

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD has submitted to OMB a request for approval of the information collection described in Section A. The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on March 18, 2013.

A. Overview of Information Collection

Title of Information Collection:

Uniform Physical Standards and Physical Inspection Requirements.

OMB Approval Number: 2502-0369.

Type of Request: Extension without change of a currently approved collection.

Form Number: HUD-92426.

Description of the need for the information and proposed use: All multifamily properties with Section 8 project based assistance or housing with HUD insured or HUD Held mortgages or Housing that is receiving insurance from HUD must be inspected regularly. Entities responsible for conducting physical inspections of the properties are HUD, the lender or the owner. Owners/Agents which have been cited with Exigent Health and Safety (EH&S) deficiencies must certify that (EH&S) deficiencies noted during the than 30 days past due on a mortgage payment, and to elect to assign a defaulted mortgage to the Department (per regulations at 24 CFR Part 207.256) by the 75th day from the date of default. To avoid an assignment of mortgage to HUD, which costs the Government millions of dollars each year, HUD and the mortgagor may develop a plan for reinstating the loan since HUD uses the information as an early warning mechanism. HUD Field Office and Headquarters staff use the data to (a) monitor mortgagee compliance with HUD's loan servicing procedures and assignments; and (b) potentially avoid mortgage assignments. This information is submitted electronically via the Internet.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The number of burden hours is 1,159. The number of respondents is 44, the number of responses is 6,959, the frequency of response is 158, and the burden hour per response is 10 minutes.
