.

**ADDRESSES:** EPA has established a docket for this action under Docket ID Number EPA-R03-OAR-2012-0305. All documents in the docket are listed in the [www.regulations.gov](http://www.regulations.gov) Web site. Although listed in the electronic docket, some information is not publicly available, i.e., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through [www.regulations.gov](http://www.regulations.gov) or in hard copy for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the Maryland Department of the Environment, 1800 Washington Boulevard, Suite 705, Baltimore, Maryland 21230.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

On September 7, 2012 (77 FR 55171), EPA published a notice of proposed rulemaking (NPR) for the State of

Maryland. The NPR proposed approval of a revision to the Maryland SIP which would defer until July 21, 2014 the application of PSD permitting requirements to biogenic CO<sub>2</sub> emissions from bioenergy and other biogenic stationary sources in Maryland. The formal SIP revision (#12-02) was submitted by MDE on April 4, 2012. During the public comment period, EPA received a request from a commenter to extend the comment period. In response to that request, EPA re-opened the public comment period for an additional 30 days under additional notice on November 16, 2012 (77 FR 68721).

##### II. Summary of SIP Revision

EPA incorporated the biomass deferral into the Code of Federal Regulations (CFR) governing state programs and into the Federal PSD program by amending the definition of “subject to regulation” under 40 CFR 51.166 and 52.21 respectively. Maryland implements its PSD program by incorporating section 52.21 by reference. This incorporation references a date specific version of the CFR and is updated periodically and submitted to EPA for approval into the SIP. In order to adopt the Biomass Deferral, Maryland has revised COMAR 26.11.06.14B(1) to incorporate the 2009 version of 40 CFR 52.21 “as amended by” the Tailoring Rule and the Biomass

Deferral. Additionally, the definitions of “PSD source” and “greenhouse gas” at COMAR 26.11.01.01 and 26.11.02.01 respectively have been revised to incorporate the Biomass Deferral.

Other specific requirements of Maryland’s April 4, 2012 submittal and the rationale for EPA’s proposed action are explained in the NPR and will not be restated here. No public comments were received on the NPR, either during the initial comment period, or the additional 30-day comment period.

### III. Final Action

EPA is approving Maryland’s April 4, 2012 SIP submittal as a revision to the Maryland SIP.

### IV. Statutory and Executive Order Reviews

#### A. General Requirements

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

#### B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

#### C. Petitions for Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by April 29, 2013. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action pertaining to the regulation of biogenic GHGs in Maryland may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

BILLING CODE 6560-50-P

**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Part 52****[EPA-R04-OAR-2012-0887; FRL- 9785-5]****Approval and Promulgation of Implementation Plans; Tennessee; Revisions to the Knox County Portion of the Tennessee State Implementation Plan****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Direct final rule.

**SUMMARY:** EPA is taking direct final action to approve revisions to the Knox County portion of the Tennessee State Implementation Plan (SIP), submitted by the State of Tennessee, through the Tennessee Department of Environment and Conservation (TDEC) on August 19, 2009, August 22, 2012, and October 12, 2012. The SIP submittals include changes to Knox County Air Quality Management Regulations concerning open burning, permits and regulation of volatile organic compounds (VOCs). TDEC considers Knox County's SIP revisions to be as or more stringent than the Tennessee SIP requirements. EPA is approving the Knox County SIP revisions because the State has demonstrated that they are consistent with the Clean Air Act (CAA or Act).

**DATES:** This direct final rule is effective April 29, 2013 without further notice, unless EPA receives adverse comment

by April 1, 2013. If adverse comment is received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** and inform the public that the rule will not take effect.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-R04-OAR-2012-0887, by one of the following methods:

1. *www.regulations.gov*: Follow the on-line instructions for submitting comments.
2. *Email*: R4-RDS@epa.gov.

**Instructions:** Direct your comments to Docket ID No. EPA-R04-OAR-2012-0887. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at *www.regulations.gov*, including any personal information provided, unless the comment includes information

claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit through *www.regulations.gov* or email, information that you consider to be CBI or otherwise protected. The *www.regulations.gov* Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through *www.regulations.gov*, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.
