I. Abstract

The House Committee on Ways and Means and the Senate Committee on Finance (the Committees) have directed the Commission to produce a report that examines Indian policies that discriminate against U.S. trade and investment and estimates the effects these barriers have on the U.S. economy and U.S. jobs. The Committees have requested that the report should (1) Provide an overview of trends and policies in India affecting trade and foreign direct investment; (2) describe the significant policies currently maintained by India, the U.S. sectors most affected by these policies, and Indian competitiveness in the affected sectors; (3) present case studies of the effects of particular measures; (4) quantify the economic effects of identified Indian measures on the U.S. economy; and (5) survey U.S. firms in selected sectors on their perceptions of recent changes in Indian policies and the effect these changes have on U.S. firms' strategies towards India. The

Commission will base its report on a review of available data and other information, including the collection of primary data through a survey of U.S. firms in industries particularly affected by Indian policies.

II. Method of Collection
