

section 337. The ALJ concluded that an industry exists within the United States that practices the '896, '094, '571, '596 and '712 patents as required by 19 U.S.C. 1337(a)(2).

On May 7, 2012, Microsoft filed a petition for review of the ID. That same day, Motorola filed a petition and contingent petition for review. On May 15, 2012, the parties filed responses to the various petitions and contingent petition for review.

On June 22, 2012, Microsoft filed a motion for partial termination of the investigation. Specifically, Microsoft moved for termination of the '094 and '596 patents from the investigation based on facts alleged in the motion.

On June 29, 2012, the Commission determined to review the final ID in its entirety and remanded the investigation to the ALJ to apply the Commission's opinion in *Certain Electronic Devices with Image Processing Systems, Components Thereof, and Associated Software*, Inv. No. 337-TA-724, Comm'n Op. (Dec. 21, 2011) and rule on Microsoft's motion for partial termination of the investigation filed June 22, 2012. 77 FR 40082 (July 6, 2012).

On November 6, 2012, the ALJ issued an ID (Order No. 48) granting Motorola's motion to terminate the investigation as to the '712 and '571 patents. On January 11, 2013, the ALJ issued an ID (Order No. 52) granting Motorola's motion to terminate the investigation as to the '596 and '094 patents. The Commission determined not to review those orders. Thus, only the '896 patent remains in this investigation.

On March 22, 2013, the ALJ issued his RID, finding no violation of section 337 with respect to the asserted claims of the '896 patent.

On April 8, 2013, Motorola filed a petition for review of the RID, challenging the ALJ's finding that Microsoft is not liable for indirectly infringing the asserted claims of the '896 patent. That same day, Microsoft filed a contingent petition for review. In its contingent petition for review, Microsoft incorporates its petition for review of the original ID with respect to the '896 patent. On April 16, 2013, the parties filed responses to the petitions for review.

Having examined the record of this investigation, including the ALJ's final ID and RID, the petitions for review, and the responses thereto, the Commission has determined not to review the RID. The Commission affirms the ID issued on April 23, 2012, with respect to the '896 patent as modified by the RID. In that connection, the Commission adopts the ALJ's findings in the original ID that

(1) Motorola waived its indirect infringement argument and (2) Motorola failed to establish indirect infringement on the merits. ID at 67–68. The Commission also adopts the ALJ's amplified findings in the RID that Motorola failed to establish indirect infringement on the merits during the remand proceeding. Thus there is no violation of section 337 with respect to the '896 patent. The investigation is terminated.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in sections 210.42–46 and 210.50 of the Commission's Rules of Practice and Procedure (19 CFR 210.42–46 and 210.50).

Issued: May 23, 2013.

By order of the Commission.

William R. Bishop,

Supervisory Hearings and Information Officer.

BILLING CODE 7020–02–P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Proposed Collection; Comment Request; Certificate of Electrical Training

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: 60-Day Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to assure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

DATES: All comments must be postmarked or received by midnight Eastern Standard Time on July 30, 2013.

ADDRESSES: Comments concerning the information collection requirements of this notice must be clearly identified with “OMB 1219–0001” and sent to the Mine Safety and Health Administration (MSHA). Comments may be sent by any of the methods listed below.

• **Federal E-Rulemaking Portal:** <http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number [MSHA–2013–0012].

• **Regular Mail or Hand Delivery:** MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, 21st floor, Room 2350, Arlington, VA 22209–3939.

FOR FURTHER INFORMATION CONTACT: Sheila McConnell, Deputy Director, Office of Standards, Regulations, and Variances, MSHA, at McConnell.Sheila.A@dol.gov (email); 202–693–9440 (voice); or 202–693–9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 101(a) of the Federal Mine Safety and Health Act of 1977 (the Mine Act) states that the Secretary shall by rule in accordance with procedures set forth in this section and in accordance with section 553 of title 5, United States Code (without regard to any reference in such section to sections 556 and 557 of such title), develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal or other mines. Under section 103(a)(2) authorized representatives of the Secretary or the Secretary of Health and Human Services shall make frequent inspections and investigations in coal or other mines each year for the purpose of gathering information with respect to mandatory health or safety standards.

Under section 305(g) of the Mine Act, all electric equipment shall be frequently examined, tested, and properly maintained by a qualified person to assure safe operating conditions.

Title 30 CFR sections 75.153 and 77.103 define a person as qualified to perform electrical work if he has been qualified as a coal mine electrician by a State that has a coal mine electrical qualification program approved by MSHA; or if he has at least one year of experience performing electrical work underground in a coal mine, in the surface work area of an underground coal mine, in a surface coal mine, in a noncoal mine, in the mine equipment manufacturing industry, or in any other industry using or manufacturing similar equipment, and has satisfactorily completed a coal mine electrical training program approved by MSHA or has attained a satisfactory grade on a series of five written tests approved by MSHA.

II. Desired Focus of Comments

The Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to the Certificate of Electrical Training and the applications both for MSHA-approved tests and for State tests administered as a part of a MSHA-approved State program. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
- Evaluate the accuracy of the MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Address the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submissions of responses), to minimize the burden of the collection of information on those who are to respond.

OMB clearance requests are available on MSHA's Web site at <http://www.msha.gov> under "Federal Register Documents" on the right side of the screen by selecting "New and Existing Information Collections and Supporting Statements". The document will be available on MSHA's Web site for 60 days after the publication date of this notice, and on regulations.gov. Comments submitted in writing or in electronic form will be made available for public inspection on regulations.gov. Because comments will not be edited to remove any identifying information, MSHA cautions the commenter against including any information in the submission that should not be publicly disclosed.

The public also may examine publicly available documents at MSHA, Office of Standards, Regulations, and Variances, 1100 Wilson Boulevard, Room 2350, Arlington, VA 22209-3939.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

III. Current Actions

The information obtained from applicants will be used to determine compliance with 30 CFR Part 75 and 30 CFR Part 77.

MSHA has updated the number of respondents and responses, as well as the total burden hours and burden costs supporting this information collection request.

MSHA does not intend to publish the results from this information collection and is not seeking approval to either display or not display the expiration date for the OMB approval of this information collection.

There are no certification exceptions identified with this information collection and the collection of this information does not employ statistical methods.

Summary

Type of Review: Revision of a currently approved information collection.

Agency: Mine Safety and Health Administration.

Title: Certificate of Electrical Training.

OMB Number: 1219-0001.

Affected Public: Business or other for-profit.

Cite/Reference/Form/etc: 30 CFR 75.153 and 77.103.

Total Number of Respondents: 273.

Frequency: Various.

Total Number of Responses: 2,350.

Total Burden Hours: 996 hours.

Total Annual Respondent or Recordkeeper Cost Burden: \$731.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Authority: 44 U.S.C. 3506(c)(2)(A).

Dated: May 28th, 2013.

George F. Triebsch,
Certifying Officer.

BILLING CODE 4510-43-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Notice of Information Collection

AGENCY: National Aeronautics and Space Administration (NASA).

NOTICE: (13-062).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction

Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3506(c)(2)(A)).

DATES: All comments should be submitted within 60 calendar days from the date of this publication.

ADDRESSES: All comments should be addressed to Ms. Frances Teel, JF000, National Aeronautics and Space Administration, Washington, DC 20546-0001.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Frances Teel, NASA Clearance Officer, NASA Headquarters, 300 E Street SW., JF000, Washington, DC 20546, Frances.C.Teel@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This collection of information supports both the White House initiative to create opportunities to advance science, technology, engineering, and mathematics (STEM) education, and the President's Council of Advisors on Science and Technology (PCAST) *Engage to Excel* goals to improve STEM education during the first two years of college. The Department of Commerce estimates that STEM occupations will grow 1.7 times faster than non-STEM occupations between 2008-2018. As demographics in the U.S. continue to shift towards a more diverse populous, there is a need to attract underserved and underrepresented students to STEM degree fields. Traditionally, underrepresented groups in STEM include females, African-American, Hispanics, Native Americans, Pacific Islanders (natives of the Philippines, Guam, American Samoa, or Micronesia), and disabled students.

The NASA Glenn Research Center (GRC) Shadowing and Exploring Project is a career exploration initiative targeting students in the 14-20 age group. It connects classroom training to tangible activities that enable practical application of STEM disciplines, and cultivates innovative thinking. The program is designed to increase awareness of STEM career paths and encourage both the pursuit and retention of STEM majors during the initial years of college. The program incorporates GRC scientists, engineers, technicians, and administrative professionals to serve as mentors to participating students. The NASA Glenn Research Center Shadowing and Exploring Project Participation is voluntary and registration is required to participate.
