

SUPPLEMENTARY INFORMATION: In the *Federal Register* of January 14, 2013 (78 FR 2662), the CPSC published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) to announce the agency's intention to seek extension of approval of the collection of information required in the Safety Standard for Cigarette Lighters, 16 CFR part 1210. One comment was received in response to that notice. The commenter stated: "The survey does not have to be done every year" and added that the new cigarette lighters coming into the market cannot be "any different than the ones that have been manufactured for the past 100 years." The testing requirements, as well as the recordkeeping and reporting requirements, are set forth under the standard, 16 CFR part 1210, Subpart B. Before any manufacturer or importer of lighters distributes any lighter in commerce in the United States, new lighters and comparable models of cigarette lighters (called surrogate) must be tested to verify that all such models of lighters are resistant to the operation by children younger than 5 years of age. The burden hours estimates were based on the number of new models (13) and comparable models (132) submitted by manufacturers and importers of lighters to the CPSC in 2012. The Commission announces in this notice that CPSC has submitted to the OMB a request for extension of approval of that collection of information without change.

CPSC staff estimates that the total number of responses will be 145 per year (13 tested + 132 comparisons). The total number of hours consumed for these responses would be 1,826 hours per year, including new model tests (1,170 hours if done in-house), new model recordkeeping (260 hours), and recordkeeping for comparable models (396 hours). The Commission estimates the total cost for firms to test, and prepare, maintain, and submit records to the CPSC in compliance with the lighter regulation would be in the range of \$90,379 to \$278,132, depending upon the test method chosen.

The estimated total cost of this collection to the federal government is \$344,618.

Dated: March 25, 2013.

Todd A. Stevenson,
Secretary, Consumer Product Safety Commission.

BILLING CODE 3810-FF-P

DEPARTMENT OF ENERGY

Bonneville Power Administration

Walla Walla Basin Spring Chinook Hatchery Program

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of intent to prepare an Environmental Impact Statement (EIS) and notice of floodplain and wetlands assessment.

SUMMARY: In accordance with the National Environmental Policy Act (NEPA), BPA intends to prepare an EIS

on its decision whether to fund the Confederated Tribes of the Umatilla Indian Reservation's (CTUIR) proposal to construct and operate a hatchery for spring Chinook salmon in the Walla Walla River basin. The hatchery would expand facilities at the site of the CTUIR's existing Adult Holding and Spawning Facility on the South Fork Walla Walla River near the town of Milton-Freewater in Umatilla County, Oregon, to allow production of up to 500,000 yearling spring Chinook smolts. Project operations would include collection of adult spring Chinook for broodstock at Nursery Bridge Dam downstream of the proposed hatchery, incubation and rearing of juvenile spring Chinook, and release of smolts and adults in tributaries to the Walla Walla River in both Oregon and Washington. Spring Chinook were extirpated from the Walla Walla River basin in the early to mid-1900s. The proposal would augment fish populations available for harvest and aid in establishing a naturally spawning spring Chinook population.

With this Notice of Intent, BPA is initiating the public scoping process for the EIS. BPA is requesting comments about potential environmental impacts that it should consider as it prepares the EIS.

In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements, BPA will prepare a floodplain and wetlands assessment to avoid or minimize potential harm to or within any affected floodplains and wetlands. The assessment will be included in the EIS.

DATES: Written scoping comments are due to the address below no later than April 29, 2013. Comments may also be made at the EIS scoping meetings to be held on Tuesday, April 16, 2013, from 6 p.m. to 8 p.m. at the Milton-Freewater Community Building, 109 NE. 5th, Milton-Freewater, Oregon 97862; and on Wednesday, April 17, 2013, from 6 p.m. to 8 p.m. at the Dayton Elementary School, 302 E. Park, Dayton, Washington 99328. At these meetings, maps and other information about the project will be available, and members of the project team will give a brief overview of the proposal, answer questions, and accept oral and written comments.

Send letters with comments and suggestions on the proposed scope of the Draft EIS, and requests to be placed on the project mailing list, to Bonneville Power Administration, Public Affairs Office—DKE-7, P.O. Box 14428, Portland, OR, 97293-4428, or by fax to
