ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R06-OAR-2008-0633; FRL-9900-32-Region6]

Approval and Promulgation of Implementation Plans; Arkansas; Interstate Transport of Fine Particulate Matter

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving portions of State Implementation Plan (SIP) submittals from the State of Arkansas to address Clean Air Act (CAA or Act) requirements in section 110(a)(2)(D)(i)(I) that prohibit air emissions which will contribute significantly to nonattainment or interfere with maintenance in any other state for the 1997 and 2006 fine particulate matter (PM_{2.5}) national ambient air quality standards (NAAQS). EPA has determined that the existing SIP for Arkansas contains adequate provisions to prohibit air emissions from significantly contributing to nonattainment or interfering with maintenance of the 1997 annual and 24-hour PM_{2.5} NAAQS (1997 PM_{2.5} NAAQS) and the 2006 revised 24-hour PM_{2.5} NAAQS (2006 PM_{2.5} NAAQS) in any other state as required by section 110(a)(2)(D)(i)(I) of the Act.

DATES: This final rule is effective on September 30, 2013.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA-R06-OAR-2008-0633. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at the Air Planning Section (6PD-L), Environmental Protection Agency, 1445 Ross Avenue, Suite 700, Dallas, Texas 75202-2733. The file will be made available by appointment for public inspection in the Region 6 Freedom of Information Act Review Room between

the hours of 8:30 a.m. and 4:30 p.m. weekdays except for legal holidays. Contact the person listed in the **FOR FURTHER INFORMATION CONTACT** paragraph below to make an appointment. If possible, please make the appointment at least two working days in advance of your visit. There will be a 15 cent per page fee for making photocopies of documents. On the day of the visit, please check in at the EPA Region 6 reception area at 1445 Ross Avenue, Suite 700, Dallas, Texas.

I. Background

The background for today’s action is discussed in detail in our May 7, 2013 proposal (78 FR 26568). In that notice, we proposed to approve portions of SIP submittals for the State of Arkansas submitted on December 17, 2007, and September 16, 2009, and the technical supplement submitted on March 20, 2013, that determined the existing SIP for Arkansas contains adequate provisions to prohibit air emissions from contributing significantly to nonattainment or interfering with maintenance of the 1997 and 2006 PM_{2.5} NAAQS in any other state as required by CAA section 110(a)(2)(D)(i)(I). This action is being taken under section 110 of the Act. We did not receive any comments regarding our proposal.

II. Final Action

We are approving portions of SIP submittals for the State of Arkansas submitted on December 17, 2007, and September 16, 2009, and the technical supplement submitted on March 20, 2013, to address interstate transport for the 1997 and 2006 PM_{2.5} NAAQS. We approve the portions of the SIP submittals and technical supplement determining the existing SIP for Arkansas contains adequate provisions to prohibit air emissions from contributing significantly to nonattainment or interfering with maintenance of the 1997 and 2006 PM_{2.5} NAAQS in any other state as required by CAA section 110(a)(2)(D)(i)(I). This

action is being taken under section 110 of the Act.

III. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
 - does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
 - is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
 - does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
 - does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
 - is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
 - is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
 - does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country

located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by October 28, 2013. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Revision of Air Quality Implementation Plan; California; Sacramento Metropolitan Air Quality Management District; Stationary Source Permits

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule and technical amendments.

SUMMARY: EPA is finalizing approval of two permitting rules submitted by California as a revision to the Sacramento Metropolitan Air Quality Management District (SMAQMD or District) portion of the California State Implementation Plan (SIP). These revisions were proposed in the **Federal Register** on February 14, 2013 and

concern construction and modification of stationary sources of air pollution within Sacramento County. We are approving local rules that regulate these emission sources under the Clean Air Act as amended in 1990 (CAA). Final approval of these rules makes the rules federally enforceable and corrects program deficiencies identified in a previous EPA rulemaking (76 FR 43183, July 20, 2011). EPA is also making technical amendments to the Code of Federal Regulations (CFR) to reflect this previous rulemaking, which removed an obsolete provision from the California SIP.

DATES: *Effective Date:* This rule is effective on September 30, 2013.

ADDRESSES: EPA has established docket number EPA-R09-OAR-2013-0064 for this action. Generally, documents in the docket for this action are available electronically at www.regulations.gov or in hard copy at EPA Region IX, 75 Hawthorne Street, San Francisco, California. While all documents are listed at www.regulations.gov, some

information may be publicly available only at the hard copy location (e.g., copyrighted material, large maps, multi-volume reports), and some may not be publicly available in either location (e.g., CBI). To inspect the hard copy materials, please schedule an appointment during normal business hours with the contact listed in the **FOR FURTHER INFORMATION CONTACT** section.

I. Proposed Action

On February 14, 2013 (78 FR 10589), EPA proposed to fully approve the following rules that were submitted for incorporation into the California SIP.
