SUPPLEMENTARY INFORMATION:

1. Abstract

The Annual Survey of U.S. Direct Investment Abroad (Form BE-11) obtains financial and operating data covering the operations of U.S. parents and their foreign affiliates, including their balance sheets; income statements; property, plant, and equipment; employment and employee compensation; merchandise trade; sales of goods and services; taxes; and research and development activity. The survey is a sample survey that covers all foreign affiliates above a size-exemption level and their U.S. parents. The sample data are used to derive universe estimates in nonbenchmark years from similar data reported in the BE-10, Benchmark Survey of U.S. Direct Investment Abroad, which is conducted every five years. The data are needed to measure the size and economic

significance of direct investment abroad, measure changes in such investment, and assess its impact on the U.S. and foreign economies.

No changes to the survey forms or reporting requirements are proposed.

II. Method of Collection

Survey forms are sent to potential respondents in March of each year; responses covering a reporting company's fiscal year ending during the previous calendar year are due by May 31. A report must be filed by each U.S. person that has a direct and/or indirect ownership interest of at least 10 percent of the voting stock (or the equivalent) in a foreign business enterprise and that meets the additional conditions detailed in Form BE-11.

As an alternative to filing paper forms, BEA offers an electronic filing option, the eFile system, for use in reporting on Form BE-11. For more information about eFile, go to www.bea.gov/efile.

Potential respondents are those U.S. parents that reported owning foreign business enterprises in the 2009 benchmark survey of U.S. direct investment abroad, along with entities that subsequently entered the direct investment universe. The data collected are sample data. Universe estimates are developed from the reported sample data.
