Supplemental Draft Environmental Impact Statement/General Management Plan, Biscayne National Park, Florida

AGENCY: National Park Service, Interior.

ACTION: Notice of Availability of a Supplemental Draft Environmental Impact Statement for the General Management Plan, Biscayne National Park.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service (NPS) announces the availability of a Supplemental Draft Environmental Impact Statement/General Management Plan (Supplemental Draft EIS) for Biscayne National Park (Park), Florida. The Supplemental Draft EIS describes and analyzes two new alternatives that have been developed since the 2011 release of the Draft Environmental Impact Statement/General Management Plan (Draft EIS). A new NPS preferred alternative has been proposed that incorporates various management prescriptions to ensure protection and enjoyment of the Park's resources, while providing access for visitors.

DATES: The NPS will accept comments for a period of 90 days following publication of the Environmental Protection Agency's Notice of Availability in the **Federal Register**. We will announce the dates, times, and locations of public meetings on the Supplemental Draft EIS through the NPS Planning, Environment, and Public Comment (PEPC) Web site: <http://parkplanning.nps.gov/BISC> and media outlets.

ADDRESSES: Electronic copies of the Supplemental Draft EIS will be available online at <http://parkplanning.nps.gov/BISC>. A limited number of compact disks and printed copies will be also available at the Park headquarters, Biscayne National Park, 9700 SW 328 Street, Homestead, FL 33033-5634.

FOR FURTHER INFORMATION CONTACT: Superintendent Brian Carlstrom, Biscayne National Park, 9700 SW 328 Street, Homestead, FL 33033-5634 or by telephone at (305) 230-1144.

SUPPLEMENTARY INFORMATION: The NPS released the Draft EIS to the public in August 2011. Electronic copies of the Draft EIS can also be found online at <http://parkplanning.nps.gov/BISC>. During the public comment period, over 18,000 pieces of correspondence were received, which contained over 20,000 comments. A key component of the agency-preferred alternative in the Draft GMP/EIS was inclusion of a marine reserve zone. The marine reserve zone was proposed as an area in the park where fishing of any kind would be prohibited in order to allow a portion of the Park's coral reef ecosystem to recover and to offer visitors a high-quality visitor experience associated with a healthy, intact coral reef ecosystem. During the August 2011 public comment period, a number of substantive comments were received that identified both positive and negative impacts related to the establishment of the marine reserve zone. In particular, the Florida Fish and Wildlife Conservation Commission (FWC), with whom the National Park Service consults regarding fishing management actions in the Park, raised a number of significant issues about the NPS preferred alternative, including the marine reserve zone. The position of the State of Florida was that any consideration of a marine reserve zone could only occur after measurable management objectives have been clearly defined and less restrictive management measures have been appropriately implemented and evaluated in close coordination with agencies and stakeholders.

Based on the comments received, the NPS undertook an evaluative process to consider a number of management actions that could be deployed to achieve the goal of providing a diversified visitor use experience, while protecting the Park's natural and cultural resources. Two new alternatives (alternatives 6 and 7) were developed in consultation with the FWC and the National Oceanic and Atmospheric Administration. These alternatives contain many of the same elements as
