SUPPLEMENTARY INFORMATION:

I. Abstract

This notice is for the extension of Paperwork Reduction Act requirements regarding fishing gear marking requirements. Regulations at 50 CFR 648.84(a), (b), and (d), 648.123(b)(3), 648.144(b)(1), 648.264(a)(5), and 697.21(a) and (b) require that Federal fishing permit holders using certain types of fishing gear mark the gear with specified information. The gear marking requirements provide vessel and gear identification information (e.g., hull identification number, Federal fishing permit number, etc.). The regulations also specify how the gear is to be marked for the purposes of visibility (e.g., buoys, radar reflectors, etc.).

The quantity of gear in the case of longline, pots, and traps is not the number of hooks, pots, or traps, but rather the number of attached end lines associated with each string of hooks, pots, or traps. As such, a single Federal permit holder may be responsible for marking several strings of a given gear type, or may use multiple different gear types that require marking. These gear marking requirements aid in fishery law enforcement, make the gear more visible to other vessels to aid in navigation, and provide other fishermen with information regarding the gear type being used to help prevent gear conflicts.

II. Method of Collection

No information is submitted to the NMFS as a result of this collection. The vessel's hull identification number or other means of identification specified in the regulations must be affixed to the buoy or other part of the gear as specified in the regulations.
