

acknowledges that further refinements to the listed species assessment will be completed in future revisions and requests public comment on specific areas that will reduce the uncertainties associated with the characterization of risk to listed species identified in the current assessment. The human health risk assessment includes all uses of sulfur, including gas cartridges. The most recent ecological risk assessment includes all uses except gas cartridges. A separate ecological risk assessment for gas cartridge uses was conducted in 2010 and can be found in the sulfur registration review docket.

- **Triflumizole.** The registration review docket for triflumizole (EPA-HQ-OPP-2006-0115) opened in the **Federal Register** issue of March 28, 2007 (72 FR 14548) (FRL-8118-3). Triflumizole is a broad spectrum, imidazole fungicide (group 3) that inhibits ergosterol biosynthesis in fungi. It is registered for use on a variety of agricultural crops, ornamentals in greenhouses/shade houses, interior scapes, and Christmas trees/conifers on nurseries and plantations. It is also registered for use as a pre-plant pineapple seed treatment. The Agency has conducted a human health risk assessment for dietary (food and drinking water), residential and occupational exposure pathways. The Agency has also conducted a quantitative ecological risk assessment, which includes a screening-level listed species assessment. EPA acknowledges that further refinements to the listed species assessment will be completed in future revisions and requests public comment on specific areas that will reduce the uncertainties associated with the characterization of risk to listed species identified in the current assessment.

1. **Other related information.** Additional information on these pesticides is available on the chemical pages for these pesticides in Chemical Search, <http://www.epa.gov/pesticides/chemicalsearch>, and in each chemical's individual docket listed in Table 1. in Unit III. Information on the Agency's registration review program and its implementing regulation is available at [http://www.epa.gov/opsrrd1/registration\\_review](http://www.epa.gov/opsrrd1/registration_review).

2. **Information submission requirements.** Anyone may submit data or information in response to this document. To be considered during a pesticide's registration review, the submitted data or information must meet the following requirements:

- To ensure that EPA will consider data or information submitted, interested persons must submit the data

or information during the comment period. The Agency may, at its discretion, consider data or information submitted at a later date.

- The data or information submitted must be presented in a legible and useable form. For example, an English translation must accompany any material that is not in English and a written transcript must accompany any information submitted as an audiographic or videographic record. Written material may be submitted in paper or electronic form.

- Submitters must clearly identify the source of any submitted data or information.

- Submitters may request the Agency to reconsider data or information that the Agency rejected in a previous review. However, submitters must explain why they believe the Agency should reconsider the data or information in the pesticide's registration review.

As provided in 40 CFR 155.58, the registration review docket for each pesticide case will remain publicly accessible through the duration of the registration review process; that is, until all actions required in the final decision on the registration review case have been completed.

#### List of Subjects

Environmental protection, Acetaminophen, Clofentezine, Fluazinam, Hexythiazox, Pesticides and pests, Quinclorac, Sulfur, Triflumizole.

Dated: June 19, 2013.

#### Integrated Science Assessment for Lead

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of availability.

**SUMMARY:** EPA is announcing the availability of a final document titled, "Integrated Science Assessment for Lead" (EPA/600/R-10/075F). The document was prepared by the National Center for Environmental Assessment (NCEA) within EPA's Office of Research and Development as part of the review of the national ambient air quality standards (NAAQS) for lead (Pb).

**DATES:** The document will be available on or around June 26, 2013.

**ADDRESSES:** The "Integrated Science Assessment for Lead" will be made available primarily through the Internet on the NCEA home page under the Recent Additions and Publications menus at <http://www.epa.gov/ncea>. A limited number of CD-ROM or paper copies will be available. Contact Ms. Marieka Boyd by phone: 919-541-0031; fax: 919-541-5078; or email: [boyd.marieka@epa.gov](mailto:boyd.marieka@epa.gov) to request either of these, and please provide your name, your mailing address, and the document title, "Integrated Science Assessment for Lead" (EPA/600/R-10/075F) to facilitate processing of your request.

**FOR FURTHER INFORMATION CONTACT:** For technical information, contact Dr. Ellen Kirrane, NCEA; telephone: 919-541-1340; facsimile: 919-541-2985; or email: [Kirrane.ellen@epa.gov](mailto:Kirrane.ellen@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### Background

Section 108 (a) of the Clean Air Act directs the Administrator to identify certain pollutants, which among other things, "cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare" and to issue air quality criteria for them. These air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air. . . ." Under section 109 of the Act, EPA is then to establish NAAQS for each pollutant for which EPA has issued criteria. Section 109 (d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. EPA is also to periodically review and, if appropriate, revise the NAAQS, based on the revised air quality criteria.

Pb is one of six "criteria" pollutants for which EPA has established NAAQS. Periodically, EPA reviews the scientific basis for these standards by preparing an Integrated Science Assessment (ISA) (formerly called an Air Quality Criteria Document). The ISA provides a concise review, synthesis, and evaluation of the most policy-relevant science to serve as a scientific foundation for the review of the NAAQS. The Clean Air Scientific Advisory Committee (CASAC), an independent science advisory committee whose review and advisory functions are mandated by Section 109

(d) (2) of the Clean Air Act, is charged (among other things) with independent scientific review of EPA's air quality criteria.

On February 26, 2010 (75 FR 8934), EPA formally initiated its current review of the air quality criteria for Pb, requesting the submission of recent scientific information on specified topics. Soon after, a science policy workshop was held to identify key policy issues and questions to frame the review of the Pb NAAQS (75 FR 20843). Drawing from the workshop discussions, a draft of EPA's "Integrated Review Plan for the National Ambient Air Quality Standards for Lead" (EPA/452/D-11/001) was developed and made available in March 2011 for public comment and was discussed by the CASAC Pb Review Panel (CASAC panel) via a publicly accessible teleconference consultation on May 5, 2011 (76 FR 20347, 76 FR 21346). The final Integrated Review Plan was released in December 2011 (76 FR 76972) and is available at [http://www.epa.gov/ttn/naaqs/standards/pb/s\\_pb\\_2010\\_pd.html](http://www.epa.gov/ttn/naaqs/standards/pb/s_pb_2010_pd.html).

As part of the science assessment phase of the review, EPA held a workshop in December 2010 to discuss, with invited scientific experts, initial draft materials prepared in the development of the ISA (75 FR 69078). The first external review draft ISA for Pb was released on May 6, 2011 (<http://cfpub.epa.gov/ncea/isa/recordisplay.cfm?deid=226323>). The CASAC panel met at a public meeting on July 20, 2011, to review the draft ISA (76 FR 36120). Subsequently, on December 9, 2011, the CASAC provided a consensus letter for their review to the Administrator of the EPA ([http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr\\_activites/D3E2E8488025344D852579610068A8A1/\\$File/EPA-CASAC-12-002-unsigned.pdf](http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/D3E2E8488025344D852579610068A8A1/$File/EPA-CASAC-12-002-unsigned.pdf)). The second external review draft ISA for Pb was released on February 2, 2012 (<http://cfpub.epa.gov/ncea/isa/recordisplay.cfm?deid=235331>). The CASAC panel met at a public meeting on April 10, 2012, to review the draft ISA (77 FR 14783). Subsequently, on July 20, 2012, the CASAC provided a consensus letter for their review to the Administrator of the EPA ([http://yosemite.epa.gov/sab/sabproduct.nsf/13B1FD83815FA11885257A410064E0DC/\\$File/EPA-CASAC-12-005-unsigned.pdf](http://yosemite.epa.gov/sab/sabproduct.nsf/13B1FD83815FA11885257A410064E0DC/$File/EPA-CASAC-12-005-unsigned.pdf)). The third external review draft ISA for Pb was released on November 27, 2012 (<http://cfpub.epa.gov/ncea/isa/recordisplay.cfm?deid=242655>). The CASAC panel met at a public meeting on February 5, 2013, to review the draft

ISA (78 FR 938). Subsequently, on June 4, 2013, the CASAC provided a consensus letter for their review to the Administrator of the EPA ([http://yosemite.epa.gov/sab/sabproduct.nsf/0/39A3C8177D869EA085257B80006C7684/\\$File/EPA-CASAC-13-004-unsigned.pdf](http://yosemite.epa.gov/sab/sabproduct.nsf/0/39A3C8177D869EA085257B80006C7684/$File/EPA-CASAC-13-004-unsigned.pdf)). The letters from CASAC, as well as public comments received on the ISA drafts can be found in Docket ID No. EPA-HQ-ORD-2011-0051.

EPA has considered comments by the CASAC panel and by the public in preparing this final ISA.

Dated: June 18, 2013.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2013-0380; FRL-9388-4]

### Pesticide Maintenance Fee: Notice of Receipt of Requests to Voluntarily Cancel Certain Pesticide Registrations

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is issuing a notice of receipt of requests by registrants to voluntarily cancel certain pesticide registrations. EPA intends to grant these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the requests, or unless the registrants withdraw its requests. If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the registration has been cancelled only if such sale, distribution, or use is consistent with the terms as described in the final order.

**DATES:** Comments must be received on or before December 23, 2013.

**ADDRESSES:** Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2013-0380, by one of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- **Mail:** OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.

Submit written withdrawal request by mail to: Information Technology and Resources Management Division (7502P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001. ATTN: Michael Yanchulis.

- **Hand Delivery:** To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.htm>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

#### FOR FURTHER INFORMATION CONTACT:

Michael Yanchulis, Information Technology and Resources Management Division (7502P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (703) 347-0237; email address: [yanchulis.michael@epa.gov](mailto:yanchulis.michael@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

##### A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides.

##### B. What should I consider as I prepare my comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.
