Information is collected from the public regarding the distribution of nonindigenous aquatic species, primarily fish, in open waters of the United States. This is vital information for early detection and rapid response for the possible eradication of organisms that may be considered invasive in a natural environment such as a lake, river, stream, or pond. Because it is not possible for USGS scientists to monitor all open waters for harmful nonindigenous organisms, the public can help by serving as the “eyes and ears” for the USGS’s Nonindigenous Aquatic Species Database Program.

The USGS does not actively solicit this information. Participation in the reporting process is completely voluntary. Members of the public who wish to report the occurrence of a suspected nonindigenous aquatic species, usually encountered through fishing or some other outdoor recreational activity, may fill out and submit a form (<http://nas.er.usgs.gov/SightingReport.aspx>) posted on our Web site. The information requested includes type of organism, date and location of sighting, photograph(s) if available, and basic observer information (to allow the USGS to contact the observer in the event additional information is needed, such as the color markings and size of the specimen collected or observed, to verify the identity of the organism).

The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The public lands proposed for sale include 11 parcels which will be sold as one unit. The lands are approximately 40 miles northwest of Winnemucca, Nevada, and are legally described as:

Mount Diablo Meridian, Nevada

T. 38 N., R. 32 E.,
Sec. 16, N $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$;
Sec. 17, NE $\frac{1}{4}$ SE $\frac{1}{4}$;
Sec. 21, E $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$.

The above described lands contain 440 acres, more or less, in Humboldt County, Nevada.

The identified lands are not required for any Federal purpose and are identified as suitable for disposal and are in compliance with the Paradise-Denio Management Framework Plan approved July 9, 1982, Paradise-Denio, Sonoma-Gerlach Lands Amendment approved January 15, 1999, and the 2012-01 Paradise-Denio, Sonoma Gerlach Lands Amendment Plan Maintenance documentation, which clarifies the parcel identification language in the previously approved 1999 Paradise-Denio, Sonoma-Gerlach Lands Plan Amendment.

A Decision Record and a Finding of No Significant Impact was signed July 20, 2010, for Environmental Assessment (EA) DOI-BLM-W010-2010-0006-EA which analyzed the direct, indirect and cumulative impacts of the proposed sale. Three responses were received on the EA with suggested clarifications which were incorporated in the document.

An improved county gravel road bisects those parcels in sections 16 and 17, otherwise the subject property and portions of the parcels do not have legal access or an authorized access right-of-way. Humboldt County has a site right-of-way for a man camp and water well to be used for domestic purposes, for times when they are performing road work in the area.

Due to the remoteness of these parcels, their proximity to DeLong Ranches private property, and a lack of access via a county road or authorized right-of-way to all of the parcels, it was determined a modified competitive sale
