DEPARTMENT OF ENERGY

[Project No. 14484-000]

Archon Energy 1, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On January 25, 2013, the Archon Energy 1, Inc., filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Kaweah River Drop 1 Hydroelectric Project (Kaweah River Drop 1 or project) to be located on Kaweah River, near the city of Woodlake, Tulare County, California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project has two installation option alternatives; an in-stream method and a short diversion method. The in-stream option would consist of the following: (1) A gated water intake canal; (2) a 70-foot by 55-foot by 35-foot turbine structure enclosing two in-stream VLH turbine generators operating at 500 kilowatts kW; and (3) appurtenant facilities. The short diversion method would consist of the following: (1) a gated water intake canal; (2) a concrete trough diversion channel approximately 30 feet wide and 150 feet in length; (3) a 70-foot by 55-foot by 35-foot turbine structure enclosing four screw turbine generators operating at 250 kW; and (4) appurtenant facilities. The proposed project would have a total installed capacity of 1 megawatt and generate an estimated average annual energy production of 5,000 megawatt-hours by diverting existing stream flow into the diversion canal.
