

options, expiration processing should be a single operational process and should run on Friday night for all Standard Expiration Contracts.

In connection with moving from Saturday to Friday night processing and expiration, OCC reviewed other aspects of its business to confirm that there would be no unintended consequences, and concluded that there would be none. For example, OCC believes the proposed changes do not affect OCC's liquidity forecasting procedures, nor do they impact OCC's liquidity needs, since OCC's liquidity forecasts and liquidity needs are driven by settlement obligations, which occur on the same day (T+3) irrespective of the move to Friday night processing and expiration dates.

According to OCC, industry groups, clearing members, and options exchanges have been active participants in planning for the transition to the Friday expiration. OCC has obtained assurances from all options industry participants that they will be ready to move to Friday night expiration processing by June 2013.

Rule Changes

In order to implement the change to Friday expiration processing and eventual transition to Friday expiration for all Standard Expiration Contracts, OCC is amending the definition of "expiration date" in Article I and certain other articles of the By-Laws. As amended, the applicability of the definition is no longer limited to stock options, and the definition of "expiration date" in certain articles of the By-Laws therefore is deleted in reliance on the Article I definition. OCC is also amending Rule 805, and all rules supplementing or replacing Rule 805, to allow for Friday expiration processing during the transition to Friday expiration. OCC is also amending section 18 of Article VI of the By-Laws to align procedures for delays in producing Expiration Exercise Reports and submission of exercise instructions with the amended expiration exercise procedures in Rule 805. OCC is amending Rule 801 to modify the prohibition against exercising an American-style option contract on the business day prior to its expiration date, because this prohibition is necessary only for options expiring on a Saturday and to remove clearing members' ability to revoke or modify exercise notices in order to accommodate the compressed Friday expiration processing expiration schedule.

Finally, OCC is amending Rules 801 and 805 to allow certain determinations to be made by high-level officers of

OCC, rather than the Board of Directors, in order to provide OCC with greater operational flexibility in processing exercise requests received after Friday expiration processing is complete but before the Saturday contract expiration time, and to replace various references to the expiration date of options with reference to the procedures of Rule 805.

Under the proposed change, OCC is preserving the ability of the options exchanges to designate (or, in the case of flexibly structured options, permit clearing members to designate) non-standard expiration dates for options, or classes or series of options, so long as the designated expiration date is not a date OCC has specified as ineligible to be an expiration date.

III. Discussion

Section 19(b)(2)(C) of the Act¹¹ directs the Commission to approve a proposed rule change of a self-regulatory organization if it finds that such proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to such organization. Section 17A(b)(3)(F) of the Act¹² requires, among other things, that the rules of a clearing agency are designed to promote the prompt and accurate clearance and settlement of securities transactions and foster cooperation and coordination with persons engaged in the clearance and settlement of securities transactions.

By changing the expiration date for most Standard Expiration Contracts to the third Friday of the expiration month and moving the expiration exercise procedures to Friday for all Standard Expiration Contracts, the rule change should help to promote the prompt and accurate clearance and settlement of securities transactions as well as foster cooperation and coordination with persons engaged in the clearance and settlement of securities transactions. As mentioned above, the rule change will allow OCC to streamline the expiration process among Standard Expiration, Non-standard Expiration Contracts, quarterly options, and weekly options and also align expiration processing schedules for United States markets with expiration processing schedules for European markets.

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposal is consistent with the requirements of the Act and in particular with the requirements of Section 17A of the

Act¹³ and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁴ that the proposed rule change (File No. SR-OCC-2013-04) be and hereby is *approved*.¹⁵ However, the proposed changes that are the subject of the proposed rule change shall not take effect until all regulatory actions required with respect to the proposed changes are completed.¹⁶

For the Commission by the Division of Trading and Markets, pursuant to delegated authority.¹⁷

FOR FURTHER INFORMATION CONTACT: The Executive Director, Office of Privacy and Disclosure, Office of the General Counsel, as shown above.

SUPPLEMENTARY INFORMATION:

A. General

The Computer Matching and Privacy Protection Act of 1988 (Public Law (Pub. L.) 100-503), amended the Privacy Act (5 U.S.C. 552a) by describing the conditions under which computer matching involving the Federal government could be performed and adding certain protections for persons applying for, and receiving, Federal benefits. Section 7201 of the Omnibus Budget Reconciliation Act of 1990 (Pub. L. 101-508) further amended the Privacy Act regarding protections for such persons.

The Privacy Act, as amended, regulates the use of computer matching by Federal agencies when records in a system of records are matched with other Federal, State, or local government records. It requires Federal agencies involved in computer matching programs to:

(1) Negotiate written agreements with the other agency or agencies participating in the matching programs;

(2) Obtain approval of the matching agreement by the Data Integrity Boards of the participating Federal agencies;

(3) Publish notice of the computer matching program in the **Federal Register**;

(4) Furnish detailed reports about matching programs to Congress and OMB;

(5) Notify applicants and beneficiaries that their records are subject to matching; and

(6) Verify match findings before reducing, suspending, terminating, or denying a person's benefits or payments.
