

various interests concerned with the management of the public lands. The rules governing RACs are found at 43 CFR subpart 1784 and include the following three membership categories:

- Category One—Holders of Federal grazing permits and representatives of organizations associated with energy and mineral development, timber industry, transportation or rights-of-way, developed outdoor recreation, off-highway vehicle use, and commercial recreation;
- Category Two—Representatives of nationally or regionally recognized environmental organizations, archaeological and historic organizations, dispersed recreation activities, and wild horse and burro organizations; and
- Category Three—Representatives of State, county, or local elected office employees of a State agency responsible for management of natural resources, representatives of Indian tribes within or adjacent to the area for which the council is organized, representatives of academia who are employed in natural sciences, and the public-at-large.

Individuals may nominate themselves or others. Nominees must be Utah residents. The BLM will evaluate nominees based on their education, training, experience, and knowledge of the geographical area of the RAC. Nominees should demonstrate a commitment to collaborative resource decision-making. The Obama Administration prohibits individuals who are currently federally registered lobbyists from being appointed or re-appointed to FACA and non-FACA boards, committees, or councils.

The following must accompany all nominations:

- Letters of reference from represented interests or organizations;
- A completed RAC application; and
- Any other information that addresses the nominee's qualifications.

Simultaneous with this notice, BLM Utah will issue a press release providing additional information for submitting nominations and specifics about the categories of member positions available.

Jenna Whitlock,

Associate State Director.

Notice of Approval of Record of Decision for Plan To Protect and Restore Native Ecosystems by Managing Non-Native Ungulates, Hawaii Volcanoes National Park, Hawaii

AGENCY: National Park Service, Interior.

ACTION: Notice of Record of Decision.

SUMMARY: Pursuant to § 102(2)(C) of the National Environmental Policy Act of 1969 and the regulations promulgated by the Council on Environmental Quality (40 CFR Part 1505), the Department of the Interior, National Park Service, has prepared the Record of Decision (ROD) for the Final Environmental Impact Statement (Final EIS) for the subject non-native ungulates management plan. The ROD includes a statement of the decision made, a summary of other alternatives considered, discussion of the environmental consequences and measures to minimize harm, the basis for the decision, and a summary of public and agency involvement in the environmental decision-making process. The requisite no-action "wait period" was initiated on January 25, 2013, with the Environmental Protection Agency's **Federal Register** notification of the filing and public release of the Final EIS.

Decision: Hawaii Volcanoes National Park has selected and will implement Alternative D (identified as the agency preferred alternative in the Final EIS). Alternative D provides for a comprehensive, park-wide management plan that will ensure maximum flexibility to manage non-native ungulates. The selected actions include a systematic progression of management phases, monitoring, and the considered use of management tools, with a defined population objective of zero non-native ungulates. In addition to fencing, management tools will rely primarily on lethal methods, but non-lethal methods such as relocation may be considered. Qualified volunteers may be used to assist with certain non-native ungulate management activities. In addition to Alternative D, a no-action alternative and three other alternatives were identified and analyzed in the Final EIS (available on-line at <http://parkplanning.nps.gov/havo>). The full range of foreseeable environmental consequences was assessed, and

appropriate mitigation measures identified.

Interested parties desiring to review the Record of Decision may obtain a copy by contacting the Superintendent, Hawaii Volcanoes National Park, P.O. Box 52, Hawaii National Park, HI 96718-0052 or via telephone request at (808) 985-6098.

Dated: April 1, 2013.

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Proposed Information Collection; Cleanup Program for Accumulations of Coal and Float Coal Dusts, Loose Coal, and Other Combustibles

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA). This program helps to assure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine

Safety and Health Administration is soliciting comments concerning the proposed information collection for developing and updating a cleanup program for accumulations of coal and float coal dusts, loose coal, and other combustibles in underground coal mines.

DATES: All comments must be postmarked or received by midnight Eastern Standard Time on July 15, 2013.

ADDRESSES: Comments concerning the information collection requirements of this notice must be clearly identified with “OMB 1219-NEW” and sent to the Mine Safety and Health Administration (MSHA) by any of the methods listed below.

- **Federal E-Rulemaking Portal:** <http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number [MSHA-2013-0017].

- **Regular Mail or Hand Delivery:** MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, VA 22209-3939.

FOR FURTHER INFORMATION CONTACT: Sheila McConnell, Deputy Director, Office of Standards, Regulations, and Variances, MSHA, at mcconnell.sheila.a@dol.gov (email); 202-693-9440 (voice); or 202-693-9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

A program for regular cleanup and removal of accumulations of coal and float coal dusts, loose coal, and other combustibles is essential to protect miners from explosions. Effective and frequent rock dust application is necessary to protect miners from the potential of a float coal dust explosion or, if one occurs, to reduce its propagation. Rock dust standards were published (35 FR 17097, November 20, 1970) as part of a final rule that implemented requirements contained in the 1969 Federal Coal Mine Health and Safety Act.

Section 75.400-2 requires that mine operators establish and maintain a “program for regular cleanup and removal of accumulations of coal and float coal dusts, loose coal, and other combustibles.” In addition, the cleanup program must be available to the Secretary or authorized representative (AR).

On September 23, 2010, MSHA issued an emergency temporary standard (ETS) on the maintenance of incombustible content of rock dust. The ETS, which became a final rule on June 21, 2011, increased the total incombustible
